I am Sharon Fickes, Pima County resident contact [REDACTED]
Following are my comments for the BOS Meeting 12-06-22

BOS Meeting 12-06-22 Consent Agenda Health Item #8 STCHHealth LLC Amendment #2 \$98,600

Additional funds for what? Why does Pima County Health Department need to create analytics for tracking health of who? Employees, county residents and for what purpose? STCHHealth LLC promotes their vaccine intelligence to monitor, manage, mobilize data for a healthier future. I really don't need or want Pima County bureaucrats monitoring my health that I thought was private information between myself and my doctor. I know you will accept this amendment because you consider this a free government handout but would like others who may read this to be concerned about your activities.

God Bless America
Sharon Fickes

Please add the following comments to the addendum for the Tuesday, December 6, 2022 9:00 AM Board of Supervisors' agenda.

BOS Meeting 12-06-22 Consent Agenda Health Item #8 STCHHealth LLC Amendment #2 \$98,600

Why is there a need for additional funding and what is the purpose of Pima County Health Department creating analytics for tracking health? Our health is already tracked in many ways by health professionals we hire to monitor it - we don't need county involvement. All that is received (or paid for) by the Federal government is not necessary and perhaps leads to more unnecessary and useless expenditures of funds.

Do we in Pima Country really need the health department providing us with buttons that say "My pronouns are." Let's use some sense when spending money - because ultimately all these dollars come from us, the taxpayer.

Gail Ault
Pima County resident
