in support of hard-working taxpayers in Pima county, the subject of Chuck Huckleberry's salary has become a concern. Someone in Huckleberry's position is making an extravagant amount of money with over the top benefits. This is an embarrassment! He is making more than the governor of our great state. Please consider pay decrease and/or furlough as many of the county workers have had to endure during an unprecedented time.

Thank you for your consideration.

Good afternoon,
I am disturbed to hear that our county administer is requesting a raise at this dire time in our economy. People are losing their businesses at an alarming rate, sales are down because of the pandemic. Employees are being furloughed and forced to use their own accrued time. If they dont have any time they go without a pay check. Mr Huckleberry is one of the highest paid county administrators in the country he also has many perks that come with his position. I do not believe he deserves a raise in this pandamic climate.
Thank you Jennifer Garcia

Attn: Board of Supervisors;

I want to express my concerns with the proposed continuation of Chuck Huckleberry's contract. While I don't consider removing someone from their job an easy decision, I am of the opinion that it is time to bring in someone new. Regardless of his extremely exaggerated salary, it is time to bring in someone who is much more fiscally responsible. In these truly uncertain economic times, (COVID and the political atmosphere etc) we need someone in the position who better understands and is concerned with the budgets and how and where to spend. Whether he would be willing to take a significant pay cut or not, it really is the perfect time to bring in someone with new and innovative ideas.

Sincerely,
Katherine Anderson
