- 2. On July 3, 2018, the Pima County Board of Supervisors adopted rezoning Ordinance No. 2018-21, as recorded in Sequence No. 20181900584, rezoning the approximately 34.13 acres described in rezoning case P16RZ00011 (as shown on the map attached hereto as EXHIBIT A) and memorializing the standard and special conditions.
- 3. On December 16, 2021, the owner of approximately 10.88 acres (parcel number 119-45-013C), applied for a five-year time extension.
- 4. On March 15, 2022, the Pima County Board of Supervisors approved a five-year time extension for the 10.88-acre portion of the rezoning to the CB-1 (BZ)(GZ-1)(TDR-RA) (9.02 acres) and TR (BZ)(GZ-1)(TDR-RA) (1.86 acres) zones subject to original and modified standard and special rezoning conditions.
- 5. Section 4 of Ordinance No. 2018-21 allows the Board of Supervisors to amend the rezoning conditions by resolution.

NOW, THEREFORE, IT IS RESOLVED:

Section 1: The rezoning conditions in Section 2 of Ordinance 2018-21 are restated and modified as follows:

The owner shall:

A. Submit a development plan and subdivision as determined necessary by the appropriate County agencies.

- B. Record the necessary development related covenants as determined appropriate by the various County agencies.
- C. Provide development related assurances as required by the appropriate agencies
- D. Submit a title report (current to within 60 days) evidencing ownership of the property prior to the preparation of the development related covenants and any required dedications.
- 21. There shall be no further lot splitting or subdividing of residential development without the written approval of the Board of Supervisors.
- 32. Transportation conditions:
 - A. Written certification from Arizona Department of Transportation, stating satisfactory compliance with all its requirements shall be submitted to Development Services Department prior to approval of a Site Development Permit or Subdivision Plat <u>Traffic</u> Impact Study.
 - B. The property shall be limited to 5 access points, two serving the commercial site on SR-86, two access points serving the commercial site on Camino de Oeste, and one access point serving the residential site on Camino de Oeste. The number, location and design of access point(s) on Ajo Highway shall be subject to approval by the Arizona Department of Transportation.
 - C. A Traffic Impact Study (TIS) shall be submitted for review and approval by the Department of Transportation. Offsite improvements determined by the TIS shall be provided by the property owner/developer.
- 43. Regional Flood Control District conditions:
 - A. Water conservation measures that provide 15 points per the Preliminary Integrated Water Management Plan methodology in place at the time of development shall be submitted by the applicant with the Site Construction Permit for approval by the Pima County Regional Flood Control District.
 - A. First Flush retention will be distributed throughout the site to supplement landscaping irrigation and to reduce stormwater runoff volumes, instead of being directed and located within a detention basin.
 - B. If the improvements are proposed within the effective FEMA Special Flood Hazard Area, both a CLOMR and LOMR are required. The CLOMR shall be approved by FEMA prior to District approval of the site construction permit. If improvements impact only Zone Shaded X, then only a LOMR will be needed.

 - B. The owner(s) shall obtain written documentation from the Pima County Regional Wastewater Reclamation Department (PCRWRD) that treatment and conveyance capacity is available for any new development within the rezoning area, no more than 90 days before submitting any tentative plat, development plan, preliminary sewer

Should treatment and / or conveyance capacity not be available at that time, the owner(s) shall enter into a written agreement addressing the option of funding, designing and constructing the necessary improvements to Pima County's public sewerage system at his or her sole expense or cooperatively with other affected parties. All such improvements shall be designed and constructed as directed by the PCRWRD.
- C. The owner(s) shall time all new development within the rezoning area to coincide with the availability of treatment and conveyance capacity in the downstream public sewerage system.
- D. The owner(s) shall connect all development within the rezoning area to Pima County's public sewer system at the location and in the manner specified by the PCRWRD in its capacity response letter and as specified by PCRWRD at the time of review of the tentative plat, development plan, preliminary sewer layout, sewer construction plan, or request for building permit.
- E. The owner(s) shall fund, design and construct all off-site and on-site sewers necessary to serve the rezoning area, in the manner specified at the time of review of the tentative plat, development plan, preliminary sewer layout, sewer construction plan or request for building permit.
- F. The owner(s) shall complete the construction of all necessary public and/or private sewerage facilities as required by all applicable agreements with Pima County, and all applicable regulations, including the Clean Water Act and those promulgated by ADEQ, before treatment and conveyance capacity in the downstream public sewerage system will be permanently committed for any new development within the rezoning area.
- 65. Environmental Planning conditions: Upon the effective date of the Ordinance, the owner(s)/developer(s) shall have a continuing responsibility to remove buffelgrass (Pennisetum ciliare) from the property.
