- Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day!
- Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! No more being told you're in the wrong place!
- Pima is behind on the technology 11 of the 15 counties in Arizona are already using Vote Centers!
- It'll increase the number of valid ballots counted! Every vote counts!

FUND ALL OUR SAFE VOTING OPTIONS NOW !!!!!!!!!!!!!!!!!!!!!!!

**Subject:** Board meeting comment

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

The following comment is requested to be read into the record of the next Pima county board of supervisors meeting

As a long time Pima county resident, I ask you: do not implement the plan to eliminate poll locations, use new electronic voting devices and turn over election results to third parties for tabulation. Currently the State legislature is working on laws to make voting less subject to fraud and bring back voter confidence to elections. These measures do the opposite.

We need more - not less, polling locations, local accountability to count the vote, and one on one counting votes which is less subject to fraud.

Sincerely  
Kay Wilkin  
Tucson az

**Subject:** NO on E-Poll Books and Voting Centers

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

I am Jim Pollack legal citizen of the United States, a resident of Pima County and a registered voter.  
contact: [REDACTED]

I request that my comments be read into the record at the next Pima County Board of Supervisors Meeting.

I am requesting a vote of NO on E-Poll Books and the establishment of voter centers. Going from 240 precincts to 100 voter centers makes absolutely no sense. This would create longer lines, much confusion and could or would delay election results.

Sincerely  
Jim Pollack  
Green Valley

**From:** John Emery <[REDACTED]>  
**Subject:** Changing voting procedures in Pima County  
**Date:** February 11, 2022 at 5:16:56 PM MST

Greetings Mr. Christy,

I am writing to you and the rest of the Board of Supervisors to urge you not to introduce electronic poll books, and please do not reduce the number of polling places Pima County. At a time when voter confidence is at an all time low due to the mistakes of the last election, now is no time to introduce more computer processing into the election. Most people are aware of Maricopa's problems with this new system in their last election and want no part of it in our county.

Also, reducing the number of polling places by over half is very unwise to say the least. This will increase lines and time required to vote, which is really voter suppression as many voters may choose to stay home. I can assure you that if this new system is deployed for this election, the turnout for the next Board of Supervisors election will increase dramatically and the results will not favor incumbents who voted for these changes.

I request that this letter be read and made part of the official record of your meeting on February 15, 2022.

Thank you in advance for your consideration.

Sincerely,

John Emery. D.V.M.

Clerk of the Board,

**Please read my comments into the official record.**

As a Pima County resident and citizen, I contact you today to implore you to **not** take up the Election Board's push to de-stabilize our upcoming elections. This is not the time to be making radical changes to how citizens vote!

I ask you to NOT disenfranchise Pima County voters with centralized Voting Centers and E-Pollbooks. With what we just went through in 2020, this is not the time to introduce new procedures and technology to voters. Research shows consolidating polling places suppresses voter turnout. This is particularly true for minority and low-income voters. E-Pollbooks are a disaster: they're connected to the internet, easily hackable, and frequently malfunction.

Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations aren't consolidated, and there's no change to our paper Pollbooks.

Thank you,

Maria Lopez

**Subject:** Re: Election Proposal BAD IDEA

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

This is an urgent request for you to please let my voice be heard in the record. It is imperative not to suppress the vote in Pima County by this proposal. There has been much hoopla since our last election regarding election integrity and this will only fuel that fire that our elections are not secure. This is too much change and the public out-cry must be heard. Many will not take the time to write to you about this, but many of us old-timers are having a difficult time when our established polling locations change. There is no need for this. Our country has survived these many years because we had fair and free elections.

Election Integrity is the # one issue across America right now! Limiting polling locations and utilizing electronic poll books only increases the risk for hacking and the fear of hacking! This is very irresponsible. What has happened to America? Pima County can do better than this.

**Subject:** NO VOTE - Electronic Pollbooks / Voting Centers

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please read my comments into the official record. I ask you to NOT further alienate Pima County voters with centralized Voting Centers and E-Pollbooks. Elections should be brought to the voters and NOT unnecessarily force voters to travel unjustifiable distances to cast their vote in an Election. Pima County is not a 3rd world country and voters should not be treated as such.

In January 2022, I participated in meetings with the Elections Department Acting Director, Mary Martinson, and Pima County Recorder, Gabriella Cazares-Kelly. Both expressed their biggest concern is the lack of voter confidence in the Pima County Election process and the fatigue of office workers fielding phone calls from furious voters. Reducing the number of polling locations will most certainly increase voter complaints and connecting election equipment to the internet will continue to reduce voter confidence.....Neither of these proposed process changes addresses Pima County's biggest concerns.

Additionally, with the various Election Integrity bills currently in process at the State level, it would appear premature to implement such sweeping changes at this time. The money to implement the new processes for one election cycle will be wasteful.

BUT maybe none of this matters to the Election Integrity Commission who has recommended approval and to the Pima County Board of Supervisors should they approve, too. ***Implementation of Voting Centers and E-Pollbooks will ensure CHEATING continues and appears to TRUMP (no pun intended) restoring voter confidence.***

*PLEASE DON'T GIVE VOTERS ANOTHER REASON TO SIMPLY DECIDE TO STAY HOME.*

Respectfully,  
Lisa Stuessel  
Pima County Resident

This comment is requested to be read into the record at the next Pina County Board of Supervisors meeting.

Voter Confidence and Election Integrity is a big problem. The proposal coming forth this Tuesday the 15<sup>th</sup>, does nothing to increase voter confidence. Reducing voting locations by 57% on its face is making it less convenient to vote. The idea of electronic poll books controlled by Apple or third parties will just exacerbate the problems we are facing right now with election fraud, not to mention being able to print ballots right then and there.

All of this just 4-months before the primary voting season starts.

There are many election integrity bills being brought forth in the state legislature to add more precincts, less technology, and higher security. Changing our voting process at this time seems to be a moot point.

I ask you please to vote down this proposal by the recorder's office.

I currently live in unincorporated Pima County

Sincerely,

Kevin P Obrien

Clerk of the Board,

This comment is requested to be read into the record at the next Pima County Board of Supervisors Meeting.

We urge a vote NO on e-polling. Pima County has lost voter's trust. Do NOT disenfranchise Pima County voters with centralized Voting Centers and e-Pollbooks. As a web designer I understand how insecure internet connections are and how easily systems are hacked - we've all been a victim of a database breach at least once. This is the wrong direction.

PLEASE vote NO!!

Re: Modernizing Voting System – Vote NO

Dear Pima County Board of Supervisors

Please read my comments into the official record. We the people do NOT want one of our most sacred rights of voting to be disenfranchised with centralized Voting Centers and E-Pollbooks. Recent polls indicate 56% of American's lack confidence in the election process and don't think their vote counts. Consolidating polling locations suppresses voter turnout and a sense of community. When the American Public is involved in the elections they participate and have confidence in the election process. E-Pollbooks are a disaster, will create more division, and further break Voter confidence. They're not transparent, and are connected to the internet, are easily hackable, and frequently malfunction.

Elections in the United States were purposely structured to be decentralized, accessible, and accountable. Pima County needs to earn back the trust of voters by ensuring our local precinct voting locations are robust, accountable, and placed at the precinct level. A vote to consolidate polling locating by removing 57% of voting locations and 'modernizing' the Pollbooks so that they are hackable goes against our democracy.

Do the right thing and vote against this horrible idea.

Regards

Annie Szalay

**Subject:** please say NO to centralized voting centers and e-pollbooks

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

To whom it may concern,

I ask you to please vote NO to centralized voting centers and the use of E-Pollbooks. Creating voting centers will suppress voter turnout, particularly for low income and minority groups as per the research. It would be a disservice to all of Tucson to reduce anyone's right to vote by decreasing access in any capacity whether it be decreasing voting hours, increasing the difficulty of finding transport to a voting location or decreasing the number of locations where one can vote making it more difficult to find or farther away from one's home.

E-Pollbooks spell trouble-- anything connected to the internet has the capacity to be tampered with or hacked. And we all can agree that, oftentimes, it malfunctions or performs poorly. The last thing Tucson needs is a delay in voting access with internet malfunctioning or a hackable system that would undermine the integrity of our voting system.

Please read my comments into the official record.

Thank you,

This comment is requested to be read into the record at the next Pima County Board of Supervisors Meeting.

After the last election, the Peoples trust in electronic voting is all but gone! Centralized polling locations and E-Pollbooks will do nothing but sow distrust among Pima county residents of the outcome of yet another election! I find it incredible that this is even being proposed, as of a year ago they were trying to allow drop boxes everywhere and now this election they want E-pollbooks that are easily hack-able. I recommend smaller precincts and MORE places to vote. It will be easy to hand count the ballots, submit the results and know who won what election that same evening! Eliminating in person polling places and forcing people to use electronic devices they don't trust or travel a longer distance to vote sounds like you are forcibly disenfranchising voters!

regards,  
Kirk Taylor

I request that this comment be read into the record at the Pima County Board of Supervisors meeting on February 15, 2022:

In view of the real problems with Maricopa County election integrity in 2020, we need LESS technology, better voter roll maintenance, higher security for ballots, more transparency and accountability. I am opposed to electronic voting (E-Pollbooks) – any system connected to the internet with the POSSIBILITY to be hacked. I favor keeping the same polling locations with the polls closing at a specified time (7pm worked) and ballots counted immediately. Pima County needs to earn back the trust of voters by ensuring voting locations aren't changed and our paper ballots are secure.

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Please read my comments into the official record. Voting Centers cause confusion on where to go, and it will force voters to put their health and safety at risk by standing in long lines and in crowded unsafe conditions. Voting Centers disenfranchise all in-person voters but hurts minority and low-income voters the most. These groups often have limited transportation options, and less time or flexibility to vote. There are many problems with E-Pollbooks: they're connected to the internet, have no uniform standards and are easily hackable. E-Pollbooks have contributed to chaos in multiple states with their malfunctions, which has caused excessive delays, preventing people from voting. Voting Centers and E-Pollbooks separately or together equal the definition of Voter Suppression.

**HAVE A BLESSED DAY!**

Please read my comments into the official record.

I work at the polls in Picture Rocks. Over the years I have found that we have the most voters in the morning when people are going to work and in the afternoon when people are heading home from work. During those two times we have people standing in line to vote. Picture Rocks has a lot of working class people who drive a long way to and from work. Reducing the number of polling places will make voters in Picture Rocks drive even farther and increase their waiting times, thus making it much harder for the working class people of Picture Rocks to vote. Centralized Voting Centers will definitely suppress the vote in Picture Rocks and other rural areas in Pima County. And like other rural low income areas of the county, the people of Picture Rocks have far less political influence than urban and suburban voters. Centralized Voting Centers will disenfranchise the people of Picture Rocks even further!

E-Pollbooks - There are so many concerns with E-Pollbooks. They are connected to the internet and therefore can be hacked. What happens if they crash or have a computer glitch? People get to wait in line even longer or, even worse, become disenfranchised. Working people are short on time, some won't be able to wait for computer glitches to be fixed and will have to leave before voting. Many people do not trust these electronic systems. Therefore going to E-Pollbooks will increase distrust of our election process and increase disunity in our county.

Your proposal to establish Centralized Voting Centers and use E-Pollbooks will suppress voter turnout, disenfranchise voters, and increase distrust of our political system. It will hurt the poor and working class people of rural Pima County the most. Please vote against these proposals!

Thank you!

Centralized Voting Centers - I live in Picture Rocks. It's a rural area with geographically large precincts. Centralized Voting Centers will make people here drive even farther to vote. Ours is a lower income/working class area, people are already hard pressed for time and short of money. Adding the extra burden of driving even farther to a Centralized Voting Center will suppress voting in Picture Rocks!

E-Pollbooks - What could go wrong with that! Let me tell you - fraud, system hacking, computer malfunctions, computer crashes which all lead to **disenfranchisement** of the voters of Pima County! Further, there is a tremendous amount of distrust of these electronic systems. The County Board should not add to that mistrust of our elections by going to E-Pollbooks!

Please vote NO on Centralized Voting Centers and E-Pollbooks!

Please vote Yes on establishing vote centers and automating pollbooks. No more disqualifying "out of precinct" votes.

I experienced confusion several years ago when the polling place I had used for several prior elections was moved. I had received a postcard but didn't check it thoroughly. I was persistent and found the right polling place but it was very stressful for me to do on a work day. Vote centers would fix that problem.

Thank you,

Dear Board of Supervisors,

Please vote in support of voting centers for Pima County to be sure that every vote counts no matter where it is cast in Pima County. We need to get our technology up to date that the majority of counties in AZ are using to enable this. That way any registered voter can cast their ballot at any Vote Center and not be impeded or inconvenienced by having to go to just one place.

Thanks in advance for doing the right thing,

Linda Henneman  
Tucson

**Subject:** America's prejudice against voting. We must eliminate the prejudice now.

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear County Board Supervisors:

I urge you each to vote for Pima county establishing Vote Centers, to properly staff each center with enough paid or volunteer poll workers to make the centers effective and to use public funds to advertise the purpose, location and hours of each center especially in low voter turnout neighborhoods/parts of the county.

When our founding fathers and mothers established voting in the British colonies long before the American Revolution only one or two places such as New Jersey allowed Black men and white women to vote.

Once the USA was established then women, minority Blacks, Native Americans, etc. were eventually all outlawed from voting.

Today we have a resurgence of prejudice against "minorities" by white Republican legislators across the USA to reduce and eliminate if possible the vote of minorities, of low income persons, handicapped, etc. citizens not due to color, sex, or income but due to the fact that these persons may many times vote for the Democratic Party rather than Republican Party.

Republicans must be aware of revenge in the voting booth. In our Nation the future will be, for many parts of our Nation, to have the "majority" of the population peoples of what is NOW a "minority" population. Whites in the state of Hawaii have always been in the minority and other states such as NM, TX, CA and others will follow this trend.

The simple motto of "do onto others as you would have them do onto you" is the Golden Rule that applies here.

To build a better America all Republicans, all Democrats, all Greens, etc. must vote for the freedom of all peoples of our Nation to vote in every election. Thus I urge you each to vote in favor of Vote Centers in Pima County!

Peace

As a disabled person living in Tucson voting has always been challenging. Many voting locations do not have paved accessible parking or wheelchair accessible entrances. If I could go to any location to vote, that would make such a difference.

Thank you for considering my input and helping to make voting more equitable.

Greetings, Supervisors.

I strongly support VOTE CENTERS. Vote Centers will make voting easier for working people and people who are not near their voter precincts during poll hours. Vote Centers have been used very successfully in Maricopa County. We as a state need to move to make voting easier and more convenient.

Thank you  
Greer Warren

Dear Board of Supervisors:

I'm writing to express my support for the implementation of the vote center concept in Pima County.

One of the issues that voters can face is being told they are in the wrong precinct and that they need to go to another location to cast their vote. I have been a poll worker and a poll observer in past elections and have seen this happen. Having voting centers where any registered Pima County voter can cast their vote would eliminate that problem.

In addition it would make voting more convenient for working people who would have the choice of voting locations near their work versus their home.

Anything that makes voting easier and more convenient and increases the turnout in an election is a good thing. Please vote Yes for voting centers.

To : Pima County Supervisors

I want the Pima county supervisors to vote in favor of establishing vote centers and automating poll books. As an already established practice in 11 other counties, voting centers are inherently more accessible than traditional polling places because how you can vote at any center. I believe this will especially benefit people in rural communities and make it easier for disabled voters who will not have to change where they vote. It also makes voting more accessible to voters by eliminating the possibility of a voter mistakenly going to a location outside their precinct and having to drive an hour out of their way to eat next closest polling place. I am confident that our Pima County Records office and elections department can execute a public information campaign on the new system and carry out a successful and secure implementation of voting centers for the midterm election this fall.

Just do it, please.

John Reeves  
Marana AZ

Dear Board of Supervisors,

Please vote to approve Vote Centers because:

Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day.

Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations.

11 of the 15 counties in Arizona are already using Vote Centers.

It will increase the number of valid ballots counted.

All good things!

Please vote Yes to Vote Centers!

Having voting centers in Pima County is a fantastic idea! It will prevent showing citizens being unable to vote because of showing up at the wrong precinct. Having automating the pollbooks is finally bringing us into the 21st century. With legislative efforts to purge early voting lists (SB 1485) at least this will make it easier to vote on election day.

To the Board of Supervisors:

I request that the Pima County Board of Supervisors vote "Yes" for vote centers on February 15 for the following reasons:

- Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day.
- Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations. No more being told you're in the wrong place!
- Pima is behind on the technology 11 of the 15 counties in Arizona are already using Vote Centers.
- It'll increase the number of valid ballots counted. Every vote counts!

Supervisors

I worked at a polling center for the 2018 General Election. The most frustration on Election Day I witnessed was related to voters reporting to the "wrong" polling location given the resulting time & travel pressures that could interfere with casting their ballot.

The plan proposed by the Recorder's office will reduce this common source of frustration and ease demands on poll workers. Please consider the cost-benefit ratio of this plan and vote to approve the proposed improvements.

Dear Supervisor Scott,

Please support the Vote Centers proposal for Pima County. I'd like to share my own story about why it's a good idea.

When I moved to Tucson, I voted at Lutheran Church of the Foothills. The following election, I went there again. But I was told I could not vote there, and no one seemed certain where I should go. So I went home. I suppose it was my fault for not looking up my polling place, but I had been accustomed to more stability in polling locations in Mississippi and Minnesota, where I lived previously.

Now, nothing is so important to me as mail ballots, but I can easily see that Vote Centers will be more important for people who move around a lot. Not everyone thinks about whether their polling place has changed before they go out to vote.

Sincerely,  
Robert Maier

Please support establishing Vote Centers here in Pima County. Our elderly citizens and disabled voters need Vote Centers in order to add their votes in critical elections. I am Nathan Norris, age 82. My wife and I live in Sun City in Oro Valley. A vote center in our area will ensure our ability to cast our ballots. Thank you.

Nathan Norris

1. Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day!
2. Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! No more being told you're in the wrong place!
3. Pima is behind on the technology 11 of the 15 counties in Arizona are already using Vote Centers!
4. It'll increase the number of valid ballots counted! Every vote counts!

Pima County Board of Supervisors:

I support Vote Centers! Please vote YES on February 15.

Vote Centers would increase the number of valid ballots counted and would enable ANY registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day. Access to both vote by mail and in-person voting is vital for ensuring voters can exercise their fundamental right to vote and make their voices heard. This right is fundamental to the preservation of our democracy! Every vote counts!

As our elected Pima County Board of Supervisors, it is your obligation to ensure Pima County residents are provided every means available for us to exercise our fundamental right to vote.

VOTE YES FOR VOTE CENTERS!

Respectfully,

Leslie Glass – District 3

I am writing to tell the Pima County Board of Supervisors to vote in favor of establishing vote centers and the automation of pollbooks. The voting process should be accessible to everyone and should not keep someone from casting a ballot simply because they went to the "wrong" voting place. This problem occurs too often and is particularly harmful to rural, low-income and indigenous communities who cannot afford to take the time to drive to another location. Also, making the check in system automatic is long overdue. Pima County is the only county in Arizona that doesn't have an electronic pollbook system. Automating this system, by using their own secure networks, will make elections safer and will also be faster and easier for the elections staff and volunteers to do their important work. I have complete confidence in the ability of our Pima County Recorder's office and Elections department to create a public information campaign on the new system and to carry out the most successful, secure midterm election in Pima County history this fall.

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

NO on voting centers! It is a terrible idea to eliminate voting precincts where we legal citizens are invested in our local communities. Voting centers encourage opportunities for voter fraud and disenfranchise legitimate votes. It also makes it more difficult for legitimate voters to get to the polls because voting centers would likely be located outside their neighborhood. It is a malodorous idea to reduce the number of 232 voting precincts to a mere 100 centers. Voting centers are a great idea if you're rooting for voter fraud and corruption opportunities. It does nothing to strengthen the voters' trust or confidence in secure elections.

Very truly,

Misti Chivaluksna-Smith

Dear Board members and Clerk of the Board,

There is a proposal being presented to the Board of Supervisors at their 9 am, Tuesday, February 15, meeting. If it's approved, it will be used for our 2022 Primary and General Elections.

This proposal calls for a 57% reduction in Voting Precincts/locations from 232 to 100 for the entire county! In addition, the proposal is pushing to utilize Federally uncertified Electronic Pollbooks that are connected to the internet as well as wireless ballot printing devices!!

The events of 2020 are never very far from the minds of many thousands of American Arizonan patriots. We are already suspicious of the election processes used in 2020 while awaiting the results of the Presidential election audit and the findings nailed down. The reputation of our appointed representatives in most of our government have already been compromised. Their integrity and doubts of honest representation of the people they serve is questioned daily.

There are 37 Election Integrity Bills currently in the State Legislature to fix many of these problems. Among them are bills mandating for MORE precincts statewide; for LESS technology, BETTER security, properly maintained voter rolls and SO much more.

Why in the world would you think decreasing VOTING LOCATIONS and ballot drop locations would be a good idea? Please, please, don't reflect the attitude we the People already ascribe to our elected officials.

Another worried Citizen,

Holly Claghorn

I am writing to express my support for voting centers in Pima County.

I have worked our Pima County elections, so I have seen that many votes get thrown out because people vote in the wrong precinct. I am positive that many other people show up at the wrong precinct and choose not to vote for a variety of reasons.

In this day and age of computers, I can't think of a good reason not to have voting centers. Poll workers can simply look up the voter and print out the proper ballot for them. Other counties in Arizona already do this and we should too.

Please vote "yes" for voting centers

I am writing to ask the Pima County Supervisors to vote in support of voting centers. It was so much easier to turn in my vote by driving by a vote box center last election and since the post office service has gotten slower over the last year this is a very good way to increase the ease of voting for all.

Thank you,

Dear Supervisors,

As a former poll watcher, I have had first-hand experience with problems caused by people voting at the wrong place. It is such a shame to discourage those who take their civic duty seriously. Elections are decided not by the majority, but by the majority that votes. We need to do everything we can to enable more and more people to vote.

Thank you,  
Bonnie Smith

My name is Kenneth R Proper and I'm a resident of Oro Valley, AZ, 85737.

The Pima County Board of Supervisors need to know that the majority of the general public is widely in favor switching to a vote center model to make voting more accessible to everyone. Eleven other counties have already established these, as well as an automated electronic pollbook system. Adoption of such a system will greatly enhance access to rural, indigenous and low income communities. An added benefit will be to make elections more secure and efficient, decreasing the burden on volunteers & staff.

The Pima County Recorder's office is fully capable of running a public information campaign regarding this new system in order to facilitate a very successful & secure midterm election this coming fall.

Let's make it happen NOW for Pima County!

Dear County Commissioners:

As an active and conscientious voter, I strongly recommend that you approve voting centers at which all Pima County voters will be able to cast their ballots, no matter where they live. This will be a much easier, faster, and accurate way for voters to cast their ballots and for officials to count votes after an election. Fewer provisional votes will be cast as the result of this "no wrong door" approach. Fewer voters will stand in line at the polls only to receive provisional ballots because they are casting their votes in the "wrong place." Eleven of Arizona's fifteen counties have already adopted this more efficient voting format. Let's catch up!

Pima County definitely needs Voting Centers!

Dear Supervisors,  
With legislation being brought forward in the State Legislature that would make it very difficult to vote by mail, it is increasingly important that voting be made as convenient as possible. The more people that vote, the better our democracy works. Please chose to have Pima County join the other twelve counties that have already adopted this common-sense Voting Center system. Thank you for your consideration of my thoughts on this important matter.

I see you have an upcoming decision on the number of voting locations in Pima County. I would urge you to support this initiative for obvious reasons. Our right to vote is under significant attack from right wing factions. Anything we can do to counter that trend such as by increasing the number of places to vote would help retain our rights to vote. I think it is disgraceful to force physical intrusions on those wanting to vote by limiting the places for them to do so. Waiting hours in the sun would be such an example. No, what we need to do is expand opportunities to vote and encourage people to do so. I have no problem with reasonable steps to insure that a person is qualified, but as we proved in the last election, we already pretty much know how to do this. Maximizing voting centers is a movement in the right direction.

Dear Pima County Supervisors:

We expect you to support Vote centers because:

- Vote Centers would enable any registered voter to cast their ballot at ANY Vote Center in Pima County on Election Day!
- Voting locations would stay the same for rural communities PLUS any registered voter would be able to cast their ballot at ANY of the 100 locations! No more being told you're in the wrong place!
- Pima County is behind on the technology--11 of the 15 counties in Arizona are already using Vote Centers!
- It'll increase the number of valid ballots counted! Every vote counts!

Increase the vote = increase democracy!!!!!!

Good evening,

I am a resident of Pima County district 3 and I want to state my strong support for the proposal to establish voting centers in Pima county.

I base my support on my experience as an election volunteer over the prior five years for both primary and general elections. During these elections I have been typically assigned to the special situations table. In this role I assist voters who encounter various issues. One of the common issues I encounter and work with the voter to remedy is that they are at the incorrect polling place for their precinct. This means they need assistance to locate and travel to their correct voting location. I do my best to ensure they have directions and instructions for when they arrive, but it is clear this adds stress for some voters who may be voting on their way to work, or voting after work and trying to arrive at the polling place before the end of voting.

Voting centers would eliminate this issue and ensure that when a registered voter shows up to a center, they are able to vote. If eleven of fifteen counties in Arizona are using this system already, and Maricopa county has demonstrated it works in a major population center, I believe Pima county should adopt this approach as well.

Thank you for your consideration,

Hi-

I have been following election methods for 15 years. No one change can make everything better - but vote centers in higher population areas are a step in the right direction. As long as we provide enough of them.

A vote center is just a place where you won't get your ballot invalidated or get sent away because you are in the wrong place.

In fact its not really an innovation we already have had vote centers in Pima county for a long time and they work really well - They are called "early voting locations" And they work incredibly well.

- Its just that on election day we change things so that now you have to go to your precinct. How confusing. Vote centers also help voters who work non-standard hours and have a hard time getting home on election day to their home precinct.

Please support them.

We are writing to tell the Pima County Board of Supervisors to vote in favor of establishing vote centers and the automation of pollbooks. The voting process should be accessible to everyone and should not keep someone from casting a ballot simply because they went to the "wrong" voting place. This problem occurs too often and is particularly harmful to rural, low-income and indigenous communities who cannot afford to take the time to drive to another location. Also, making the check in system automatic is long overdue. Pima County is the only county in Arizona that doesn't have an electronic pollbook system. Automating this system, by using their own secure networks, will make elections safer and will also be faster and easier for the elections staff and volunteers to do their important work. We have complete confidence in the ability of our Pima County Recorder's office and Elections department to create a public information campaign on the new system and to carry out the most successful, secure midterm election in Pima County history this fall.

Thank you,

### Chairman's Journal

Dear Annika,

#### Russia's Not Your Friend

Russia's military intelligence agency, the Main Directorate of the General Staff (GU), is also known as the GRU. The United States has indicted GRU officers and designated the GRU for sanctions in response to Russia's invasion of Ukraine, **cybercrimes, and election interference**. Cyber-related offenses against the World Anti-Doping Agency and the Organization for the Prohibition of Chemical Weapons, NotPetya malware attacks in 2017, various cyberattacks against the 2018 Olympics, and **interference in the 2016 U.S. election** are just a few of the crimes the GRU has been indicted for by the United States Department of Justice (DOJ). The GRU has been sanctioned under CRIIEA; P.L. 115-44/H.R. 3364 Countering America's Adversaries Through Sanctions Act (CAATSA, Title II).

#### Don't Welcome Cyberattacks to Pima County

That is just a little background information for Pima County Recorder Gabriella Cazares-Kelly and Pima County interim Elections Director Mary Martinson.

Recommending electronic poll books hosted by Amazon and asking people to wait

## **in longer lines is not a good idea**

Cazares-Kelly states "With the e-poll book system, check in times will go from about three minutes to 30 seconds." Costco can't even print out my gas receipt that quickly, so you have my attention! However, Congress and the executive branch continue to try and figure out what to do about malicious Russian activities like cyberattacks, **election interference**, and disinformation while our election officials in Pima County want us to rely more on the internet. We know the DOJ knows this is a problem and Congress is trying to figure out what the GRU is capable of and why it conducts operations against elections in the United States, so why is Pima County so interested in inviting that trouble here?

### **Presidents Trump and Obama Knew...**

General Paul K. Nakasone, Commander U.S. Cyber Command and the National Security Agency, said, "as the most technically advanced potential adversary in cyberspace, **Russia is a full-scope cyber actor**, employing sophisticated cyber operations tactics, techniques, and procedures against U.S. and foreign military, diplomatic, and commercial targets, as well as science and technology sectors."

President Obama and President Trump invoked National Emergencies Act (NEA) and International Emergency Economic Powers Act (IEEPA) authorities to declare national emergencies related to cyber-enabled malicious activities and **election interference**. President Obama issued Executive Order 13757 to establish sanctions against those engaged in "tampering with, altering, or causing a misappropriation of information with the purpose or effect of interfering with or undermining **election processes** or institutions." We aren't talking about Democrat or Republican here; both teams know the potential dangers of Russian influence in the elections.

### **Now, Let's Tell the Pima Co Board of Supervisors**

It's time for us to let the Board of Supervisors know that electronic poll books and voting centers are not for the voters of Pima County, and if they vote in support of either or both of these proposals, it will be their first step out the door. We don't need to do a cost-benefit analysis of the voting systems. We don't need to model the voter system; wait time, service time and deliver a queueing analysis. We don't need to tell you how disenfranchised voters will feel after the disinformation that will surround the change of polling places. We just need you to look at what your team—Presidents Obama and Biden—have already said. Listen to your team.

**Do NOT set Pima County up for a cyberattack or a breach of our VOTER DATA. President Obama warned you; the CIA warned you; the FBI warned you; the NSA warned you, and the Pima County Republican Party is sharing our concern with you.**

### **The Rest of the Story**

The Office of the Director of National Intelligence (ODNI) stated that the Central Intelligence Agency (CIA), the Federal Bureau of Investigation (FBI), and the National Security Agency (NSA) has "high confidence" that Russian President Vladimir Putin had "ordered an influence campaign in 2016 aimed at the U.S. presidential election"—and this

was nine (9) days after President Obama signed Executive Order 13757.

**Republicans, It's Up to You**

On February 15, 2022, the Pima County Board of Supervisors (BOS) will vote to change the election structure in Pima County. Contact each of the Supervisors and tell them to VOTE NO on electronic poll books and voting centers.

**Rex Scott** – [district1@pima.gov](mailto:district1@pima.gov)

**Matt Heinz** – [district2@pima.gov](mailto:district2@pima.gov)

**Sharon Bronson** – [district3@pima.gov](mailto:district3@pima.gov)

**Steve Christy** – [district4@pima.gov](mailto:district4@pima.gov)

**Adelita Grijalva** – [district5@pima.gov](mailto:district5@pima.gov)

**Clerk of the Board** – [COB\\_Mail@pima.gov](mailto:COB_Mail@pima.gov)

Join me in fighting for clean and fair elections.

P.S. Unfortunately, this will not be the last I will write about Russia.

**Shelley Kais**

**BLACK  
HISTORY  
MONTH**

- The Republican Party is the Party of freedom and opportunity and Black elected officials including Senator Tim Scott, Congressman Byron Donalds, Congressman Burgess Owens, and Lt. Gov. Winsome Sears are thought leaders in our Party.
- We currently have a record number of Black Republicans running for office and winning at all levels.

- Over 40 Black Republicans are running in GOP primaries for both local and federal office.
  - Voters know that Joe Biden and Kamala Harris' policies have hurt Black Americans.
    - Joe Biden's approval numbers with Black voters have declined throughout his presidency.
    - According to a recent **NBC poll**, Joe Biden's support from Black Americans dropped 19% since April.
    - According to a recent **AP-NORC poll**, Joe Biden's presidential job approval plummeted 34% with Black Americans.
    - A recent **AP news story** highlighted the eroding support and frustration Black South Carolina voters have with Joe Biden.
  - Biden's failed economy has left a burden on the Black community.
    - Last month, Black Americans saw an increase in overall and female unemployment rates.
    - In Biden's first year, the unemployment rate among Black American youth has risen nearly 4 percentage points.
    - Homeownership among Black Americans has declined each quarter of 2021.
    - Black owned businesses have struggled with staffing.
  - Joe Biden's unconstitutional vaccine mandate has disproportionately discriminated against the Black community.
    - In America's 3 largest cities – all Democrat-run – roughly 50% of Black residents cannot go to bars, restaurants, and movie theaters.
    - Since the vaccine mandate rollout, Biden's approval among Black Americans has dropped 12%.
  - In Biden's America crime is on the rise, often disproportionately impacting Black Americans in Democrat-run cities across the country.
    - In 2021, Chicago experienced its deadliest year from violent crime in over 2 decades.
  - Students are being left behind by Joe Biden's policies.
    - School closures due to the pandemic disproportionately hurt low-income and minority students.
    - Nationally, in majority Black schools, the share of students performing **below grade level in math increased by 17 percentage points** over the past year.
  - Biden's spending bill includes **\$18 billion less** in funding for HBCUs than he initially promised.

# Things to do

## George Washington: The Political Rise of America's Founding Father

- **Date:** Tuesday, February 08, 2022
- **Time:** 11 am
- **Location:** Online

Award-winning historian **David O. Stewart** presents a fascinating account of how George Washington became the dominant force in the creation of the United States of America. In this new portrait of George Washington, Stewart unveils the political education that made Washington a master politician—and America's most essential leader. From Virginia's House of Burgesses, where Washington mastered the craft and timing of a practicing politician, to his management of local government as a justice of the Fairfax County Court to his eventual role in the Second Continental Congress and his grueling generalship in the American Revolution, Washington perfected the art of governing and service, earned trust, and built bridges. The lessons in leadership he absorbed along the way would be invaluable during the early years of the republic as he fought to unify the new nation. Joining the author in conversation will be historian and author **Lindsay M. Chervinsky**.

## His Greatest Speeches: How Lincoln Moved the Nation

- **Date:** Thursday, February 17, 2022
- **Time:** 11 am
- **Location:** Online

Author Diana Schaub gives an expert analysis of Abraham Lincoln's three most powerful speeches: the Lyceum Address, the Gettysburg Address, and the Second Inaugural. Schaub discusses how Lincoln believed that our national character was defined by three key moments: the writing of the Constitution, our declaration of independence from England, and the beginning of slavery on the North American continent. His thoughts on these landmarks can be traced through these three speeches. In *His Greatest Speeches*, Schaub offers a line-by-line analysis of these timeless works, placing them in historical context and explaining the brilliance behind their rhetoric.

## A House Built by Slaves: African American Visitors to the Lincoln White House

- **Date:** Wednesday, February 23, 2022

- Time: 3 pm
- Location: Online

Author Jonathan W. White presents the story of how President Abraham Lincoln welcomed African Americans to his White House in America's most divided and war-torn era and why that transformed the trajectory of race relations in the United States. Beginning with his 1862 meetings with Black Christian ministers, Lincoln invited African Americans of every background into his home, from ex-slaves from the Deep South to champions of abolitionism such as Frederick Douglass and Sojourner Truth. The President conferred with his guests about the essential issues of citizenship and voting rights. Drawing from an array of primary sources, White reveals how African Americans used the White House as a national stage to amplify their calls for equality.

Please support your candidates by signing their petitions online [here](#). If they are running clean elections campaigns, you can give them \$5 [here](#).

**See who your Primary Candidates are**

---

Regardless of what side of the aisle you're on, I think Americans can all agree: more transparency in the election process is a good thing. Nothing is more important than making sure that American voters have faith that our democratic process is working as intended. When you cast your vote, you deserve to know that it will be counted fairly and impartially. And you also deserve to know that this same standard is being extended to all those at the ballot box – you should have to show an ID before voting, and of course, only American citizens should vote in American elections.

These two requirements seem basic and common-sense, but unfortunately, I see Democrats nationwide pushing back on both of them. Democrats in New York City are allowing foreign citizens to vote in their elections, and many Democrats have called voter ID a form of voter suppression. None of that is in line with what I, my neighbors, and the American people in general want. Republicans, meanwhile, are calling for basic safeguards to protect our elections that make sense to me.

I'm signing up to be a poll worker in my community because I believe in contributing firsthand to ensuring transparency and security in our elections. Join me and volunteer to be part of the democratic process.

\*\*\*\*\*

Please [sign up here](#) or use the QR Code, and you will be sent information. *Please note*, if you already signed up, you do not have to do it again. For those asking why we are concentrating on poll workers, we have a timeline for when we need to identify and submit them to Pima County Department of Elections. If you signed up for other observer/worker tasks, we will get to you.

**8 WEEK INTERACTIVE COURSE**

# BIBLICAL CITIZENSHIP

IN MODERN AMERICA

PROVIDING THE BIBLICAL, HISTORICAL AND CONSTITUTIONAL INSTRUCTION WE NEED AT SUCH A TIME AS THIS!

**REGISTER TODAY**

Now more than ever, our nation is in need of Biblical citizens who grasp the dynamic unity of citizens of the Kingdom of God and citizens of this great nation!

This course offers the quick-start guide to the longest standing Constitution in history, complete with an overview of all the Articles, and Amendments. What sets

this apart from other U.S. Constitution courses is the interactive, fast-paced presentations; the fabulous locations of Independence Hall and the Wallbuilders' Library; and finally, our Biblical heritage intricately woven throughout the entire course!

You will learn how the founders relied on their Christian moorings and Biblical worldview to secure the blessings of liberty to ourselves and our posterity. You will also be treated to encouraging historical facts and inspirational true stories that are not taught in our educational institutions today. All in all, you will be edified and equipped to operationalize your faith and practice Biblical Citizenship in Modern America!

Michelle Ludwig is conducting this 8-week course. Workbooks are available online at no cost to you. If you prefer a printed spiral-bound workbook, please note there is a cost of \$20. Please pre-order with Michelle. There will be a zoom option as well. Space is limited so please reserve your seat now.

Classes began **Monday, January 31, 6 pm**, and run **every** Monday until March 21.

**ARIZONANS FOR  
VOTERID  
BALLOT INITIATIVE 2022**

## "Easy to Vote, Hard to Cheat"

AZ Free Enterprise Club is sponsoring the Arizonans for Voter ID petition.

\*\*\*\*\*

Pima County Republican Party has partnered with this initiative and headquarters is now able to collect signatures. Feel free to come by the office, Mon - Fri, 9:15 am – 2:45 pm, if you would like to sign the petition. If you would like to circulate this petition, please make an appointment with Michelle Ludwig, [michelleludwig1@gmail.com](mailto:michelleludwig1@gmail.com), to become eligible to do so. You can also call the office on Tuesday afternoons from 1 - 3 pm, and talk to Michelle about setting up an appointment with her. She is also willing to speak or present training (12 minutes) at LDs and Clubs.

### Pima Officials want to modernize county election system

Voting centers and tablets could replace precincts and voter printouts

### Senate Education Committee Passes Curriculum Transparency Bill

On Tuesday, the AZ Senate Education Committee passed SB1211, a curriculum transparency bill sponsored by Sen. Nancy Barto

### Prohibition of Sexually Explicit Material in Schools Bill Passes out of the AZ House of Representatives

On Feb 3rd, the AZ House of Representatives voted to pass the Prohibition of Sexually Explicit Material in Schools HB2495 on a party line vote of 31-28-1. It has the following provisions.

1. Prohibits a public school from referring students to or using any sexually explicit material in any manner. (Sec. 1)
2. Defines sexually explicit materials to include textual, visual or audio materials or materials accessed via any other medium that depict sexual conduct, sexual excitement or ultimate sexual acts. (Sec. 1)
3. Defines sexual conduct, sexual excitement or ultimate sexual acts. (Sec. 1)

## For Such a Time as This

### Where are Your Binoculars Pointing?

With so much misinformation and lies being spoken lately, some may find it difficult to take the next step forward, wondering the point of continuing to try. It happens to the best of us, including me. If you've been following this section of E-Tracks for a bit, you know that I am constantly reminded about Esther and her for such a time position as Queen of Persia. It happened again this past weekend at church. When things, and people, come our way, it can seem insurmountable, overwhelming and as if Hercules (world's biggest dog) is sitting on your chest.

Because I have the binoculars focused on me, I can't see the good going on around me. If I point my binoculars outward, I see God moving in the Pima County Republican Party. If I stop focusing on the annoyances, I see Biblical Citizenship being taught. I see Vote Your Values working in our party to reach out to churches. I see meetings beginning with prayer. I see a Pro-Life resolution overwhelmingly pass at the state party meeting in January. I see more and more people getting involved with protecting our votes. I'm sent emails dissecting rallies where former President Trump talks about being One Nation under God.

We are called to be thankful in all things, and some probably find that strange. Here's the deal. We will have problems in this world. There will be issues and people who are being used as pawns to derail us. **We. Must. Focus.** There's too much good going on to keep those binoculars looking inward. Truth sets us free, and looking outward helps guide our paths to see what we're supposed to see: God in motion. Have you read *This Present Darkness* yet? Consider it today. And remember

Finally, brethren, whatever is true, whatever is honorable, whatever is right, whatever is pure, whatever is lovely, whatever is of good repute, if there is any excellence and if anything worthy of praise, dwell on these things. The things you have learned and received and heard and seen in me, practice these things, and the God of peace will be with you. Philippians 4:8-9 Have a great week!

Bobbie Jo

## NEVER FORGET

In February 9, 1971, pitcher Leroy "Satchel" Paige becomes the first Negro League veteran to be nominated for the Baseball Hall of Fame. In August of that year, Paige, a pitching legend known for his fastball, showmanship and the longevity of his playing

career, which spanned five decades, was inducted. Joe DiMaggio once called Paige "the best and fastest pitcher I've ever faced."
