Subject: Re: agenda items 6 and 7

[REDACTED]

thank you, Melissa. As we discussed, I meant to comment on Digital Inclusion week
 I appreciate your alertness and attention to detail

AI can be a wonderful tool, and all should be allowed to use it. But we do not want to BE USED BY IT to consolidate central control of our lives. Remember that if a product is "free" to you, you ARE the product. Your info is used to achieve marketing, ideological, or control goals.

Tucson cannot be a "15-minute city." We cherish wide-open spaces and do not want to be forced to live in the pod. There may be a doctor within 15 minutes of me, but the one I trust is 45 minutes away. And 15 minutes by what means? Some of us can't walk a block in 15 minutes. And to walk or bike in Tucson with the crime and impaired drivers may be suicidal.

Why would we care about Arizona having a "global impact"? The BoS is supposed to serve its citizens, not some global authority. Nothing we can do can affect climate, but the regulations imposed on the pretext of improving global weather 50 years from now can destroy prosperity and health for Arizonans now and for years.
