consent item #4

I fail to see any way in which behavioral health surveys improve health; they simply invade privacy. Owning a firearm is not a health risk. Not knowing basic rules of firearm safety, which should be taught in school, is a risk whether you own one or not. The information needed is in reports of STDs and ED and hospital admissions and traffic stops.

Resolutions 2026-10 and 11

Please support these resolutions. Local and state law enforcement should support ICE in the proper, constitutional enforcement of federal law--ONLY. Agents need to be identifiable and accountable.

Good morning Chair Allen and the Board,

My name is Audrey Perryman. I live in District 5, and I am writing with my comments, since I am unable to attend the call to public at today's meeting.

My comments regard agenda items 5 and 6 on Adendum 1. I am voicing my enthusiastic support for both resolutions (2026-10 and 2026-11). Both are excellent steps toward ensuring accountability, safety, and trust in our community. I hope to see both resolutions pass with full support.

With respect to resolution 2026-11, I worry the wording of "clandestine undercover operations" in Item B (page 2) leaves too much room for exploitative interpretation of the resolution.

Thank you for your time and attention to these issues and the voices of Pima County. I appreciate the speed with which these resolutions have been proposed and created, and the commitment you show to helping and protecting the people here.

Best wishes,
Audrey Perryman
