Pima County has received another \$19 million dollars from the federal government to feed, house, and transport "asylum seekers."

Who gets this money and what is it doing to make us a better county to live in? We voted against being a Sanctuary City at least once. The citizens of Pima County do not want to be the reason so many illegal immigrants are able to get into America. We want to end this safe haven and have ask you to do so repeatedly. You keep doubling down in favor of people breaking the law. I can only ask you again to stop this practice of encouragement.

Vote NO on any additional federal funding to feed, house, transport, and provide medical assistance to "asylum seekers." This federal money is still coming out of taxpayers' pockets. Spend some of your time and money (my money) on seeking border and immigration solutions that work and make sense and are fair to both legal immigrants and US citizens.

Pima County has received another \$19 million dollars from the federal government to feed, house, and transport "asylum seekers." This would be a good time for the Pima County taxpayers to ask for the actual number of asylum seekers along with their demographics (age, gender, and country).

Recommended actions: Call or email the BoS and tell them to vote NO on any additional federal funding to feed, house, transport, and provide medical assistance to "asylum seekers." Tell the BoS that enough is enough, and that this federal money is still coming out of taxpayers' pockets. Tell them to refuse this federal handout and work instead at seeking border and immigration solutions that work and make sense and are fair to both immigrants and their country of destination.
