

Board of Supervisors Memorandum

April 17, 2018

Draft Sales Tax Implementation Plan Ordinance and Resolution Levying a Sales Tax

Background

At the Board's April 3, 2018 meeting the Board accepted the Sales Tax Advisory Committee's final report and recommendations, and directed staff to prepare a draft sales tax implementation plan ordinance, as well as a draft resolution levying a sales tax, for Board discussion on April 17, 2018. Attached are both documents. Both documents also include in the margins policy alternatives should the Board wish to discuss such. These policy alternatives are detailed in this memorandum.

The draft ordinance and resolution, if adopted by the Board as currently written, would achieve the following:

1. Sufficient funding to improve the condition of all unincorporated paved County-maintained roads (local, arterial and collector) within 10 years to at least a fair condition;
2. Significant funding to cities and towns for their road repair needs;
3. Assurances that the funding will be spent on road repair via two independent audits annually of sales tax revenue deposits to and expenses from the road repair fund, one by the Regional Transportation Authority and one by the Arizona Auditor General's Office, along with an automatic repeal clause if misspending occurs and is not cured;
4. Reduction of the County's primary property tax rate by 25-cents per \$100 of taxable value;
5. Over \$50 million in additional General Fund support for programs that increase the financial stability and health of low-income households to mitigate the impact of the sales tax on these households.

Below is a potential schedule for continued Board consideration of a County sales tax, should the Board chose to proceed:

April 17	Board discussion and direction on the draft ordinance, which includes the County's draft 10-year road repair plan and road list for unincorporated areas, and the resolution
May 1	Board action on the ordinance
May 15	Board action on the resolution
May 22	Tentative budget adoption

Resolution

A resolution is the form in which the Board takes a specific action. In this case, the action is levying a county general sales tax. The Board can make its action conditional. In this case, the Board is conditioning the action of levying the sales tax on the following conditions:

1. The sales tax is to be levied for a period of 10 years.
2. The sales tax revenue is deposited into a Road Repair Fund.
- 3.a. The sales tax revenue may only be used for road repair, as defined in detail in the Resolution.
- 3.b. The sales tax revenue is distributed to cities and towns, and unincorporated Pima County, based on the population of each in proportion to the County's total population, and per intergovernmental agreements.
- 3.c. The Regional Transportation Authority audits the Road Repair Fund annually, establishes performance standards and best practices for road repair, and annually reviews performance of County, cities and towns management of road repair programs and recommends alternative project management if necessary.
- 3.d. The County's financial statements with regard to the Road Repair Fund are audited annually by the Arizona Auditor General's Office.
- 3.e./f. If either of the two audits find that the County misspent the sales tax revenues, and the County does not correct that misspending, the levy is repealed.

Per ARS 42-6103, a unanimous vote of the Board of Supervisors is required to levy a County general sales tax.

Sales Tax Implementation Plan Ordinance

An ordinance is the form in which the Board adopts a rule or law or plan. In this case, the Board is adopting a plan for implementing the sales tax. The ordinance is not effective until the resolution levying the sales tax is adopted. The ordinance states that:

- Section 2. The sales tax revenue may only be used for road repair, and duplicates text from the Resolution defining authorized uses.
- Section 3. Provides more details regarding requirements for distribution to cities and towns, including requiring a 10 year road repair plan from each city and town prior to distributing the first year's share of sales tax revenue
- Section 4. References as an exhibit the County's detailed road repair plan for unincorporated Pima County that would fully fund the repair of all paved

County maintained roads in 10 years. It includes a list of each road segment by treatment type and the year in which the treatment is scheduled. It also details how the road segments were prioritized for repair. For roads rated poor or failing, failing roads are scheduled for treatment first. For roads rated very good to fair, very good roads are scheduled for treatment first to preserve that condition.

Section 5. Requires the Board to stop levying the road repair property tax.

Section 6./7. Requires the Board to mitigate the impact of the sales tax on low-income households by budgeting \$3 million in additional funding for low-income programming and services for the first year the sales tax is levied from the General Fund, with the intent to increase this by \$500,000 each subsequent year; and to create a commission that will recommend subsequent years funding to maintain or increase the availability of such services; and requires the Commission to develop a plan for approval by the Board for allocating the funding and for the Commission to review the effectiveness of such spending.

Policy Alternatives

A. Distribution of funding between cities, towns and unincorporated Pima County

In the past when the County was distributing property tax revenues to cities, towns and unincorporated areas in Pima County, I had recommended the distribution be based on the taxable value of property within each jurisdiction. This was the basis for distributing the 25 cent per \$100 of taxable value for the local road repair property tax. This would have also been the basis for allocating general obligation bond proceeds for road repair, if the 2015 bond proposition had succeeded, since general obligation bonds are repaid with property taxes. However, in the case of a sales tax, the revenue is generated by people participating in sales transactions, and therefore I feel it is more appropriate to base the distribution on the population as a percent of total County population. Table 1 shows the recommended distribution by population and Table 2 shows what the distribution would look like if it was based on taxable property value. The draft resolution bases the distribution on population, and the ordinance provides more details about how the population would be calculated.

Table 1
Estimated 10 Year Sales Tax Revenue Distribution by Population

Jurisdiction	July, 1 2016 Census Population	% Population	Estimated 10 Year Sales Tax Revenue Allocated to Road Repair Regionally	Estimated 10 Year Sales Tax Revenues Per Jurisdiction¹

¹ To be reduced proportionally to fund financing costs that would be taken out of the sales tax revenue allocation for road repair prior to distributing the funds.

B. Role of the RTA

The role of the Regional Transportation Authority in administering a County sales tax for the repair of roads throughout the region, has been discussed several times by the Board. In fact, Supervisor Steve Christy requested an opinion from the County Attorney's Office with regard to what responsibilities the Board could legally delegate to the RTA. This legal opinion is dated December 11, 2017 and is attached to this memorandum as the Board voted to waive its attorney-client privilege. The section on the delegation of the road maintenance program begins on page 3 of the legal opinion. From just a legal perspective, the RTA could administer the entire program, with the exception of the following: Pima County and cities and towns must legally approve plans for which roads within their jurisdiction are to be repaired and when. This responsibility cannot legally be delegated. The County, for example, is responsible for County road maintenance and the Board is responsible for making decisions as to how to allocate limited resources and prioritize road maintenance projects. Keeping this responsibility provides the County with important limitations against liability claims against the County for road conditions. This still, legally, leaves a lot of options for the RTA in administering a road repair program funded by a County sales tax.

A list of possible RTA responsibilities is included in Table 3. Option A shows the broadest, legally allowable list of RTA responsibilities. This includes the RTA receiving the sales tax revenues from the County, the RTA preparing road repair plans for County, and city and town approval, the RTA acquiring right of way permits, the RTA contracting for the actual road repairs, and the RTA reporting on the program and auditing the program. The problem with this list is that it includes many activities that are just not practical for the RTA. Presently the RTA does not build roads, nor does it contract with construction companies to build roads. It is primarily the fiscal and reporting agent for road improvement projects. The RTA instead contracts with the County, cities and towns to provide funding for road projects that the County, cities and towns then procure and contract for. The RTA reports on the status of the projects and funds independent audits. If the County were to grant the RTA all of the listed responsibilities, it would result in a lot of duplication of efforts between the RTA, the County, and cities and towns. For example, in preparing recently for possible state legislation that would have allowed for voters to vote on an additional RTA half-cent sales tax for road repair, the RTA asked the County, cities and towns for their 10 year road repair plans, modeled on the County's draft 10 year road repair plan for unincorporated Pima County. The RTA did not try to develop these plans itself.

But for the sake of discussion, Table 3 is included below. Option D shows the RTA responsibilities included in the draft resolution, which states that the RTA would annually audit the County's road repair program, develop performance standards for road maintenance, annually review the performance of the county, cities and town's management of road repair programs and recommend alternative project management if necessary, and maintain a database of updated road conditions for the region. This would be the least costly to the RTA and the County would allocate funding to the RTA to carry out these tasks.

Table 3
Possible RTA Roles and Responsibilities

Possible RTA Responsibilities	Option A: The broadest, legally allowable roles for RTA	Option B: County & Municipalities Contract or Perform Road Repairs	Option C: County & Municipalities Develop Plans and Contract or Perform Road Repairs	Option D: County transfers funding to Municipalities; County & Municipalities Develop Plans, Contract or Perform Road Repairs and Report Progress
	RTA cost to administer = HIGH	RTA cost to administer = MEDIUM	RTA cost to administer = LOW	RTA cost to administer = LOWEST
1. Receive annual funding from Pima County equal to the amount of sales tax revenue collected, less necessary financing costs to address the County's expenditure limitation.	X	X	X	
2. Draft a detailed plan for repairing roads within unincorporated Pima County and the municipalities that identifies each road segment, the proposed treatment, and schedule for treatment, with input from County and municipalities.	X	X		
3. Obtain public input on the plan.	X	X		
4. Obtain approval from the governing bodies of the County and municipalities for the plan for the roads that they are responsible for maintaining (County and municipalities cannot legally delegate this decision)	X	X		
5. Coordinate roadway prioritization with the utilities.	X			
6. Obtain right of way permits from each jurisdiction.	X			
7. Procure, issue and fund contracts to perform the agreed upon road repairs.	X			
8. Notify residents in advance of their particular road repair project.	X			
9. Monitor the status of the contractors.	X			
10. Regularly report on the status of the projects and the overall program.	X	X	X	
11. Conduct or contract for regular, independent audits of the program.	X	X	X	X
12. Retain a portion of the funding for RTA administration, and report annually to the County on how they spend the administrative funds.	X	X	X	X
13. Maintain a database of updated road conditions across the region	X	X	X	X
14. Transfer funding to County and municipalities		X	X	
15. Comment on County and municipal road repair plans		X	X	X
16. Set performance standards/best practices for road repair to evaluate County and municipal road repair programs		X	X	X
17. Annually review performance of County, cities and towns management of road repair programs and recommend alternative project management if necessary		X	X	X

C. Property Tax Reduction

The draft ordinance and resolution allocate all the sales tax revenues to road repair. The ordinance calls for the elimination of the existing road repair property tax, decreasing the County’s primary property tax rate by 25 cents, but no additional property tax relief. The Sales Tax Advisory Committee recommended the elimination of this road repair property tax, but also recommended that the Board consider and further analyze allocating sales tax revenues to further decrease the primary property tax. This is not new. Yavapai County, years ago when their Board first began levying their sales tax, included in the resolution that the revenues would be allocated to transportation and property tax reduction. Table 6 shows one alternative that allocates all the sales tax revenue to road repair in Year 1, 2.5 percent of the sales tax revenue in to property tax reduction Year 2, and increases the allocation of sales tax revenue to property tax reduction by 2.5 percent a year thereafter. As you can see, the result is a cumulative reduction in the primary property tax rate by 15 percent by Year 10. The Board could consider other allocation alternatives, but if the intent is still to fix all of the unincorporated roads within 10 years and significantly fund the road repair programs of our cities and towns, then allocating additional sales tax revenues to property tax reduction beyond what is shown in Table 6 could compromise the ability to meet those funding needs.

Table 6
Alternative: Allocating Sales Tax Revenues to Property Tax Reduction

Year	Estimated Sales Tax Revenue Collections	% Sales Tax Revenue Allocated to Property Tax Reduction	Estimated Sales Tax Revenue Allocated to Property Tax Reduction	County Primary Property Tax Rate ²	Cumulative Reduction ²
1	\$67,736,457	0.0%	\$ -	4.2096	6%
2	\$78,543,338	2.5%	\$1,963,583	4.1582	7%
3	\$82,258,993	5.0%	\$4,112,950	4.1168	8%
4	\$85,054,410	7.5%	\$6,379,081	4.0705	9%
5	\$88,106,205	10.0%	\$ 8,810,621	4.0254	10%
6	\$91,189,922	12.5%	\$11,398,740	3.9788	11%
7	\$94,290,379	15.0%	\$14,143,557	3.9303	12%
8	\$97,307,671	17.5%	\$17,028,842	3.8808	13%
9	\$100,129,593	20.0%	\$20,025,919	3.8315	14%
10	\$103,033,351	22.5%	\$23,182,504	3.7832	15%

² Year 1 primary property tax rate and cumulative reduction assume the 25 cent road repair property tax is eliminated, reducing this Fiscal Year’s primary property tax rate from \$4.4596.

D. Funding for Programs and Services that Improve the Financial Stability and Health of Low-Income Households

The Sales Tax Advisory Committee spent considerable time discussing and taking public input on the fact that sales taxes disproportionately impact low-income households, and included as one of four recommendations, that the Board should take mitigation actions to lessen such an impact. While this is not a new issue, the Board has not considered it in detail yet and therefore the language included in the draft Sales Tax Implementation Plan Ordinance is certainly deserving of discussion and policy direction from the Board. The draft Ordinance calls for an initial investment of \$3 million from the General Fund for the first year the sales tax is levied. The draft ordinance also states that this funding should be spent on programs and services that improve the financial stability and health of low-income households, including but not limited to, employment and job training, financial counselling, food and housing assistance, preventive health services, and improving awareness of existing benefits and services via benefit eligibility screenings.

For each subsequent year, it is recommended that the Board maintain that new baseline investment and increase it by \$500,000, for a total investment of \$52,500,000 over the 10 years the sales tax is levied. However, the ordinance must state that the budgeted amounts for years beyond the initial year are subject to budgeting and appropriation laws, as the Board of Supervisors cannot limit its own future exercise of legislative discretion.

Table 5
Increased General Fund Support for Low-Income Programing and Services

Year	Base \$3 million increase then \$500k a year
1	\$3,000,000
2	\$3,500,000
3	\$4,000,000
4	\$4,500,000
5	\$5,000,000
6	\$5,500,000
7	\$6,000,000
8	\$6,500,000
9	\$7,000,000
10	\$7,500,000
Total	\$52,500,000

The Ordinance also creates a Commission on Economic Diversity and Prosperity. The Commission is tasked with developing a plan, for approval by the Board for allocating the

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **Draft Sales Tax Implementation Plan Ordinance and Resolution Levying a Sales Tax**
April 17, 2018
Page 9

funding to eligible programs, working with the existing Outside Agency Committee, making recommendations annually to the Board for the funding amount to be budgeted for eligible programs and reviewing the effectiveness of the funding allocated based on metrics included in the Plan. I recommend the plan be developed in conjunction with the County's existing Ending Poverty Now initiatives, and in the format of the County's Economic Development Plan with action items.

Studies have shown that programs combining job training, financial counselling and enrolling eligible households in existing benefit programs, have been successful in increasing household incomes. Job training is clearly an area where the County is in the position to lead. While it would be up to the Commission, I recommend the focus of the job training funds be on: (1) the underemployed; (2) displaced employees; (3) career ladder for wage growth; and (4) vocational educational opportunities including construction, aerospace and automotive trades and medical fields. I wrote to the Board on April 5, 2018 about shifting away from leased properties to housing County operations units in owned facilities, and stated that I will propose in the near future consolidating several county leased facilities into a single service center. This could provide an ideal location for piloting the co-location of the services listed above.

Alternative policy options for the Board to discuss in this area could include funding the low-income mitigation from the sales tax instead of the General Fund (property taxes), different annual funding amounts, and different eligible programs.

Recommendation

I recommend the Board discuss at the April 17, 2018 meeting the attached draft Sales Tax Implementation Plan Ordinance, including the County's draft 10-year road repair plan for improving the condition of every paved County-maintained road to at least a fair condition, and draft Resolution Levying a County Sales Tax, and provide direction on policy alternatives and whether to proceed.

Sincerely,

C.H. Huckelberry
County Administrator

DRAFT Resolution
Pima County Board of Supervisors Levying a General Excise Tax

DRAFT RESOLUTION NO. 2018 - _____

A RESOLUTION OF THE PIMA COUNTY BOARD OF SUPERVISORS LEVYING A GENERAL EXCISE TAX

The Board of Supervisors of Pima County, Arizona, finds:

- A. Pima County has authority, under A.R.S. § 42-6103, to adopt a general excise tax by a unanimous vote of the Board of Supervisors. The tax rate specified in the statute equates to one-half percent for most transactions and applies to the same transactions subject to the State of Arizona's sales tax. It applies to transactions within cities and towns as well as those in unincorporated areas of the county levying the tax.
- B. Pima County is the only County that has not levied a sales tax.
- C. The State Legislature has not raised the gas tax in over 27 years, and the amount of Highway User Revenue Funds distributed to Pima County is inadequate to pay for needed road repair and maintenance as well as important capital projects.
- D. Approximately 70 percent of the 1,891 miles County-maintained roadways in unincorporated Pima County are in poor or failed condition. It would cost approximately \$565 million, over a ten year period, to bring all paved and maintained roads within unincorporated Pima County up to a fair or better condition based on the Pavement Surface Evaluation and Rating ("PASER") system.
- E. Imposition of a general excise tax under A.R.S. § 42-6103, in order to provide funding for road repair and maintenance for County maintained roadways and those maintained by its incorporated municipalities, would support and enhance countywide services.
- F. The Board of Supervisors adopted the Sales Tax Implementation Plan Ordinance No. _____ 2018 on _____, 2018, which becomes effective upon the Board's approval of this resolution adopting a county sales tax.

NOW, THEREFORE, BE IT RESOLVED as follows:

- 1. Tax Levy; Sunsetting. The Board of Supervisors of Pima County hereby orders the levy of a county general excise tax under A.R.S. § 42-6103, at a rate that is ten percent of the rates prescribed by A.R.S. § 42-5010(A) on each class of business subject to the tax imposed by Title 42, Chapter 5, Article 1 of the Arizona Revised Statutes and A.R.S. § 42-5352(A) (the "County Sales Tax"). This levy is for a period of ten years, as provided below.
- 2. Allocation of Revenue. The Arizona Department of Revenue will collect the County Sales Tax revenue and the State Treasurer will transmit the revenue to the Pima County Treasurer, as provided by A.R.S. § 42-6103. The Pima County Treasurer will deposit the revenue in the "Road Repair Fund". The County Administrator or their designee will cause the appropriate notices terminating the collection of the Sales Tax to be delivered to the Arizona Department of Revenue so that collection ceases as of the end of the fiscal year in which the tenth anniversary of the first date of collection falls.

3. Use of Revenue in Road Repair Fund.

a. Authorized Uses. The County Sales Tax revenue deposited in the Road Repair Fund may be used only for the maintenance, repair, and rebuilding of roads within the County, and for the payment of debt service and financing costs on any debt obligations issued by the County for such purposes. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction, including repair, reconstruction, or installation of associated shoulders and headers, edge protection, curbing, and any Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.

b. Distribution of Road Repair Sales Tax Revenues among Municipalities and Pima County. The County Administrator is directed to develop and implement a program for distributing a share of the revenues in the Road Repair Fund to each incorporated municipality within the County based on the municipality's population expressed as a percentage of the County's total population, and to develop, with the assistance of the County Attorney's Office, appropriate intergovernmental agreements between the County and each municipality, as stated in the Sales Tax Implementation Plan Ordinance.

POLICY ALTERNATIVE:

Distribute based on taxable value of property in each municipality as a percent of total county taxable value

c. Role of Regional Transportation Authority. The County Administrator is directed to work with the Regional Transportation Authority (the "RTA") to develop an intergovernmental agreement under which the RTA will oversee the County's and municipalities' road repair and pavement preservation programs that receive funding from the Road Repair Fund; cause the Road Repair Fund to be audited annually by a certified public accountant as described in paragraph 3(d) below; establish performance standards and best practices for road repair and pavement preservation programs; annually review performance of County and municipal management of road repair and pavement preservation programs, and recommend alternative project management if necessary.

POLICY ALTERNATIVE:

Expand RTA role to add road repair plan development, acquisition of right of way permits, procurement and contracting for road repair, etc.

d. Reporting and Auditing. The County Administrator or their designee will track and report the amount of revenue received from the County Sales Tax, the amounts deposited to the Road Repair Fund, and all expenditures of monies in the Road Repair Fund, as well as all expenditures of the proceeds of any obligations issued by the County, the debt service on which is to be paid from the Road Repair Fund, in the County's financial statements that are audited annually by the Arizona Auditor General's Office. The County Administrator or their designee will also report this information in separate financial schedules, and will cause those schedules to be audited annually by an independent certified public accountant retained by the RTA per paragraph 3(c), who will attest that the schedules fairly represent Pima County's deposits to and expenditures of the monies in the Road Repair Fund; and that the use of the monies in the Road Repair Fund complied with the restrictions in paragraph 3(a) above.

- e. Cure. If an audit report issued by the Auditor General or by an independent certified public accountant under paragraph 3(d) above indicates that the deposits to the Road Repair Fund were less than they should have been, or that any expenditure of monies in the Road Repair Fund was improper, and if this finding is not reversed after consultation with the County, the County will, during the then-current fiscal year, deposit additional monies into the Road Repair Fund to cure any shortfall in the deposits and reimburse the Road Repair Fund the amount of any improper expenditure, provided that sufficient funds are legally available to the County to be used for that purpose. The first annual independent audit that is conducted after this reimbursement will certify that the prior violation was cured.

- f. Automatic Repeal. If an improper use of monies in the Road Repair Fund is reported as provided in paragraph 3(d) above, and the following annual independent audit does not certify that the monies have been replaced as provided in paragraph 3(e) above, the levy of the County Sales Tax will lapse and cease as of the end of the fiscal year in which that audit is conducted, except that the levy will continue so long as any obligations that are secured by a pledge of the County Sales Tax revenue, or for which the County Sales Tax revenue is the identified debt-service funding source, are outstanding. The County Administrator or their designee will cause the appropriate notices terminating the collection of the Sales Tax to be delivered to the Arizona Department of Revenue.

PASSED, ADOPTED AND APPROVED by the Pima County Board of Supervisors this ____ day of _____, 2018.

Richard Elias
Chairman, Pima County Board of Supervisors

ATTEST:

Julie Castañeda
Clerk of the Board

APPROVED AS TO FORM:

Deputy Pima County Attorney

DRAFT

DRAFT Ordinance
Pima County General Sales Tax Implementation Plan

DRAFT ORDINANCE NO. 2018 - _____

**AN ORDINANCE OF THE BOARD OF SUPERVISORS OF PIMA COUNTY, ARIZONA,
ADOPTING THE PIMA COUNTY GENERAL SALES TAX IMPLEMENTATION PLAN**

The Board of Supervisors of Pima County (the “Board”) finds that:

- A. Pima County, beginning in fiscal year 2017/18, levied and has collected a local road repair property tax under A.R.S. § 28-6712 at the rate of 25-cents per \$100 of taxable net assessed value (the “Road Repair Property Tax”), the revenues of which are insufficient to repair the County’s roads in a reasonable time period.
- B. Pima County has authority, under A.R.S. § 42-6103, to adopt a general excise tax (the “Sales Tax”) by a unanimous vote of the Board.¹ The tax rate specified in the statute equates to one-half percent for most transactions and would apply to the same transactions subject to the State of Arizona’s sales tax. It would apply to transactions within cities and towns as well as those in unincorporated areas of Pima County.
- C. The Board has discussed the possibility of adopting such a Sales Tax in order to provide additional funds for road repair.
- D. Table 1 shows projected revenues from the Sales Tax in Pima County, assuming the tax levy becomes effective July 1, 2018 and is levied for 10 Years.
- E. The Board is concerned about the disproportionate impact a Sales Tax would have on low-income households.
- F. The Board wishes to enact an implementation plan for use of the Sales Tax revenues, and mitigation of the impact of the Sales Tax on low-income households, subject to budgeting and appropriation laws, that would apply if and when the Board does in fact adopt a resolution levying the Sales Tax.

									\$887,650,319

Notes:

- 1/ Assumes current weighted average tax rate for combined state, RTA and municipal retail sales is 8.037%. Additional half-cent sales tax is equivalent to a price increase of 0.463%.
- 2/ Annual growth rates for half-cent County General Excise Tax assumed to be same as baseline forecast growth rates for RTA revenues as presented in University of Arizona, Economic & Business Research Center's, "A Revenue Forecasting Model for the Pima RTA: Updated to 2016," February 15, 2017, page 22.
- 3/ County General Excise Tax effective from July 1, 2018, results in 11 months of accrued tax revenue for Fiscal Year 2018/19. Subsequent years are full 12 months of revenue.
- 4/ State statute exempts pre-existing contracts from any new or increased excise taxes. Discount factors shown in the table reflect impact of pre-existing contracts on revenues collected by the State's temporary 1% transaction privilege tax from June 1, 2010, through May 31, 2013.

BE IT ORDAINED BY THE BOARD OF SUPERVISORS OF PIMA COUNTY, ARIZONA:

Section 1. Effective Date

This Ordinance will become effective, subject to budgeting and appropriation laws, upon the Board's unanimous approval of a resolution adopting a Sales Tax.

Section 2. Sales Tax Revenues to be Allocated to Road Repair Only

The Sales Tax revenues will be allocated over 10 Years for the purposes of repairing roads throughout the County, subject to the conditions stated in the resolution levying the Sales Tax. Authorized uses include the maintenance, repair, and rebuilding of roads within the County, and for the payment of debt service and financing costs on any debt obligations issued by the County for such purposes. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction, including repair, reconstruction, or installation of associated shoulders and headers, edge protection, curbing, and any Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.

Section 3. Distribution of Road Repair Sales Tax Revenues among Municipalities and Pima County; and 10 Year Road Repair Plans

The County will share the Sales Tax revenues with its incorporated cities and towns (“municipalities”). Distributions will be based on the U.S. Census Bureau population estimates expressed as a percent of the estimated total County’s population, for July 1, 2016 for Fiscal Years 2018/19, 2019/20, and 2020/21. The April 1, 2020 U.S. Census Bureau population count should be available in time to use for the Fiscal Year 2021/22 and will continue to be the basis for Sales Tax distributions to cities, towns and unincorporated Pima County through the end of Fiscal Year 2027/28.

Pima County will enter into intergovernmental agreements with the municipalities, which will memorialize expectations and commitments for eligible expenses, annual budgeting, transfer of funds, reporting and auditing. Each participating municipality will be required to develop a 10 year road repair plan prior to the distribution of Year 1 funding. Each participating municipality will be responsible for contracting or performing work within its jurisdictional boundaries. Each participating municipality will be required annually to report updated roadway condition ratings to the Pima Association of Governments (PAG). PAG will then have the ability to maintain a regional inventory of roadway conditions, such that the general conditions of roadways across Pima County and the associated costs to repair such roadways can be communicated effectively for the region as a whole.

Section 4. 10-Year Road Repair Plan for Unincorporated Pima County

Exhibit A includes a 10-year road repair plan for unincorporated Pima County, including a list of each road segment by treatment type and schedule, such that all paved County-maintained roads will be improved to at least a fair condition within 10 years. This plan will be updated annually by the County’s Department of Transportation, and reviewed by the Pima County Transportation Advisory Committee, to account for revised revenue estimates and changing road conditions.

Section 5. Eliminate Existing Road Repair Property Tax

After adoption of a resolution levying a Sales Tax subject to this Ordinance, the County will, for subsequent fiscal years, cease levying the Road Repair Property Tax.

Section 6. Funding for Programs and Services that Improve Financial Stability and Health of Low-income Households

After adoption of a resolution levying a Sales Tax subject to this Ordinance, and for the first year the Sales Tax is levied, the County shall, subject to budgeting and appropriation laws, budget an additional \$3,000,000 for programs and services that have the purpose of improving the financial stability and health of low-income households. Eligible programs and services include, but are not limited to, employment and job training, financial counseling, food and housing

POLICY ALTERNATIVE:

Distribute based on taxable value of property in each municipality as a percent of total county taxable value

POLICY ALTERNATIVE:

Reduce the primary property tax further by using some of the sales tax revenue for property tax reduction.

POLICY ALTERNATIVE:

Allocate more or less funding.

POLICY ALTERNATIVE:

Identify different eligible programs

assistance, preventive health services, and improving awareness of existing benefits and services via benefit eligibility screenings.

For the remainder of the 10 year period for which the Sales Tax is levied, the Commission for Economic Diversity and Prosperity shall make recommendations to the Board of Supervisors regarding the funding amount to be budgeted for these eligible programs in order to maintain and increase the availability of these services. It is the current intent of the Board to increase funding for this purpose by an additional \$500,000 each year the sales tax is in effect, subject to annual budget appropriation by the Board and Board consideration of Commission funding recommendations. Funding will be allocated from the County's General Fund and not from the Sales Tax revenues.

POLICY ALTERNATIVE:

Allocate more or less funding

POLICY ALTERNATIVE:

Allocate funding from the sales tax revenues and not from the General Fund.

Section 7. Commission for Economic Diversity and Prosperity

A. After adoption of a resolution levying a Sales Tax subject to this Ordinance, a Commission for Economic Diversity and Prosperity will be formed. The Commission will have a total of 13 members, appointed as follows:

5 members, 1 appointed by each member of the Board of Supervisors

1 member appointed by the County Administrator

7 members from organizations representing or providing services to low-income families and the elderly, to include:

(1) member from an organization focused on food security

(1) member from an the designated Area Agency on Aging

(1) member appointed by Pima County's Housing Commission

(1) member appointed by Pima County's Board of Health

(1) member from an organization focused on women's economic and social empowerment

(1) Member from an organization that provides job training and employment services to individuals with economic, physical or emotional barriers

(1) Member from a non-profit organization or individual that provides personal financial counseling services

B. The Commission members will serve a term of six years. The Commission will be decommissioned when the Sales Tax stops being collected.

C. The Commission will:

1. Develop a Plan, for approval by the Board of Supervisors, for allocating funding to eligible programs, including how to work with the existing Pima County Outside Agency Commission

to increase the availability and effectiveness of eligible programs. The Plan should include metrics to measure the effectiveness of this spending.

2. Make recommendations annually to the Board of Supervisors for the funding amount to be budgeted for the eligible programs; except that the amount for the first year that the Sales Tax is collected will not be less than the baseline plus the \$3,000,000 set forth in Section 6 above.

3. Annually review the effectiveness of the funded programs and make recommendations to the Board of Supervisors for allocating available funding, consistent with the Plan.

DRAFT

Draft Pima County Roadway Pavement Repair and Preservation 10-Year Plan for Unincorporated Pima County

I. Purpose

The purpose of the Pima County Roadway Pavement Repair and Preservation Plan (“Plan”) is to fully repair and preserve Pima County maintained roadways in unincorporated Pima County within 10 years. To illustrate the scale of the problem, approximately 70 percent of the 1,891 miles of unincorporated Pima County maintained roadways are in poor or failed condition.

It should be noted that asphaltic roadways require extensive preventative maintenance (“pavement preservation”) due to degradation by multiple factors including solar radiation, wheel loading, drainage and subbase erosion, such that a treatment is required every four to five years. Reconstructing roadways without subsequent application of regularly scheduled maintenance results in rapid loss of the asset investment as regularly scheduled pavement preservation costs approximately 28 percent of reconstruction costs. In order to maximize return on investment and save taxpayer costs, this plan includes the necessary annual pavement preservation budget.

II. Roadway Pavement Repair and Preservation Definition

The Plan constitutes activities solely related to the repair and maintenance of public flexible and rigid paved roadways to maximize Pavement Surface Evaluation and Rating (PASER) during the plan period. The PASER scale runs from 1 to 10, with 1 being a road in failed condition and 10 being a road in very good condition. Qualifying repair and preservation treatment activities include fog sealing, chip sealing, micro-surfacing, mill and overlay, and reconstruction. Under this definition, reconstruction of roadways is only applicable to the pavement section and associated edge protection on uncurbed roadways to include shoulders or headers, with the exception of Americans with Disabilities Act (ADA) infrastructure improvements required by the application of a particular repair or preservation treatment.

III. Road Selection Treatments and Schedule

Attachment A, dated April 1, 2018, provides a repair and preservation treatment schedule for all unincorporated Pima County maintained roadways by PASER level, over the 10 years. The following criteria were used in developing this schedule:

Roadway Repair and Preservation Selection Criteria

- Determine PASER for all paved public roadway segments
- Aggregate segments requiring similar mitigation grouped by Township, Section & Range, subdivision, street name and address range to create grouped work zones
- Enable logic based on functional class, zoning and construction year to determine the number and location of ADA curb ramps to be constructed
- Rank roads based on PASER level
- Create routine roadway pavement preservation schedule
- Allocate treatment types based on available annual repair and preservation budgets (Table 3), adjusted to maximize cost/benefit

- PASER 1-4 roadways are scheduled for repair with priority from 1-4
- PASER 5-10 roadways are scheduled for preservation with priority from 10-5
- Work is scheduled based on PASER degradation curve (gaps indicate no treatments were scheduled for that year or no budget was available for that treatment)

**Table 1
Roadway Miles Treated per PASER per Year**

Table 2
Summary Data of Roadways Repaired and Preserved During the 10-Year Plan Period

Year	Miles of Local Roads Repaired	Miles of Local Roads Preserved	Miles of Collector & Arterial Roads Repaired	Miles of Collector & Arterial Roads Preserved
1	133.17	41.05	3.43	44.28
2	119.54	48.21	21.90	54.74
3	69.89	51.00	44.22	60.75
4	113.91	22.84	31.43	13.33
5	60.20	133.17	120.60	3.43
6	126.50	119.54	72.53	21.90
7	129.94	69.89	84.03	44.22
8	131.83	118.73	49.50	33.32
9	121.13	193.37	64.54	124.02
10	70.32	294.24	50.46	149.17
TOTAL*	1,076.43	1092.04	542.64	549.16

* Totals from Table 1 result in a 1.3 mile difference from totals in Table 2 due to rounding differences.

IV. Cost Estimates

The total cost over 10 years to bring the unincorporated Pima County roadways that are in poor and failing condition into good condition is estimated at \$399 million, including inflation¹. The total cost to preserve roads that are in fair and good condition over this 10 year time period, is estimated at \$166 million, also including inflation. Table 3 shows these cost estimates on an annual basis over the 10 year plan.

Table 3
Cost Estimates

Year	Road Repair Cost Estimates For Road in Poor & Failing Condition	Pavement Preservation Cost Estimates for Roads in Fair & Good Condition	Total
1	\$ 25,550,550	\$ 8,688,980	\$ 34,239,531
2	\$ 33,071,627	\$ 8,903,118	\$ 41,974,745
3	\$ 28,891,857	\$ 10,866,996	\$ 39,758,852
4	\$ 31,854,377	\$ 12,933,488	\$ 44,787,865
5	\$ 39,760,446	\$ 15,040,530	\$ 54,800,976

¹ Road repair and pavement preservation costs indexed for inflation by Chained Price Index for State & Local Investment in Highways and Streets” reported by the U.S. Bureau of Economic Analysis.

6	\$ 42,779,253	\$ 17,216,445	\$ 59,995,697
7	\$ 46,814,696	\$ 19,496,660	\$ 66,311,356
8	\$ 48,754,776	\$ 21,863,501	\$ 70,618,277
9	\$ 49,624,488	\$ 24,304,990	\$ 73,929,478
10	\$ 52,109,344	\$ 26,828,200	\$ 78,937,544
Total	\$ 399,211,413	\$ 166,142,908	\$ 565,354,321

Table 3 assumes that the annual cost today to preserve all Pima County maintained roadways, if all roads were in fair to good condition, is estimated at \$28,963,268 a year. Currently only 30 percent of the roads are in fair or good condition, and therefore the cost estimate assumes 30 percent of \$28,963,268 for year 1. Table 4 shows the percent that was used for each year to arrive at the pavement preservation cost.

**Table 4
Pavement Preservation Cost Estimates for Roads in Fair and Good Condition**

Year	Annual Cost Estimate for Full Pavement Preservation if All Roads in Fair to Good Condition	% Preservation allocation	Inflation rate	Pavement Preservation Cost Estimates for Roads in Fair & Good Condition
1	\$ 28,963,268	30%	0.00%	\$ 8,688,980
2	\$ 28,963,268	30%	2.46%	\$ 8,903,118
3	\$ 28,963,268	36%	4.71%	\$ 10,866,996
4	\$ 28,963,268	42%	7.17%	\$ 12,933,488
5	\$ 28,963,268	48%	9.33%	\$ 15,040,530
6	\$ 28,963,268	53%	11.45%	\$ 17,216,445
7	\$ 28,963,268	59%	13.77%	\$ 19,496,660
8	\$ 28,963,268	65%	16.13%	\$ 21,863,501
9	\$ 28,963,268	71%	18.47%	\$ 24,304,990
10	\$ 28,963,268	77%	20.82%	\$ 26,828,200
TOTAL				\$ 166,142,908

V. Funding Sources

Funding sources for this 10-year plan include:

1. Revenue from a possible County Sales Tax, to be allocated per the Pima County General Sales Tax Implementation Plan Ordinance;
2. HURF revenues, including additional HURF revenues that become available as HURF bond debt decreased, additional HURF revenues based on three percent growth annually in HURF revenues, and \$16 million surplus revenue from the 1997 HURF bond program (contingent upon approval

of a bond ordinance amendment by the Bond Advisory Committee and Board reallocating these surplus revenues to road repair).

3. Department of Transportation operational savings overtime, based on a December 28, 2017 improvement plan developed by the Department.

Table 5 shows the allocation of revenue from a possible County Sales Tax for unincorporated Pima County Roads, according to the draft Pima County Sales Tax Implementation Plan Ordinance. The draft ordinance includes allocations for road repair for 10 years. After that, no County Sales Tax revenue is proposed for road repair and instead 100 percent of the revenue shifts to property tax reduction. The draft ordinance also specifies how the County Sales Tax road repair allocations will be distributed to unincorporated Pima County versus municipalities, based on U.S. Census Bureau population estimates for July 1, 2016, to be updated after the 2020 population count is made available. As of July 1, 2016, the estimate for Pima County’s unincorporated population accounts for 35.8 percent of the total County population estimate.

Table 5
County Sales Tax Revenue Allocated to Unincorporated Pima County Roads Per
Draft Pima County Sales Tax Implementation Plan Ordinance

Year	Estimated Sales Tax Revenue Collections	% Sales Tax Revenue Allocated to Unincorporated Pima Co Roads Based on % Population July 1, 2016	Estimated Sales Tax Revenue Allocated to Unincorporated Pima Co Roads Based on % Population July 1, 2016
1	\$ 67,736,457	35.8%	\$ 24,249,652
2	\$ 78,543,338	35.8%	\$ 28,118,515
3	\$ 82,258,993	35.8%	\$ 29,448,719
4	\$ 85,054,410	35.8%	\$ 30,449,479
5	\$ 88,106,205	35.8%	\$ 31,542,021
6	\$ 91,189,922	35.8%	\$ 32,645,992
7	\$ 94,290,379	35.8%	\$ 33,755,956
8	\$ 97,307,671	35.8%	\$ 34,836,146

VI. Eligible Expenses

Expenses associated with management, design and delivery of work conforming to the definitions contained in this Plan and costs associated with financing, interest, and securities issuance are eligible expenses under this Plan.

VII. Role of the Pima County Transportation Advisory Committee (TAC)

A. Review and recommend annual road repair and pavement preservation schedule and treatments for unincorporated Pima County to the Board of Supervisors

B. Review annual reports

Pima County will provide annual reports to the TAC, by September 1, identifying how the County sales tax revenues, in particular, were spent for the prior Fiscal Year. The TAC will review these reports to ensure conformance to plan requirements, including eligible costs. Items not conforming to the program requirements and eligible costs will be reported to the County Administrator’s Office and the Board of Supervisors for review and possible action.

VIII. Communicating Status of the Program to the Public

For unincorporated Pima County roadways, the Department of Transportation will create and maintain a webpage that shows the schedule and treatment type for repairing and preserving every paved Pima County-maintained roadway in unincorporated Pima County.

IX. Annual Reporting and Program Evaluation

It will be the responsibility of the Pima County Department of Transportation to provide documentation detailing work conducted in the prior fiscal year by September 1 of each year. The report will contain sufficient detail to allow for full auditing against plan criteria and eligible costs, compare progress to baseline, and provide updated cost estimates and associated impact to schedule. Reports will be provided to the Transportation Advisory Committee for review and acceptance, and will then be transmitted to the Pima County Board of Supervisors and be posted on a dedicated County webpage for public viewing.

Phone 520.724.5700 Fax 520.620.6556

This is a privileged attorney-client communication and should not be disclosed to persons other than Pima County officials and employees involved in the matter that is the subject of the communication. The privilege is held by Pima County and can be waived only by an official action of the Board of Supervisors.

To: Hon. Stephen W. Christy
From: Regina L. Nassen
Date: November 15, 2017 (correction made to fn. 24, 12/11/2017)
Subject: Legality of Transferring County Road Maintenance Program to RTA

Supervisor Christy, Andy Flagg asked me to respond to your October 30, 2017, letter asking for advice regarding the legality of your proposed plan to transfer County sales-tax revenue to the RTA, to be used for road maintenance within the County.

In your memo, [*Just Fix the Roads Plan*](#), you describe the proposal as follows:

Third – we further propose that upon enactment of a countywide half-cent sales tax, that the Board of Supervisors authorize that all revenues generated by the sales tax be directed solely and singularly to the Regional Transportation Authority, and that the RTA has the complete and total direction over the administration of this tax revenue for the singular purpose of fixing our roads – and for fixing our roads only.

The memo states that, under this plan, the Board of Supervisors would merely “contribute to the development of the RTA’s Road Repair Program.” It also states that the sales tax would be scheduled to sunset after ten years. The November 7 Board of Supervisors meeting agenda describes the RTA’s expected involvement as “the development, administration, and execution of a countywide RTA Road Repair Program.”

Your letter noted that there is some uncertainty regarding the scope of the RTA’s authority. This memo addresses that issue, as well as the Board of Supervisors’ authority to delegate its road maintenance responsibilities, restrict use of the tax revenue, and sunset the tax.

Summary.

Though the RTA’s authority isn’t entirely clear, there is a reasonable argument that it could—assuming it would be willing to do so—conduct road maintenance projects on County roads under an

intergovernmental agreement with the County, using money provided by the County. The more significant problem is the County's ability to delegate that responsibility as completely as your proposal has suggested. The County is responsible for maintenance of County roads, and that duty is non-delegable in a couple different senses. These conclusions are explained more fully below. This does not mean, however, that the RTA cannot play an important role in helping the County shape its roadway maintenance program.

Authority of RTA

The RTA developed the 20-year "regional transportation plan" (the "Plan") that was approved by Pima County voters at the same time they approved the half-cent RTA road tax. At this point, the RTA's primary function is to maintain, annually update, and implement—using the revenue from the RTA tax as well as any other funds in the "regional transportation fund"¹ (the "Fund")—a "five year transportation improvement program" (the "Program") that is consistent with the voter-approved Plan.² The Program and Plan contain major capital, rather than maintenance or repair, projects.

The RTA has clear authority³ to own and operate "public transportation systems and related transportation facilities and services."⁴ "Public transportation" is defined, however, as "local transportation of passengers by means of a public conveyance, including para-transit."⁵ In other words, the phrase includes transit systems such as bus and light rail; it does not include streets and roads. The RTA's authority to operate and maintain the latter is less clear.

Other than controlled-access highway projects, which must be constructed by ADOT,⁶ the RTA can itself carry out roadway projects included in the Program/Plan, or can contract with local jurisdictions for the construction.⁷ Once constructed, the local jurisdiction within which the improvement is located is "responsible for maintaining the project."⁸ The RTA has no explicit authority to accept a contractual delegation of that maintenance responsibility. On the other hand, it also is not explicitly *prohibited* from doing that, and the statutes do allow monies in the construction account of the Fund to be used for "operation, maintenance ... of ... each element of the regional

1 [§ 48-5307](#). The RTA controls the "regional transportation fund." It includes three separate accounts: the bond account, construction account, and bond proceeds account. [§ 48-5307\(F\)](#). Monies in the fund must be "used and spent only as provided in" the RTA statutes. [§ 48-5307\(E\)](#).

2 [§§ 48-5304\(3\)](#) and [48-5309](#).

4 [§ 48-5304\(1\)](#), (9) and (12).

5 § 48-5301(9).

6 [§ 48-5312\(A\)](#).

7 Compare [§ 48-5312\(B\)](#) ("authority *may* contract with" local jurisdictions (emphasis added)); [§ 48-5304\(3\)\(c\)](#) (improvement program must list, for each project, "the political subdivision with responsibility for project implementation"); [§ 48-5304\(12\)](#) (RTA "shall ... [h]ave sole authority to implement the elements of the regional transportation plan"); [§ 48-5304\(13\)](#) (RTA "shall ... [c]oordinate the implementation of the regional transportation plan among the local jurisdictions"). If the RTA wanted to carry out a road project on a County road, however, it would still need the County's consent.

8 [§ 48-5312\(C\)](#).

transportation plan.”⁹ The current RTA Plan does not include road maintenance,¹⁰ but the Plan could be amended to include maintenance, without voter-approval, if the County agrees to provide the funding, which is what your plan contemplates.¹¹ Though I would of course defer to the RTA counsel’s legal analysis on this issue,¹² in my opinion a court would more likely than not, if asked to decide the issue, conclude that the RTA has legal authority to include roadway–maintenance projects in the Plan and the Program, and carry out those projects on County roadways with the County’s permission and funding.

Delegation of Road Maintenance Program

Even though, as noted, the RTA probably has authority to carry out County road maintenance projects, it would be problematic for the County to try to delegate its entire roadway-maintenance function to the RTA.

The County’s responsibility for County road maintenance is non-delegable in two different senses. First, the Board of Supervisors cannot lawfully abdicate its responsibility to make the legislative/policy decisions that its members were elected to make, which includes deciding how to allocate limited financial resources and prioritize road-maintenance and repair projects. Second, the County would remain legally liable for the condition of its roads, regardless of any attempted delegation of its maintenance responsibilities; at the same time, the delegation would deprive the County of important limitations on that liability.

Delegation of Legislative Authority

A legislative body cannot delegate its discretionary authority to another entity, individual, or body.¹³ Having been elected to make certain political decisions, the members of such a body cannot hand those decisions over to someone else to make. Delegation of administrative/executive authority is, of course, permitted,¹⁴ and—particularly for a board of supervisors, which exercises both legislative and executive authority—it is not always clear which decisions are legislative and which are

9 [§ 48-5308\(C\)](#).

10 According to Pima Association of Government’s website, “RTA funds can only be used in ways prescribed by the voter-approved RTA plan. Currently the 2006 voter-approved plan does not include any pavement preservation or routine maintenance projects.”

11 [§ 48-5309\(B\)](#). Monies provided by the County can be deposited in the construction account of the Fund can also contain monies provided to the RTA by the County. [§ 48-5307\(A\)\(2\)](#).

12 The RTA’s lawyer has been out of town, and has not yet had a chance to finish his analysis, or consult with his client.

13 Such authority can be delegated to subordinate legislative bodies—for example, the State can delegate authority over certain local matters to its political subdivisions—but the RTA is not a subordinate body of the County. *Skinner v. City of Phoenix*, 54 Ariz. 316, 321 (1939) (“we see no reason why [the Legislature] may not delegate this authority, upon such terms as they may think proper, to subordinate legislative bodies, such as boards of supervisors and common councils of municipalities already created.”)

14 “The powers of a county shall be exercised only by the board of supervisors or by agents and officers acting under its authority and authority of law.” [§ 11-201](#).

executive.¹⁵ Budgeting and establishing spending priorities is, however, quintessentially legislative. To the extent that the proposed plan wholly delegates to the RTA—an independent body—the Board’s discretion to determine funding priorities for the County’s road-maintenance-and-repair program, with no specific limitations and standards, I think it goes too far.¹⁶

Liability Issues

Counties owe the public a duty to keep county roads reasonably safe for travel.¹⁷ For purposes of tort liability, this duty is non-delegable.¹⁸ That means that the County remains liable for injuries caused by the condition of its roadways, even if it has put another entity in charge of making decisions about how to maintain them.

Statutes protect public entities, including the County, from liability under certain circumstances. One of those statutes provides that a public entity is not liable for acts or omissions that constitute the “exercise of a ... legislative function,” or the “exercise of an administrative function involving the determination of fundamental governmental policy.”¹⁹ The exercise of a qualifying administrative function “involves the exercise of discretion,” including the “determination of whether to ... provide the resources necessary for ... maintenance of facilities.”²⁰ “Maintenance” is further defined as “the establishment or continuation in existence of facilities, highways, roads, streets, bridges or rights-of-way by a public entity and does not mean or refer to ordinary repair or upkeep.”²¹ Under this statute, a public entity will not be liable for injuries caused by the condition of a roadway if the public entity’s failure to maintain the roadway is a result of applying reasonable criteria to prioritize projects in light of limited financial resources (though the entity will still have a duty to post warning signs if the condition is unreasonably dangerous, and must still provide ordinary upkeep).

In order to be entitled to the statute’s protection, however, the public entity must make an affirmative policy decision; a decision by “default” is not entitled to immunity.²² So, for example, in one case, the Court of Appeals held that the City of Phoenix could not be held liable for failing to install a traffic signal at an intersection, because that failure resulted from the City’s discretionary decision to use a computer program to evaluate specific criteria and rank the need for such signals; having made the discretionary policy decision to use that system, for which the City would be entitled to immunity, the City could not be held liable for following it.²³ It is my understanding that the Pima

15 “The line of demarcation between what is a legitimate granting of power for administrative regulation and an illegitimate delegation of legislative power is often quite dim.” *State v. Marana Plantations, Inc.*, 75 Ariz. 111, 114 (1953) (holding unconstitutional a broad delegation of authority by legislature to the State Board of Health).

16 *Galati v. Lake Havasu City*, 186 Ariz. 131, 134 (App. 1996) (“A decision to fund street construction or improvements is a legislative act.”).

17 *Dunham v. Pima County*, 161 Ariz. 304, 306 (1989); *Martinez v. State*, 177 Ariz. 270, 271 (App. 1993).

18 *Wiggs v. City of Phoenix*, 198 Ariz. 367, 369–70, ¶ 8 (2000).

19 § 12-820.01(A).

20 § 12-820.01(B)(1).

21 § 12-820(4).

22 *Galati v. Lake Havasu City*, 186 Ariz. 131, 136 (App. 1996).

23 *Kohl v. City of Phoenix*, 215 Ariz. 291, 296, ¶ 24 (2007) (“The omission of the Intersection from the final

County Department of Transportation currently takes a similarly systematic approach to prioritizing major maintenance and repair projects, based on specified criteria and standards; if it fails to get to a particular project because it is too far down the priority list, the County cannot be held liable for that failure. But if the County were to instead hand the prioritization of road projects to the RTA, an independent entity, without at least requiring application of specified standards and criteria, the County would lose that immunity.²⁴

Scope of Delegation

Though the County cannot *completely* wash its hands of its road maintenance program, and its allocation of funding for that program, it could still heavily involve the RTA in the planning process. If the RTA is willing to do so, it could author and annually update a proposed road-maintenance-and-repair program for the Board of Supervisors' review and approval, using guidelines and standards provided by the Board. It could obtain public input on the program, and monitor and report on the County's execution of the program and its use of the sales-tax revenue. If desirable, the RTA could even carry out specific projects using County funds, by entering into IGAs with the County, much as the County and RTA currently do, but in reverse. It is only the extremely broad scope of the delegation currently contemplated, without the exercise of any real discretion or oversight by the Board of Supervisors, that is problematic.

Sun-Setting and Use of Tax Revenue

A board of supervisors also cannot limit its own future exercise of legislative discretion. Legislative enactments by a political body can always be revisited and revised by that same body.²⁵ Use of the general county sales tax is not limited by statute.²⁶ Therefore, although the current Board of Supervisors may want to require that the sales-tax revenue be used only for road purposes for the next ten years, it cannot do so directly. Once the tax is levied, and until it sunsets or is repealed, the Board can revise its anticipated use of those funds each time it goes through the budgeting and appropriation process.

That said, however, there may be a way to limit use of the tax revenue indirectly. In addition to the 10-year sunset provision that you suggested, the Board could, when it levies the tax, provide that the tax will sunset earlier if at any time the Board budgets or spends the tax revenue for purposes unrelated to roads. Assuming the authorizing statute hasn't been repealed or materially amended, the Board would still have the discretion to, at that time, levy a new sales tax and spend the resulting revenue for any purpose, but it would have to meet the statutory unanimity requirement. In other words, although the Board cannot limit its future exercise of legislative discretion, it can exercise its discretion now in a conditional manner to levy the tax in a conditional manner only.

list of recommended signalization locations was an automatic product of the City's immune decision to use SIGWAR as an initial screening tool and was thus itself immune under § 12-820.01.”).

24 The RTA would, if it meets the criteria in the statute, be entitled to immunity. But the County would not, if it had not independently exercised the requisite discretion. And, since the duty to keep roads safe is non-delegable, it would not matter that the decision was made by the RTA.

25 *Bd. of Sup'rs of Apache County v. Udall*, 38 Ariz. 497, 509 (1931) (a board of supervisors cannot contractually bind itself to maintain a road indefinitely, because a future board might chose to abandon it; the board cannot “contract away that right” and a contract that purports to do that is void).

26 § 42-6106(C) (“The county shall use these revenues to support and enhance countywide services.”).
