> I am vehemently against these elusive vote centers, far away from my voting location of the last 25+ years. This asinine idea will disenfranchise voters! Who came up with this lie that it would be more convenient?  
> LESS voting locations would make it HARDER for folks that live on the Reservation or in the country to participate in voting. You must be desperate to control all power and keep it. That's why Democrats want to reduce voting locations and push e-poll books that are easy to flip and hack! Those who force unwanted technology and severely reduce access to neighborhood voting places are enemies of free speech and anti-Americans, going against our Voting Rights!

Dear Pima County Supervisors,

I urge all of you to reconsider using voting centers instead of precincts and reconsider changing the technology and procedures that are used in voting this close to the 2022 Primary Election and General Election! Reducing voting locations to only 100 voting centers will suppress voter turnout. Electronic Poll Books invite hackers and deceptive activities!

Regards,

Jane Hubbard
