RE: Support of Ordinance No. 2025-32 to Regulate Certain Unpaved County Roads to Maintain Health Standards for Air Quality

Dear Members of the Board of Supervisors:

**Please pass Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County.** I cannot tell you how important this is for the general public's health, our beautiful Santa Ritas that host lots of outdoor activities, the health and well-being of the communities just south of Tucson who will be directly exposed to the harmful effects of heavy commercial truck traffic, our future water supplies, and the overall appeal of our area to its residents and tourists. You should be proactive in helping all of us who live in Pima County and **vote yes**.

We understand that Hudbay Minerals, a Canadian company, is against the ordinance, but of course we all understand why. Hudbay intends to construct open-pit mines just south of Tucson next to the Santa Rita Mountains, along with Mitsubishi's help. Mitsubishi, a Japanese company, recently invested \$600 million for a 30 per cent interest in Hudbay's Copper World to keep this project alive. Apparently, Hudbay was having some financial problems that jeopardized Copper World, so Mitsubishi stepped up, helping to ensure a copper supply for Japan. In any case, Hudbay and Mitsubishi will export all the copper for smelting and refining outside the USA. How cynical of Hudbay and Mitsubishi!

We live in the Catalina Foothills and are not directly affected by Hudbay's open-pit mines, but we understand the impact it will have on all of us, especially the communities south of Tucson and our beautiful Santa Rita Mountains, most likely affecting the air for much of the area because of heavy commercial truck traffic.

Last, my husband and I have given significant financial support to efforts to stop this ill-conceived project because we love the Tucson area. Copper World will again negatively affect all of us around Tucson, our health, our beautiful mountains that host lots of outdoor activities, the communities just south of Tucson and the Tucson area, our water supplies, and the overall appeal of the area to its residents and tourists.

**Please vote yes on Ordinance No. 2025-32!**

Thank you.

Susan Litvak, resident of Pima County and the Catalina Foothills

RE: *Support of Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for Air Quality*

Dear Members of the Board of Supervisors:

I strongly urge you to pass Ordinance No. 2025-32 which would restrict truck traffic on unpaved roads across Pima County. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks. This ordinance would help protect public health, particularly for those living and working near the proposed Copper World mine, and large construction projects in rural areas, where paved roads do not exist.

I thank you for your strong and steadfast opposition to Copper World for nearly two decades culminating in October with the county's fourth resolution opposing open pit mining in the Santa Rita Mountains.

**Please vote YES on Ordinance 2025-32, to protect our air quality.**

Sincerely,  
Lynn M. Harris

Dear Board of Supervisors,

I strongly urge you to pass Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks.

Parts of Pima County are in violation of federal clean air standards and reducing dust from heavy trucks is a major proactive commitment by the board to protect public health.

Toronto-based Hudbay Minerals is vehemently against the ordinance, telling the Arizona Daily Star it would have a "significant impact" on the proposed Copper World mine. Hudbay intends to construct a series of open pit mines that will destroy the northern half of the Santa Rita Mountains to export copper overseas.

Business interests are rallying behind Hudbay and opposing the ordinance with the Arizona Trucking Association sending threatening letters to the county claiming the ordinance could "bankrupt" the county. This is a ridiculous overstatement of the facts.

I strongly support Pima County's steadfast opposition to Copper World for nearly two decades culminating in October with the county's fourth resolution opposing open pit mining in the Santa Rita

Mountains.

Please vote yes on Ordinance No. 2025-32 and save our health from uncontrolled dust pollution caused by heavy trucks and save our mountains and water supplies for future generations.

Thank you,

Bettina Bickel

RE: Support of Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for Air Quality

It is imperative that the county close a loophole that has allowed businesses to operate an unlimited number of heavy trucks across unpaved roads that can negatively impact air quality.

My wife, Deborah, has a severely compromised respiratory system. Degrading our air quality with a constant stream of heavy trucks will be very detrimental to her health. We believe that incidents of Valley Fever in Green Valley and Sahuarita will spike with particulates kicked up by these trucks and spread over a wide area by wind. These trucks will not only lower air quality but the quality of life in our communities.

Thank you,

Jerry G Bryant  
2018 E Winter Hawk Pl  
Green Valley, AZ 85614

Dear Members of the Pima County Board of Supervisors:

I am writing to support Ordinance No. 2025-32. Heavy truck traffic and the resulting increase in particulate matter on rural roads will negatively impact public health and ambient Air Quality in rural areas. Air Quality in rural Pima County is generally in the Good Range now. Degraded Air Quality from heavy truck traffic will harm the health of rural residents. They did not sign up for this.

Heavy truck traffic brings other risks to rural roads. The traffic itself will degrade roadways. Serious accident risks increase with heavy truck traffic. Most rural roads are already narrow. Kids wait for school buses along rural roads. People commute to metro areas on rural roads. Heavy trucks slow things down, and cause serious injuries or death when there is a traffic accident.

Protect public health and safety and adopt Ordinance No. 2025-32.

Sincerely,

Melanie Mizell  
Arizona native

Dear Members of the Board of Supervisors:

I strongly urge you to pass Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks.

Parts of Pima County are in violation of federal clean air standards and reducing dust from heavy trucks is a major proactive commitment by the board to protect public health.

Toronto-based Hudbay Minerals is vehemently against the ordinance, telling the Arizona Daily Star it would have a "significant impact" on the proposed Copper World mine. Hudbay intends to construct a series of open pit mines that will destroy the northern half of the Santa Rita Mountains to export copper overseas.

Business interests are rallying behind Hudbay and opposing the ordinance with the Arizona Trucking Association sending threatening letters to the county claiming the ordinance could "bankrupt" the county. This is a ridiculous overstatement of the facts.

I strongly support Pima County's steadfast opposition to Copper World for nearly two decades culminating in October with the county's fourth resolution opposing open pit mining in the Santa Rita Mountains.

Please vote yes on Ordinance No. 2025-32 and save our health from uncontrolled dust pollution caused by heavy trucks and save our mountains and water supplies for future generations.

Thank you,

Ellen Coleman  
Oro Valley, Arizona

Dear Members of the Board of Supervisors:

Once again I write in support of preserving our irreplaceable Santa Rita Mountains and Watershed by strongly urging you to pass Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks.

Parts of Pima County are in violation of federal clean air standards and reducing dust from heavy trucks is a major proactive commitment by the board to protect public health.

There is substantial mis-information being delivered by Toronto-based Hudbay Minerals whom is vehemently against the ordinance, telling the Arizona Daily Star it would have a "significant impact" on the proposed Copper World mine. Hudbay intends to construct a series of open pit mines that will destroy the northern half of the Santa Rita Mountains to export copper overseas.

Business interests are rallying behind Hudbay and opposing the ordinance with the Arizona Trucking Association sending threatening letters to the county claiming the ordinance could "bankrupt" the county. This is a ridiculous overstatement of the facts.

I strongly support Pima County's steadfast opposition to Copper World for nearly two decades culminating in October with the county's fourth resolution opposing open pit mining in the Santa Rita Mountains.

Please vote yes on Ordinance No. 2025-32 and save our health from uncontrolled dust pollution caused by heavy trucks and save our mountains and water supplies for future generations.

Pay attention! What we have is irreplaceable!  
Thank you,

Kathleen Carleton

RE: Support of Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for Air Quality

Dear Members of the Board of Supervisors:

I strongly urge you to pass Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks. I hike and engage in birdwatching along many of these roads and the increased dust and pollution would definitely be a detriment to me, as well to the surrounding environment.

Parts of Pima County are in violation of federal clean air standards and reducing dust from heavy trucks is a major proactive commitment by the board to protect public health.

Toronto-based Hudbay Minerals is vehemently against the ordinance, telling the Arizona Daily Star it would have a "significant impact" on the proposed Copper World mine. Hudbay intends to construct a series of open pit mines that will destroy the northern half of the Santa Rita Mountains to export copper overseas.

Business interests are rallying behind Hudbay and opposing the ordinance with the Arizona Trucking Association sending threatening letters to the county claiming the ordinance could "bankrupt" the county. This is a ridiculous overstatement of the facts.

I strongly support Pima County's steadfast opposition to Copper World for nearly two decades culminating in October with the county's fourth resolution opposing open pit mining in the Santa Rita Mountains.

Please vote yes on Ordinance No. 2025-32 and save our health from uncontrolled dust pollution caused by heavy trucks and save our mountains and water supplies for future generations.

Thank you,

Sherry Massie

RE: Support of Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for Air Quality

Dear Ms. Manriquez: I strongly support passage of Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for air quality at the Dec. 16, 2025 Board of Supervisors meeting.

It is imperative that the county close a loophole that has allowed businesses to operate an unlimited number of heavy trucks across unpaved roads that can negatively impact air quality.

Heavy trucks generate five to 10 times the amount of airborne dust from unpaved roads compared with passenger cars. This dust can contain dangerous contaminants that can cause lung infections that can lead to serious and fatal disease.

As a lifelong resident of Pima County who was diagnosed with Valley Fever as a child, I know how dangerous unmitigated dust can be in our community. Additionally, I have cared for several dogs who were victims of Valley Fever, and lost one dog from it. It is an expensive and heartbreaking thing for pet owners to go through. We know that this fungus lives in our soil, and we need to do everything we can to keep ourselves and our pets safe.

Reducing the amount of airborne dust caused by heavy trucks traveling across unpaved county roads is a proactive measure Supervisors can take to improve the quality of life throughout Pima County. Please pass Ordinance No. 2025-32.

Thank you,

Jessica Wills

Re: Ordinance No. 2025-32 to regulate certain unpaved county roads to maintain health standards for Air Quality

Dear Members of the Board of Supervisors:

I am in strong support of Ordinance No. 2025-32 that would restrict truck traffic on unpaved roads across Pima County, and I strongly urge you to pass it. This ordinance is crucial to protecting the public's health from dust generated by heavy commercial trucks. Parts of Pima County are in violation of federal clean air standards and reducing dust from heavy trucks is a major proactive commitment by the Board to protect public health.

Toronto-based Hudbay Minerals' proposed Copper World mine would require dozens of heavy trucks moving to and from the mine site every day, generating huge amounts of dust.

I also strongly support Pima County's steadfast opposition to Copper World and other open pit mining proposals in the Santa Rita Mountains since the 1990s, culminating in October with the county's fourth resolution opposing these mining proposals.

Please vote Yes! on Ordinance No. 2025-32 and save our health from uncontrolled dust pollution caused by heavy trucks. Protect our mountains and water supplies for future generations.

Thank you,  
Lainie Levick

Please, please don't let mining companies add more trucks and more sand in the air now! I already have allergies from poor air quality . It's from all the dust we have here. Be caring and supportive to people like me. There are lots of us.  
Sincerely,  
Mary Dooley in Green Valley
