Greetings Supervisors,

Just a reminder that the conservative voters are watching and will remember your actions on election day.

Thank you,

Don Zavis

I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. Research shows consolidating polling places suppresses voter turnout. This is particularly true for minority and low-income voters. E-Pollbooks are a disaster: they're connected to the internet, easily hackable, and frequently malfunction.

Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.

**Subject:** RE: Decrease in Voting Locations and Technological Redesign of Pima County Elections

Good Morning Lynne Nelson,

Thank you for taking the time to contact our office, we always appreciate hearing from constituents.

I will give your message to Supervisor Brønson.

Thank you,

*Anissa Ramirez*

Dear Supervisors Bronson, Christy, and Grijalva,

Please read my comments into the official record. I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. Research shows consolidating polling places suppresses voter turnout. This is particularly true for minority and low-income voters. E-Pollbooks are connected to the internet, easily hackable, and frequently malfunction.

Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to encourage voter turnout by ensuring our local precinct voting locations are very accessible, and there's no change to our paper Pollbooks.

20220211051011

I request that you please read my comments into the official record.

My concerns involve the proposed change to centralized Voting Centers and the use of Electronic Pollbooks.

A move to centralized voting centers will make getting out to vote more difficult for some Pima County voters — particularly for those who may not have the ability to easily reach a polling center (vs. the one that's in their precinct and closer to home.) This can lower voter turnout!

Electronic Pollbooks are prone to malfunctioning and can be vulnerable to Internet-based attacks. Who pays the penalty if, for instance, a device malfunction interrupts the check-in process or, even worse, a data breach occurs involving personally identifiable information collected on these devices? You and your fellow voters do.

United States elections should be decentralized, accessible, and accountable. We can maintain this standard in Pima County by ensuring that local precinct voting locations aren't consolidated, and by continuing the use of paper Pollbooks.

**Subject:** This comment is requested to be read into the record at the next Pima County Board of Supervisor's meeting.

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

The plan to suppress votes for 2022 won't stand! Decide to make a complete overhaul of voting operations in Pima County is not now.

I ask you to NOT disenfranchise Pima County voters with centralized voting centers and E-Pollbooks. Research shows consolidated polling places suppress voter turnout. This is particularly true for minorities and low-income voters. E-Pollbooks are a disaster. They're connected to the internet, easily hacked, and frequently malfunction.

Elections in the US were purposely structured to be disenfranchised, accessible and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.
