Following are my comments for the 11-15-22 Board of Supervisors Meeting

Agenda Item #14 and #20 Titan Missile Museum

Sounds like a lovely deal but has anyone who understands old building construction reviewed the issues currently involved with the Museum? The freight elevator has been a recurring problem for years. Rebuilding, replacing, repairing is a costly burden. It appears many are enamored with receiving this grant from Arizona Aerospace Foundation. Let's not be too hasty and take a look at the associated long-term asset expenses and operations required to maintain in operating order.
