**Subject:** Reinstitute mask mandate

[REDACTED]

Please reinstitute the mask mandate in Pima County. Especially in schools where our most vulnerable are about to begin the new school year.

Thank you,  
Ernesto Porras

**Subject:** Masking in Pima County Schools

[REDACTED]

Dear Pima County Board of Supervisors and Staff Members,

I am writing to implore you to mandate masks in our Pima County Public Schools. We should be employing every mitigation strategy at our disposal during such a sharp rise in COVID-19 cases among the unvaccinated, including children under the age of 12 who are about to enter crowded school buildings. As we enter our third school-year impacted by COVID, masking is such a simple way to prioritize the safety and health of our most vulnerable community members - our children. It is part of (not separate from) their learning and development. Thank you for your consideration. Sincerely,  
Megan Mogan, Pima County District 5 resident

Megan

**Subject:** For August 10, 2021 BOS meeting regarding mandatory vaccinations for County Employees

[REDACTED]

**Board of Supervisors, County Administrator;**

**Science/Fact:**

- 1) Routine tests for COVID will not readily identify the so called "Delta Variant" (DV);
- 2) Whatever vaccine is administered, it is NOT a cure nor will it prevent COVID;
- 3) It has been reported - Thousands of individuals have contracted COVID after being vaccinated;
- 4) Those post-vaccinated COVID positive individuals can transmit the disease as readily as unvaccinated individuals;
- 5) (Reported July 30, 2021) 74% of people infected in Massachusetts outbreak were fully vaccinated;
- 6) Fully vaccinated people who get infected carry as much viruses in their nose as unvaccinated people;
- 7) There are prevention protocols that could:
  - a) Reduce possibility of infection;
  - b) Reduce illness if infected;
  - c) Reduce the number of days of recovery if infected;
  - d) Reduce transmission if infected;

e) Reduce viral load of infected individuals.

**Questions:**

- 1) Why are you allowing illegal immigrants to be transported throughout our County when it has been documented that some have COVID?
- 2) Why doesn't the County educate employees on options about how to keep themselves healthy and less likely to contract/or be seriously ill with COVID (see #7 above)? I have seen nothing on this from the Wellness coordinator. If I missed it, please respond to my email and point me in the right direction.

**In Conclusion:**

You are asking telling employees to make a choice between feeding their families and paying their bills and compromising their principals.

I respectfully urge the Board of Supervisors to vote NO on a vaccine mandate for County employees.

Sincerely,

A Pima County Employee – name withheld due to fear of retaliation.
