To all Board Supervisors,

I am writing to express my support as a Pima County property owner, represented by Rex Scott, for the Three Cents for Affordable Housing policy. Besides the obvious need for affordable housing to keep Tucson's citizens and families housed and stable, more affordable housing will drive economic growth by attracting businesses to invest in Pima County. Investing in affordable housing will positively affect people today, and generations to come, and ensures Pima County remains a family-friendly community - a win-win for its people and businesses looking to invest. Three cents is a small investment with very big returns for all of us.

It isn't just the right thing to do, it's also the right economic thing to do and I urge all Supervisors to vote "yes" on Three Cents for Affordable Housing.

Sincerely,
Brook Gilliam

I am a Pima County resident and I would like to give my recommendations on voting Tuesday, May 20th at the Pima County Board of Supervisors meeting.

There are many issues, challenges and situations all over the nation but nothing as important as housing. Having the ability to have some place to feel secure, warm, loved and out of the weather elements cannot be emphasized enough. Especially as we head to our summer months which no doubt will be hotter than usual.

Please vote Yes, on May 20th, to raise funds over the next decade for construction and preservation of affordable housing in Pima County; as well as the initiatives to reduce homelessness.

It's a shame that as this political environment is slashing programs, healthcare, attacking the income, Social Security (we paid into this retirement program), the elder adult population is taking a hit and we're finding more seniors on the streets. Please think about the bigger picture of who we are hurting when we take these viable programs away and housing no doubt will affect the integrity and quality of life of so many.

Blessings
