Hello, Here are our comments and recommendations for Addendum Item #13.
Thanks,
Don & Pat Hayles

2-3-2025

Agenda Item #13: Revisions to Board of Supervisors Policy.

Recommended Action: Please continue to list these contracts for public comments on the BoS agendas/addendums. The concern is whether this will remove these contracts from the agenda. If outside agency contracts are no longer required to be on the agenda, the public will no longer be able to see where the taxpayer money is being used.

Agenda Item #13: Banner-University Medical Group, to provide for an Amended and Restated Physician Services Agreement (Independent Practice) for autopsy services ...

Recommended Action: Please Evaluate and track cause of death trends in the population and to make the autopsy report publicly available. Since 2021, mRNA shots have been associated with a variety of pathologies including damage to the cardiovascular, neurological and reproductive systems also reported by the National Institute of Health website under 'Monitoring' section.
