Dear Members of the Board,

I am writing to all of you in support of fully funding the Pima Early Education Program Scholarships (PEEPS) so that all children who attended last year can continue and so even more children may benefit from this vital resource. High-quality early childhood education is one of the most effective (and evidence-based) ways to break the cycle of generational poverty, support working families, and strengthen our community's future workforce.

The benefits of programs like PEEPS show better academic performance, stronger social and emotional skills, and reduced need for remedial education far beyond the preschool years for these students. Supporting PEEPS means investing in the economic and social health of Pima Country for years to come.

Please ensure that no child loses access to this wonderful opportunity due to funding cuts and please consider expanding the program so more families can benefit.

Thank you for your leadership and commitment to the young children and families of Pima County. Thank you for considering my request.

Sincerely,

Jean Kincaid
