With regard to the installation of four (4) additional 5G towers at TUC Mile Wide, TUC Ironwood Hill, TUC Alegre, and TUS Sunset Road and continue to maintain the existing 5G towers at TUC Finisterra and TUC Orange Grove for an additional five (5) years, please VOTE NO!

Underground fiber optic cable is a safer way to transmit data and is just as efficient as 5G towers but it doesn't pose risks to privacy, property and health.

Thank you.
