Tolleson, Arizona 85353

Dear Mr. O'Rourke:

RE: LTF not required
Place ID 18703

The Arizona Department of Environmental Quality (ADEQ) received on April 20, 2004 a request to register Fields 14-1 through 14-12; Fields 13-1 through 13-26; Fields 18-1 through 18-30 for biosolids land application at Pretzer Farms, in Eloy, AZ. The site was previously approved for residuals generated by Pima County WWTP- Ina Road, Tucson, AZ. The following generators have been added to the site: City of Phoenix 91st Avenue and 23rd Avenue WWTP and City of Mesa NW WRP.

Please be advised that you, as the registered land applicator are required to comply with A.A.C. R18-9-1013(B)(12) and other applicable provisions established in A.A.C. Title 18, Chapter 9, Article 10, titled "Disposal, Use, and Transportation of Biosolids", for each land application site.

If you have any questions regarding this letter, please contact me at (602) 771-4612 or toll free at 1(800) 234-5677 Ext. 4612.

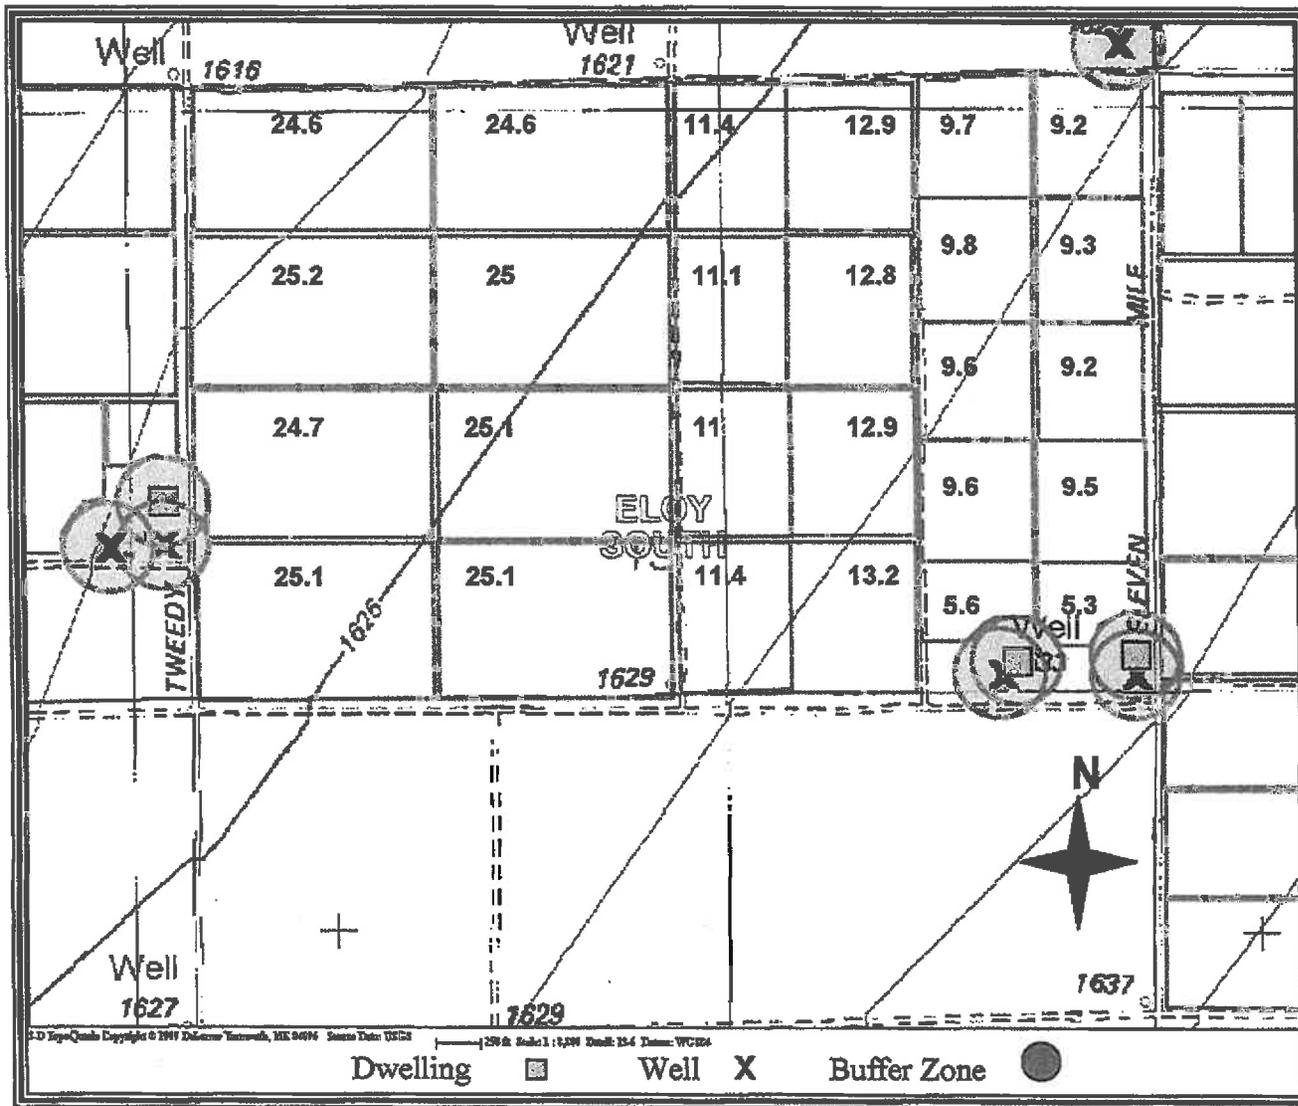

Sincerely,

Diane P. Reed

Re: Re-registration of Biosolids Land Application; Synagro Burruel and Burruel Farms

Dear Mr. Wood:

The Arizona Department of Environmental Quality (ADEQ) received a request for re-registration for biosolids land application at the Burruel and Burruel Farms (sites AB1-through AB-25). ADEQ has deemed the registration to be complete. The registration reflects utilization of biosolids generated solely by the Pima County Regional Biosolids Management Facility. The information will be placed in your file. In addition, please be advised, pursuant to Arizona Administrative Code R18-13-1507, your company is required to follow the best management practices for the application of biosolids at each land application site.

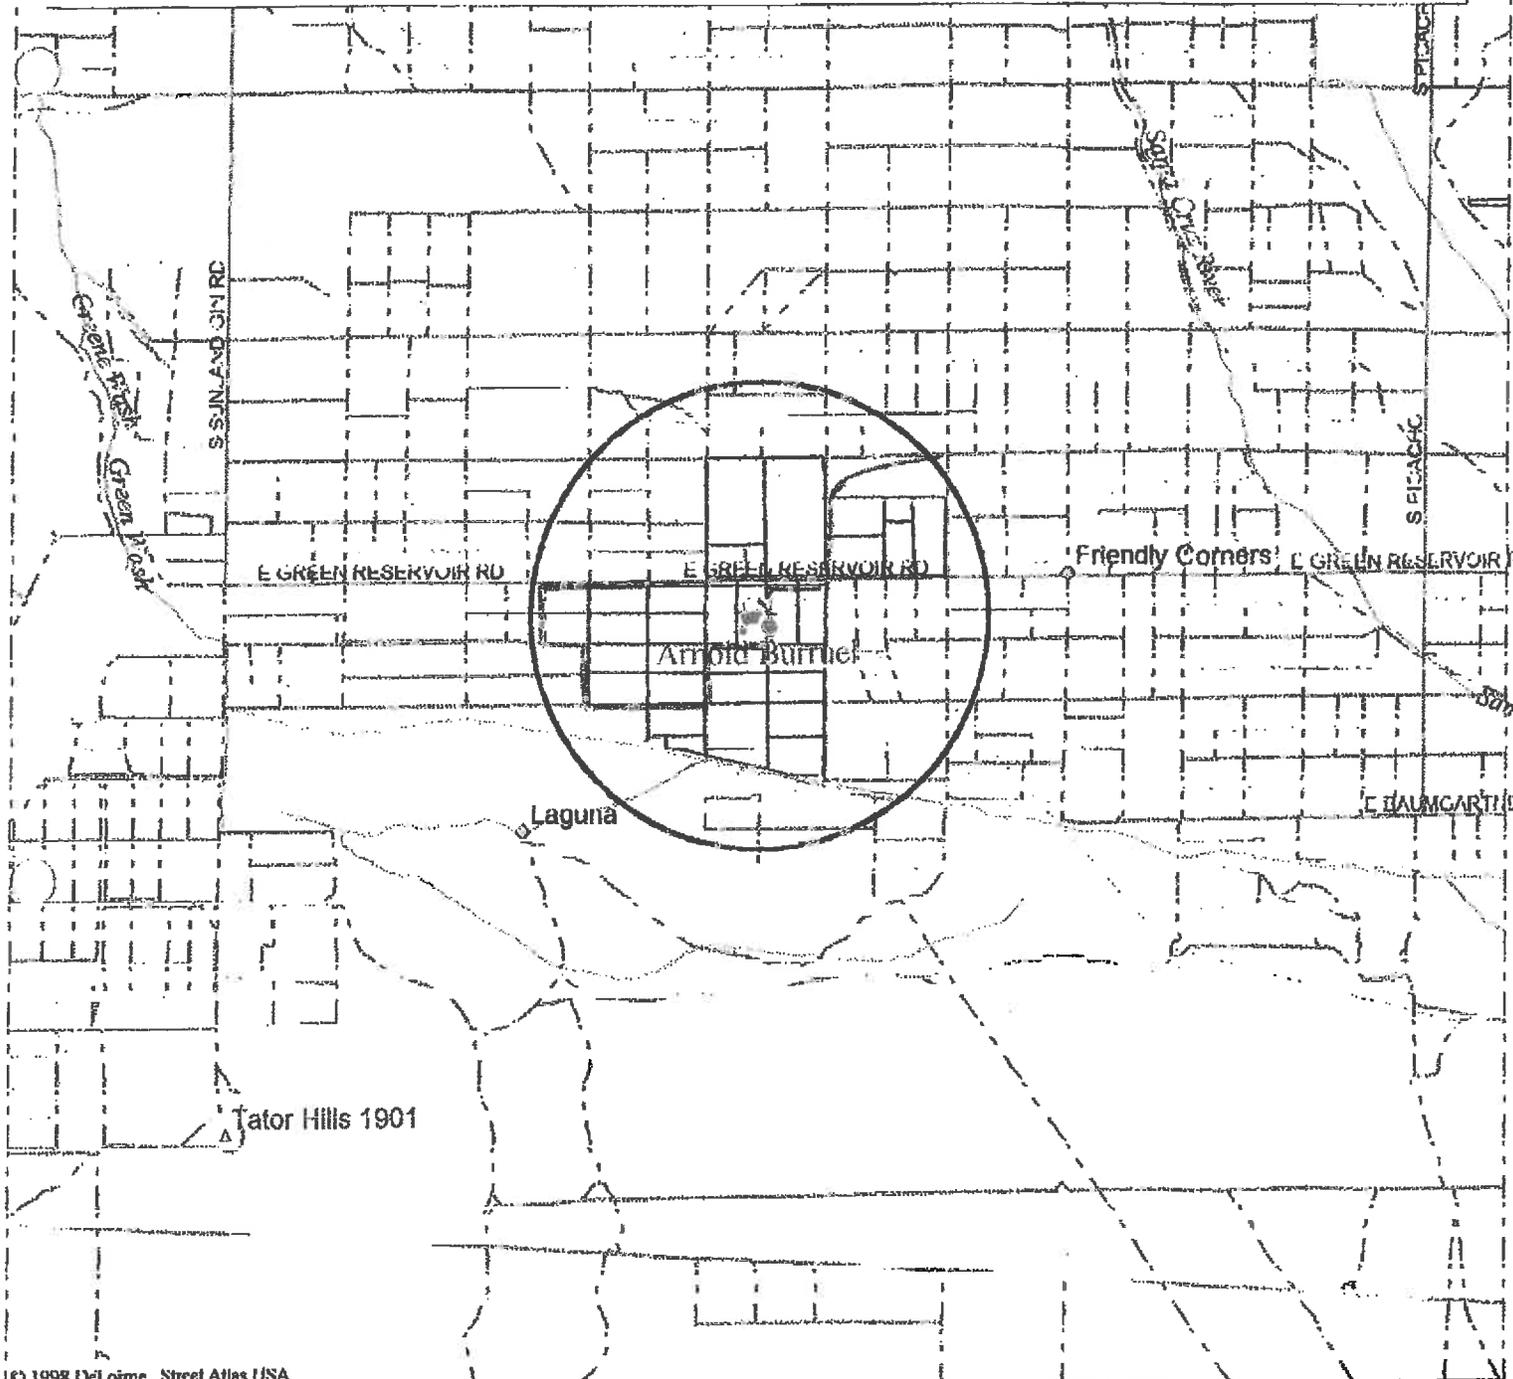

If you have any questions regarding this letter, please contact me at 207-4670 or toll free at 1(800) 234-5677 Ext. 4670.

Sincerely,

A handwritten signature in cursive script that reads "Samuel H. Rogers III".

Ralph Land
4400 E. Green Reservoir Road
Eloy, Arizona 85231

Dear Mr. Land:

The Arizona Department of Environmental Quality (ADEQ) received an September 20, 2001 request for registration for biosolid land application at the Ralph Land Farms (Fields 1 not used, 2,3,4A, 4B, 4C5, 6A, 6B, 6C, 6D, 7 not used, 8, 9, 10, 11 not used, U24 not used.) ADEQ has reviewed the registration form and has deemed the registration to be complete. The information will be filed. You may reference the registration by using the Licensing Time Frame (LTF) Number: 24001.

In addition, please be advised, pursuant to Arizona Administrative Code (A.A.C.) R18-9-1001 (recodified from A.A.C. R18-13-1501 et seq on June 15, 2001), the Pima County Regional Biosolids Management is required to comply with all applicable provisions set forth in A.A.C. Title 18, Chapter 9, Article 10, titled "LAND APPLICATION OF BIOSOLIDS," at each land application site.

If you have any questions regarding this letter, please contact me at (602) 207-4816 or toll free at 1(800) 234-5677 Ext. 4816.

Dear Mr. Hunt:

RE: LTF 37614

The Arizona Department of Environmental Quality (ADEQ) received on August 25, 2005 a request to register Cotton Patch in Casa Grande, AZ for biosolids land application. Fields registered are: 0301-0318, and 1001-1007.

ADEQ has reviewed the registration form and deemed the registration complete. The site is approved for residuals generated by The town of Arizona City, the town of Casa Grande, City of Avondale WWTP; City of Phoenix, 23rd Avenue and 91st Avenue WWTP, and the city of Mesa.

Please be advised that you, as the registered land applicator are required to comply with A.A.C. R18-9-1013(B)(12) and other applicable provisions established in A.A.C. Title 18, Chapter 9, Article 10, titled "Disposal, Use, and Transportation of Biosolids", for each land application site.

If you have any questions regarding this letter, please contact me at (602) 771-4651 or toll free at 1(800) 234-5677 Ext. 4651.

**Notice of Acceptance
Biosolids Application Registration**

July 22, 2010

Mr. Josh Dodson
Synagro
5615 S. 91st Avenue
Tolleson, AZ 85353

Re: Land Application Site Registration and Addition of Generators for Normark Farms

Dear Mr. Dodson:

The Arizona Department of Environmental Quality (ADEQ) received the above referenced request for registration on June 30, 2010. Upon reviewing this material, ADEQ has determined under A.A.C R18-9-1004 that your submittal is complete. Your registration is accepted. Please be advised that this registration is valid only for biosolids generated by the Arizona City Sanitation District WWTP, to be land applied only at the fields that are now registered, with the following center field coordinates:

<u>Field ID</u>	<u>Latitude</u>	<u>Longitude</u>	<u>Field</u>	<u>Latitude</u>	<u>Longitude</u>

SOURCE: _____
 FARM OPERATOR: Az. Land & Cattle Co William Miller
 ADDRESS: PO Box 10450
Casa Grande Ar. 85130
 PHONE: (520) 251-0628
 FARM LOCATION: East 1/2 Section 21 & West 1/2 Section 22
TNSP 8 South, RANGE 10 East
 TOTAL ACREAGE: 640 COUNTY: PINAL
 CROPS: MILK, Alfalfa

1. I agree to be responsible for adhering to the following conditions, where applicable:
 - a. The soil pH will be adjusted to ≥ 6.5 when biosolids are applied. (This may be accomplished through the application of lime-treated biosolids.)
 - b. Animals shall not be grazed on the land for 30 days after the application of biosolids. In addition, animals intended for dairy production shall not be allowed to graze on the land for 60 days after the application of biosolids.
 - c. Food crops with harvested parts that touch the biosolids/soil mixture and are totally above the land surface shall not be harvested for 14 months after the application of biosolids.
 - d. Food crops with harvested parts below the surface of the land shall not be harvested for 20 months after the application of biosolids when the biosolids remain on the land surface ≥ 4 months prior to incorporation into the soil, or 38 months when the biosolids remain on the land surface < 4 months prior to incorporation.
 - e. Food crops, feed crops, and fiber crops shall not be harvested for 30 days after application of biosolids.
 - f. Public access to land with a low potential for public exposure shall be restricted for 30 days. Public access to land with a high potential for public exposure shall be restricted for 1 year.
 - g. Turf grown on land where biosolids are applied shall not be harvested for one year after application of biosolids when the harvested turf is placed on either land with a high potential for public exposure or a lawn, unless otherwise specified by the permitting authority.
2. I understand that this transaction is not contemplated by the parties to be a sale of goods, and that Synagro is willing to provide to me without charge the service of land applying biosolids which have been approved by the appropriate regulatory agencies for land application.
3. I understand that successful crop production depends on many variables, such as weather, soil conditions and specific farming practices and that while Synagro has experience with land application of biosolids, the responsibility for properly accommodating agricultural practices to biosolids utilization are solely mine. I have also read and understand the "Important Information about Using Biosolids as a Fertilizer" which is on the reverse side and incorporated by reference in this Request and Consent.

The undersigned hereby agrees to the application of biosolids by Synagro at application rates in accordance with applicable laws and regulations.

OWNER NAME: Canacorn, LLC c/o Jim Hamel

ADDRESS: 3241 E. Shea Blvd., Ste 9
Phoenix, AZ 85028

PHONE: (602) 799-3988

OPERATOR NAME: Az Land & Cattle Co. c/o William Miller

FARM LOCATION(S): East 1/2 Section 21 & West 1/2

TOTAL ACRES: 640 COUNTY: PINAL

1. I understand that Synagro will coordinate biosolids deliveries with my farm operator hereinafter (leasee) unless otherwise advised by me.
2. I agree to allow Synagro and federal, state and local regulatory staff access to my land for the purposes of permitting the site, inspecting the site, applying biosolids, obtaining samples from the site and testing. I reserve the right to ask the above parties for proper identification at any time.
3. I understand that the following conditions apply to my land following biosolids applications and that my leasee has signed an agreement form with Synagro stating that my leasee will be responsible for following these conditions where applicable:
 - a. Animals shall not be grazed on the land for 30 days after the application of biosolids. In addition, animals intended for dairy production shall not be allowed to graze on the land for 60 days after the application of biosolids.
 - b. Food crops (crops consumed by humans including but not limited to fruits, vegetables and tobacco) with harvested parts that touch the biosolids/soil mixture and are totally above the land surface shall not be harvested for 14 months after the application of biosolids.
 - c. Food crops with harvested parts below the surface of the land shall not be harvested for 20 months after the application of biosolids when the biosolids remain on the land surface \geq 4 months prior to incorporation into the soil, or 38 months when the biosolids remain on the land surface $<$ 4 months prior to incorporation.
 - d. Food crops, feed crops and fiber crops shall not be harvested for 30 days after application of biosolids.
 - e. Public access to land with a low potential for public exposure (land the public uses infrequently including but not limited to agricultural land and forests) shall be restricted for 30 days. Public access to land with a high potential for public exposure (land the public uses frequently including but not limited to a public contact site such as parks, playgrounds and golf courses) shall be restricted for 1 year.
 - f. Turf grown on land where biosolids are applied shall not be harvested for one year after application of biosolids when the harvested turf is placed on either land with a high potential for public exposure or a lawn, unless otherwise specified by the permitting authority.
4. I have also read the "Information About Biosolids" which is on the reverse side and incorporated by reference in this Consent.
5. The term of this Consent shall continue until written notification is given by either party to terminate this agreement.
6. I certify that I am holder of legal title to the above described property or am authorized by the holder to give consent for the land application of biosolids and that there are no restrictions to the granting of consent under this form.

The undersigned hereby agrees to the application of biosolids by Synagro at application rates in accordance with applicable laws and regulations.

OWNER NAME: Jesse Herfel

ADDRESS: 2500 S. Power Rd. #121
Mesa, AZ. 85209

PHONE: (480) 889-1402

OPERATOR NAME: Normark Farms

FARM LOCATION(S): Section 33 8 South 7 East
1/4 mile west of the corner of Totter Rd & Nutt Rd

TOTAL ACRES: 40 COUNTY: Pinal

1. I understand that Synagro will coordinate biosolids deliveries with my farm operator hereinafter (leasee) unless otherwise advised by me.
2. I agree to allow Synagro and federal, state and local regulatory staff access to my land for the purposes of permitting the site, inspecting the site, applying biosolids, obtaining samples from the site and testing. I reserve the right to ask the above parties for proper identification at any time.
3. I understand that the following conditions apply to my land following biosolids applications and that my leasee has signed an agreement form with Synagro stating that my leasee will be responsible for following these conditions where applicable:
 - a. Animals shall not be grazed on the land for _____ days after the application of biosolids. In addition, animals intended for dairy production shall not be allowed to graze on the land for _____ days after the application of biosolids.
 - b. Food crops (crops consumed by humans including but not limited to fruits, vegetables and tobacco) with harvested parts that touch the biosolids/soil mixture and are totally above the land surface shall not be harvested for _____ months after the application of biosolids.
 - c. Food crops with harvested parts below the surface of the land shall not be harvested for _____ months after the application of biosolids when the biosolids remain on the land surface \geq 4 months prior to incorporation into the soil, or 36 months when the biosolids remain on the land surface $<$ 4 months prior to incorporation.
 - d. Food crops, feed crops and fiber crops shall not be harvested for 30 days after application of biosolids.
 - e. Public access to land with a low potential for public exposure (land the public uses infrequently including but not limited to agricultural land and forests) shall be restricted for _____ days. Public access to land with a high potential for public exposure (land the public uses frequently including but not limited to a public contact site such as parks, playgrounds and golf courses) shall be restricted for 1 year.
 - f. Turf grown on land where biosolids are applied shall not be harvested for one year after application of biosolids when the harvested turf is placed on either land with a high potential for public exposure or a lawn, unless otherwise specified by the permitting authority.
4. I have also read the "Information About Biosolids" which is on the reverse side and incorporated by reference in this Consent.
5. The term of this Consent shall continue until written notification is given by either party to terminate this agreement.
6. I certify that I am holder of legal title to the above described property or am authorized by the holder to give consent for the land application of biosolids and that there are no restrictions to the granting of consent under this form.

REQUEST AND CONSENT FOR BIOSOLIDS

SOURCE:
FARM OPERATOR: WAL SOUTH LLC / GILA RIVER PARTNERS
ADDRESS: 2501 NORTH HARWOOD ST Suite 2600 DALLAS TX 75201
PHONE: (214) 269 5334
FARM LOCATION: GILA BEND / STOUT ROAD
TOTAL ACREAGE: 500 + COUNTY: MARICOPA
CROPS: Honey, M. PHALFA

- 1. I agree to be responsible for adhering to the following conditions, where applicable:
a. The soil pH will be adjusted to >= _____ when biosolids are applied.
b. Animals shall not be grazed on the land for 30 days after the application of biosolids.
c. Food crops with harvested parts that touch the biosolids/soil mixture and are totally above the land surface shall not be harvested for _____ months after the application of biosolids.
d. Food crops with harvested parts below the surface of the land shall not be harvested for _____ months after the application of biosolids when the biosolids remain on the land surface >= 4 months prior to incorporation into the soil, or 38 months when the biosolids remain on the land surface < 4 months prior to incorporation.
e. Food crops, feed crops, and fiber crops shall not be harvested for 30 days after application of biosolids.
f. Public access to land with a low potential for public exposure shall be restricted for _____ days. Public access to land with a high potential for public exposure shall be restricted for 1 year.
g. Turf grown on land where biosolids are applied shall not be harvested for one year after application of biosolids when the harvested turf is placed on either land with a high potential for public exposure or a lawn, unless otherwise specified by the permitting authority.
2. I understand that this transaction is not contemplated by the parties to be a sale of goods, and that Synagro is willing to provide to me without charge the service of land applying biosolids which have been approved by the appropriate regulatory agencies for land application.
3. I understand that successful crop production depends on many variables, such as weather, soil conditions and specific farming practices and that while Synagro has experience with land application of biosolids, the responsibility for properly accommodating agricultural practices to biosolids utilization are solely mine. I have also read and understand the "Important Information about Using Biosolids as a Fertilizer" which is on the reverse side and incorporated by reference in this Request and Consent.
