**Project Title/Description:**

Healthy People Healthy Communities

**Purpose:**

The purpose of this IGA is to leverage multiple public health funding sources to support implementation of health priorities identified in the Arizona Health Implementation Plan (AzHIP) and the Pima County Community Health Improvement Plan (Healthy Pima). This IGA is intended to provide flexibility to the Pima County Health Department to best meet the needs of our local community through high impact strategies that realize agreed upon outcomes. This IGA brings together six existing Pima County programs: Tobacco, Chronic Disease, Health in Arizona Policy Initiative, Public Health Accreditation, Early Childhood Education, and Teen Pregnancy Prevention for the purpose of improved coordination while streamlining the administrative functions for these programs that were previously administered under separate IGAs. This IGA also provides additional funding to expand our teen pregnancy prevention programming. This amendment is to add scope and funding in the amount of \$87,153 for Public Health Accreditation for quarters 2-4 of the current fiscal year.

**Procurement Method:**

N/A

**Program Goals/Predicted Outcomes:**

The Pima County Health Department will implement evidence-based strategies at the local community level that:

1. Promote and implement healthy communities' interventions that target policy, system, and environmental approaches that will shape the communities in which we live.
2. Promote and implement healthy people interventions that target individual behavior and support making healthy choices.

**Public Benefit:**

This IGA offers a variety of evidence-based strategies designed to impact policy, system, and environmental change at the community, organizational, individual, and policy levels in order to promote county-wide health changes so that public health impact will be maximized. The Pima County Health Department will emphasize complementary policy, environmental, programmatic, and infrastructure activities that integrate and build on each other to optimize the health improvements of the community. The Health Department will be accomplishing this by addressing: Commercial Tobacco Use, Chronic Disease Prevention and Control strategies to address the four leading causes of disease related death (cancer, heart disease, pulmonary disease, and Alzheimer's), Procurement of Healthy Foods, Healthy Community Design, School Health, Worksite Wellness, Clinical Care, Children with Special Health Care Needs, Public Health Accreditation, Teen Pregnancy, and Maternal and Child Health.

**Metrics Available to Measure Performance:**

Metrics will be determined for each individual program funded in this IGA through the development of program specific work plans that will be approved by ADHS during the first quarter of funding.
