OEM, DEQ, other agencies work to protect residents from disasters

Aug 04, 2016 | [Read More News](#)

 Share

The Pima County Department of Environmental Quality is actively participating in the collaborative working group, headed up by the Pima County Office of Emergency Management (PCOEM), that is updating the 2017 Pima County Multi-Jurisdictional Hazard Mitigation Plan. This plan is used to identify risks and vulnerabilities associated with potential disasters and to develop long-term strategies for mitigating these risks in order to protect the residents of Pima County.

The hazards addressed in this plan include disease, drought, extreme temperatures, floods, wildfires, and more.

We encourage the public to comment on the current plan and the final draft when the plan is updated. The 2012 plan is currently available for viewing and comment on the Pima County website at [PCOEM Mitigation](#).

Comments may be submitted through the electronic form also located on the [PCOEM website](#). The 2012 plan is available for comment and revisions before FEMA approval by the end of the 2016 calendar year.

Once plan revisions are complete, the final draft will be made available for review and comment, so please check back with PCOEM regularly. Additional information regarding hazard mitigation and the Pima County Multi-Jurisdictional Hazard Mitigation Plan can be found on the [PCOEM webpage](#).

If you have questions, please contact: Courtney Bear, Program Manager, PCOEM, (520) 724-9300.

Environmental Quality

Pima County Department of Environmental Quality (PDEQ), formed in 1989, serves Pima County by protecting public health and the environment. PDEQ operates programs to monitor air and water quality, hazardous waste, solid waste, and assist in waste minimization and pollution prevention. PDEQ also provides public outreach, education, and citizens' assistance; processes environmental permits; and responds to public complaints and inquiries with investigations and enforcement.

Our Mission

Preserve and protect the environment of Pima County for the long-term benefit of residents' health, welfare, safety, and quality of life. Identify and respond to environmental issues by providing public services including monitoring, enforcement, information, education, and solid waste management.

TOWN OF MARANA

Emergency manager x +

maranaaz.gov/safety-and-emergency-management

EMERGENCY MANAGEMENT

The Town of Marana's Office of Emergency Management seeks to be more prepared for hazards and disasters that may affect the Town. Our goal is to prepare for, respond to, and recover from natural disasters, terrorism, or other man-made disasters. This department is in communication with other local, county, state, and federal emergency management agencies to prepare for and to respond to an event, should one occur in the Town of Marana.

The Town of Marana is participating in the collaborative working group updating the 2017 Pima County Multi-Jurisdictional Hazard Mitigation Plan. Click the button below to learn more about this plan.

HOMELAND SECURITY

Homeland Security

The Oro Valley Police Department along with the Town of Oro Valley are committed to the safety and protection of its citizens and employees. With the events of September 11, 2001, the Oro Valley Police Department established the Town of Oro Valley Office of Emergency Management. The goal of this division is to provide employees of the Town of Oro Valley the proper training and equipment to maintain our high level of service in any type of man-made, technological or natural disaster that it may be confronted with. This includes Personnel Protective Equipment (PPE), National Incident Management System (NIMS) and series of exercises to strengthen the response and decision-making capabilities of Town personnel.

Hazard Mitigation Plan Update

The Town of Oro Valley is actively participating in the collaborative working group updating the 2017 Pima County Multi-jurisdictional Hazard Mitigation Plan. This plan, which was drafted in 2012 and is updated every 5 years, is used to identify risks and vulnerabilities associated with potential disasters and to develop long-term strategies for mitigating these risks in order to protect the people of Oro Valley.

The public will have the opportunity to comment on the current plan and the final draft of the updated plan. The comment period has begun for the current plan. The 2012 plan is available for viewing on the Pima County website. Comments may be submitted through the electronic form also located on the Pima County website. Once plan revisions are complete, the final draft will be made available for review and comment, so please check back regularly. Additional information can be found on the Pima County website. If you have questions, please contact: Char Ackerman at ackerman@orovalleyaz.gov.

Hazard Mitigation Plan Update.

Pascua Yaqui Tribe and Pima County Begin Work on Hazard Mitigation Plan Update

Posting August 24, 2016

Hazard mitigation planning is the process used to identify risks and vulnerabilities associated with disaster and to develop long-term strategies for protecting people and property in future hazard events. The process results in a mitigation plan that offers a strategy for breaking the cycle of disaster damage, reconstruction, and repeated damage and a framework for developing appropriate mitigation projects. Under the Disaster Mitigation Act of 2000 (DMA2K), state, county, local and tribal governments are required to have a FEMA approved hazard mitigation plan as a condition for receiving mitigation grant funds.

In order to meet the requirements to ensure continued assistance eligibility, a planning team comprised of representatives from the Pascua Yaqui Tribe and Pima County will be meeting regularly to update the current hazard mitigation plans for the participating jurisdictions. The planning team anticipates having a plan draft in the fall of 2016, at which time public access to the plan will be provided, with the opportunity to comment.

The primary areas of work focus in the plan development are:

- Identify hazards that may impact or have impacted the community
- Develop a profile of the most relevant hazards
- Assess vulnerability to hazards
- Establish goals and objectives for hazard risk reduction/elimination
- Develop action projects to achieve goals and objectives

Hazard Mitigation Plan Update.

Pascua Yaqui Tribe and Pima County Begin Work on Hazard Mitigation Plan Update

Posting August 24, 2016

Posting August 24, 2016

Hazard mitigation planning is the process used to identify risks and vulnerabilities associated with structures and to develop long-term strategies for protecting people and property in hazard-prone areas. The process results in a mitigation plan that offers a strategy for reducing the risk of future damage, reconstruction, and required cleanup and recovery for developing appropriate mitigation projects. Under the Disaster Mitigation Act of 2002 (DMA 2002), more money for state and tribal governments are required to have a FEMA approved hazard mitigation plan in a condition for receiving mitigation grant funds.

In order to meet the requirements to ensure continued structural integrity, a planning team comprised of representatives from the Pascua Yaqui Tribe and Pima County will be meeting regularly to update the current hazard mitigation plan for the participating jurisdictions. The planning team meetings begin a year back in the fall of 2016. A public hearing will be held in the future with the opportunity to comment.

The primary areas of work focus in the plan development are:

- Identify hazards that may impact or have impacted the community
- Develop a profile of the most vulnerable hazards
- Assess vulnerability to hazards
- Establish goals and objectives for hazard risk reduction/mitigation
- Develop action projects to achieve goals and objectives.

Hazard Mitigation Plan Update

Pima County is in the process of updating the 2012 Multi-Jurisdictional Hazard Mitigation Plan. Every 5 years, the Town of Sahuarita is required to work with the jurisdictions in Pima County to update the plan for FEMA with assistance from the Arizona Department of Emergency and Military Affairs. The plan is used to identify risks and vulnerabilities associated with potential disasters and to develop long-term strategies for mitigating these risks in order to protect Sahuarita and its citizens.

Public comment on the current plan is now being accepted. To review the current plan and comment, go to the Mitigation Planning section of the [Pima County Office of Emergency Management and Homeland Security webpage](#). Before the end of 2016, the final draft of the update will be posted for comment prior to submission to FEMA for approval.

Updated information will be posted on the [Pima County website](#) throughout the process. Please check for updates.

Questions? Please email Brian Greseclose at bgreseclose@sahuaritaaz.gov.

CITY OF TUCSON

The screenshot shows the Twitter profile for Tucson OEM (@TOEMHS). The profile header includes navigation icons (Home, Moments, Notifications, Messages, Search Twitter) and the user's name and handle. The profile statistics are: 223 Tweets, 62 Following, 103 Followers, and 1 Like. The bio identifies the user as the Tucson Office of Emergency Management and Homeland Security, located in Tucson, AZ, with a website link to tucsonaz.gov/emergency-mana... and a join date of November 2012. The main content area features a tweet from Tucson OEM (@TOEMHS) posted 3 minutes ago, which is a retweet of a tweet from Tucson Fire PIO (@TucsonFirePIO) dated August 2. The retweeted tweet asks, "Can you tell how deep the water is? How fast is it flowing? 8" can move your car. #turnarounddontdrown #TFD" and includes a video thumbnail showing a flooded area with a play button icon. The left sidebar contains a "Who to follow" section with suggestions for Lt Corey Doggett (@doggett), CoronaFire (@CoronaFire), and Tucson Metro Chamber (@TucsonMetroChamber). Below this is a "Tucson Trends" section with hashtags #OpeningCeremony (26.5K Tweets) and #FlashbackFriday.

The screenshot shows the City of Tucson website at the URL <https://www.tucsonaz.gov>. The page features a navigation menu with categories: Government, Neighborhoods, Business, City Info, Departments, and I Want To... A search bar is located in the top right corner. The main content area displays a large image of a road closure with 'ROAD CLOSED' and 'FLOOD AREA' signs. To the right of the image is a text box titled 'Comment on the Multi-Jurisdictional Hazard Mitigation Plan' with the following text: 'The City of Tucson is participating in the collaborative working group updating the 2017 Pima County Multi-Jurisdictional Hazard Mitigation Plan.' Below this is a grid of eight circular icons representing various city services: Report an Issue, Business Assistance, Make Payments, Transit, Jobs, Tucson 12, Courts, and Streets and Traffic. At the bottom of the page, there are three sections: 'TOP REQUESTED' (Proposed Fee Changes, Tucson Water Online Account), 'NEWSNET LATEST HEADLINES' (Portion of Stone Avenue to Close for Reconstruction), and 'CITY TWITTER FEED' (Tweets by @cityoftucson). The Windows taskbar at the bottom shows the system time as 2:48 PM on 8/16/2016.
