PETITION against REZONING P15RZ0001

Thornysdale and Linda Vista

These signatures are from more than 20% of the home owners adjacent to the parcels involved. They are apt to be a majority. In fact I didn't find a resident of the neighborhood who thought that this feature was not literally an accident waiting to happen. I was also surprised to learn that Todd Garelick, the Principal of Mountain View High, directly across the street from the proposed development was unaware of this feature and in fact had not had the courtesy of a consultation, let alone the same chance I have had to critique the design, though, clearly the safety of his students would be involved.

A handwritten signature in black ink, appearing to read "Blou", written in a cursive style.

# PETITION against REZONING P15RZ0001

The proposed development ( P15RZ0001 ) Thornydale & Linda Vista will exacerbate the traffic dangers already existing at this location. The design of the streets in this proposal creates a tempting 'cut-off' from Thornydale to Linda Vista, and this feature, directly across from a busy high school , exactly where a pedestrian has already been killed, should be a HUGE Red Flag to the Zoning Board. This is a serious public safety issue and we urge the board to NOT rezone these parcels because of it. We would urge the board to encourage development that doesn't increase the dangers to school children walking home from school.
