I am surprised you would consider a tax increase. There are many people that can not make it now. You are going to create a new class of homeless people with an increase. The people on fixed incomes can not afford another hit to their wallets and are going to have to go without something. You say you want to keep people from losing housing but owners will pass this cost on to tenants. It seems very short sighted to increase property taxes when the economy is already a burden. I would be happy to get an increase if you were providing a superior living space in Pima County. Now we have the highest tax and the worst streets. I say NO to a tax increase.

From Robert Alcaraz elected PC 91.
