

BOARD OF SUPERVISORS AGENDA ITEM SUMMARY

Requested Board Meeting Date: October 8, 2013

ITEM SUMMARY, JUSTIFICATION and/or SPECIAL CONSIDERATIONS:

Award of Contract No. CT-WW-14000000000000000110 direct selection of Greeley and Hansen, LLC (Corporate Headquarters: Chicago, IL with regional office in Phoenix, AZ), for the Struvite Recovery Facility Alternative Delivery Project. Total cost of this project is expected not to exceed \$298,000.00. Funding Source: RWRD Obligations Administering Department: Regional Wastewater Reclamation Department.

A side stream treatment study performed as part of the ROMP program, recommended implementation of a process that would precipitate out and recover struvite from the treatment process at the Tres Rios Water Reclamation Facility (formerly Ina Road WRF). Implementation of this side stream process will reduce annual operating costs by approximately \$1 million and will allow for the repurposing of existing off line facilities at the Tres Rio WRF. RWRD has decided on a design-build delivery method for this side stream project and is recommending the direct selection of Greeley and Hansen, LLC to assist with development of the procurement documents and assistance during the startup and commissioning of this project. The direct selection of Greeley and Hansen for this project is authorized under Board of Supervisors Policy D29.1 (C) (1) and A.R.S. §34-103.
