I was left speechless this morning watching Pima county BOS meeting, witnessing outrageous actions and gross negligence of participants. The one reasonable voice was a supervisor Steve Christy (R) who tried to do his job and stood for our most important legal documents; our votes. The rest of supervisors didn't even show to care about not having enough time to review canvassing material before they'd vote on Our Legal Documents.

Those were not professional, but clearly biased actions violating our basic human rights. How about if we the people demand a forensic audit of every single Pima BOS who mindlessly and carelessly voted Yes without taking proper time to study on the issues concerning this midterm elections. It's evident the only voter suppression happened to voters who voters on Election Day and we know those voters didn't vote for communists

Dr. Heinz also needs explain his outrageous interference of Supervisor Christy time expressing legitimate concern of many issues including SOS Hobbs accountability as she clearly never recused herself.

Dr. Heinz need not only apologize for his outrageous disrespect to his college, but needs to be hold accountable for his actions. He lied about SOS Hobbs comparing Arizona to Georgia and calling her "governor-elect", before Arizona ever finished qualifying this election is dangerously misleading.

We are calling for accountability and resignation of Dr. Heinz for not being fit to represent Arizona people.

Thank you,
Veronica Corcoran,
Concerned Arizona citizen

Please hold off certification of the canvass results until Cochise County Board of Supervisors receive satisfactory evidence and answers from the US Election Assistance Commission. We do not have to rush the process. Better to get it right.

Please add my comments into official records.
