vote NO Don't we collect rent on these properties? Is it too much work for the county? Selling seems like a very bad idea. Is there any past real estate deal you have agreed to that makes the citizens better off? It would be great if you shared the details with the citizens so we could make informed debates. Your track record is not very impressive. If you sale the property then we will have even less control of the 5G towers that put our health and safety at risk. I would love to see more information before you decide to just sale.
