Honorable Supervisors of the Board,

MPA would like to express our appreciation of County leadership, staff and the consultants, for their willingness to convene with our Members and open dialogue in regards to the ongoing impact fee update. This collaboration began with the Pima County Department of Transportation and their consultant Psomas presenting at MPA's public policy meeting in the fall, and several subsequent meetings followed. Through clear communication and sharing of perspectives and information, we continue to work towards alignment of the goals of the Land Use Assumptions Report (LUAR) and the Infrastructure Improvements Plan (IIP) and the needs of the development community. We are committed to continuing our work with Pima County's staff, their consultants, and our Membership to address any questions that may arise as the update process continues.

Thank you, for your partnership,

--
