**Subject:** mass notification system - Consent Item #13

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

What is wrong with the existing mass notification system? Did Pima County have one? What is this "mass notification system" for? Please provide the public with additional details for why we need this and what it will be used for.

For future agendas, please make sure you provide better explanations for why taxpayer monies are being spent. Most of the agenda items are pretty vague and do not provide enough information or history for the taxpayers to understand why Pima County is spending taxpayer money.
