

MEMORANDUM

Date: April 30, 2021

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: C.H. Huckelberry
County Administrator *[Signature]*

Re: COVID-19 Update for the May 4, 2021 Board of Supervisors Meeting

COVID-19 Infection Rate

As we have discussed on a number of occasions and in the Public Health Advisory, the status of community spread of COVID-19 is related to the seven-day rolling average of new infections. We remain in a moderate status for COVID-19 with a rolling seven-day average of 40.1 cases per 100,000 residents. This seven-day rolling average has been as high as 882 during the week of January 1, 2021 and has substantially moderated in the last six weeks based on compliance with public health advisories, resolutions and proclamations as well as a growing percentage of the population now being vaccinated.

Vaccines Administered to Pima County Residents

Attachment 1 is the standard Pima County COVID-19 Vaccination Report dated April 28, 2021. A total of 789,709 vaccines have been administered to County residents. On April 27, 483,378 Pima County residents have received at least their first dose of the COVID-19 vaccine. I would expect this amount to reach the 500,000 population milestone in the next few days, if it has not already been met.

The Vaccination Report indicates that 46 percent of the population has been vaccinated; however, that is using the denominator of the entire population. If the approximate 199,000 individuals who are below the age of 16 are removed from this denominator, the percentage of vaccine-eligible population that has received at least one vaccine increases to 57 percent. Of additional importance is the fact that we estimate that 334,638 residents have received the full dose or both vaccines have been administered to this population group, which means that approximately 41.9 percent of the population 16 years of age or older are now fully vaccinated. Notably this figure is consistent with the Centers for Disease Control (CDC) most recent estimate of the 18 or older fully vaccinated population of 43 percent.

Such a distinction is more important because the CDC has now recently issued new guidelines associated with individuals who are fully vaccinated regarding the wearing of masks outdoors, gathering in groups and other less restrictive public health compliance measures.

APR 30 2021 09:46:13 AM

Finally, in an effort to continue to provide greater transparency and to make vaccination efforts relevant at the local level, the Health Department and the IT GIS team have developed a vaccine dashboard. This web based tool allows the user to compare vaccination progress and trends at the zip-code, census tract, school district or jurisdiction level. This fully interactive tool was developed in response to a variety of requests from the public, our partners, and the media.

(<https://pimamaps.maps.arcgis.com/apps/dashboards/05c0a87f6f514b3a9220ea7fd25486a4>)

Communication Strategies to Increase the Vaccination Rate to Reach Herd Immunity

Based on present public health guidance from our health professionals, a total of 650,000 individuals need to be fully vaccinated to reach herd immunity. The challenge we now face is to convince those who may be hesitant regarding vaccination to be vaccinated or to remove any of the barriers that may have prevented those who are not vaccinated from being vaccinated.

Our Communications Office staff have been working on a detailed communication plan, primarily focused on these individuals.

On April 9, I shared with you the [draft communications plans](#) to encourage as many people as possible in Pima County to get vaccinated so that we reach community, or herd, immunity. Since then, the Health Department and Communications Office have made significant progress.

Vaccine Encouragement outreach and marketing efforts completed or in progress (all efforts have a Spanish Language component):

Vax After Dark – Health is conducting evening mobile vaccination clinics at areas where there is heavy evening socializing – bars and restaurants. These are promoted heavily on social media and with the hosting business districts.

#Vax Truth Challenge – Health is hosting a social media video campaign encouraging youths between the ages of 16 and 24 to create and post videos to social media with the hashtag [#vaxtruthchallenge](#) that encourage people of the same age to get vaccinated. A panel will judge the videos and award prizes to the winners.

UA Women's Basketball PSAs – Dr. Cullen, the University of Arizona Athletics Department's team physician, Dr. Stephen Paul, Coach Adia Barnes and three members of the National Runner Up UA women's basketball team made three vaccine encouragement PSAs in English and one in Spanish. These PSAs are running on local broadcast and cable TV as well as County social media.

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **COVID-19 Update for the May 4, 2021 Board of Supervisors Meeting**
April 30, 2021
Page 3

Don't Miss Your Shot Myths vs. Facts Social Media Campaign – Numerous daily posts to social media dispelling myths about the COVID-19 vaccines.

Mobile Clinic Social Media Marketing – vigorous promotion across multiple social media channels promoting all County mobile vaccination clinics.

Mobile Clinic Neighborhood Door Hangers – To encourage people who live in proximity to mobile clinics, the Health Department has engaged community partners to walk neighborhoods and nearby business districts to distribute Knock Out Covid door hangers that promote the clinic with date, time and location.

FEMA Mobile Clinics Direct Mail Campaign – To increase neighborhood awareness, all addresses within 2 miles of FEMA Mobile Clinics – residential and commercial - will receive card stock, full color flyers in the mail promoting the three-day clinics.

Vaccination Hesitancy Survey – To ensure we understand the reasons for why some people have yet to get vaccinated, Communications has contracted with Nupoint Marketing to conduct a statistically valid survey of the metro area. Results should be available by the middle to end of May.

Vaccine Encouragement marketing initiatives under development (all efforts have a Spanish Language component):

Elected Leaders PSA – English – Board Chair Sharon Bronson, Tucson Mayor Regina Romero, South Tucson Mayor Bob Teso, Oro Valley Mayor Joe Winfield, Marana Mayor Ed Honea, and Sahuarita Mayor Tom Murphy are participating in a vaccination encouragement PSA to run on broadcast and cable TV as well as the social media accounts of all the jurisdictions.

Elected Leaders PSA – Spanish – We will be inviting Supervisor Adelita Grijalva, Mayor Romero, Mayor Teso, and Tohono O'odham Council Chairman Ned Norris and Pascua Yaqui Council Chairman Peter Yucupicio to participate in a Spanish vaccination encouragement PSA to run on Spanish Language TV, radio and all the jurisdictions' social media accounts.

Community Leaders PSA – English and Spanish – the Health Department and Communications are recruiting community leaders who are not in government to participate in vaccine encouragement PSAs that will run on broadcast and cable TV, radio and numerous community social media channels.

Radio Station Remote Broadcasts at FEMA Mobile Clinics – To promote the FEMA clinics, we are soliciting local radio stations of all genres to do remote broadcasts during the hours of the clinic encouraging community members to come get vaccinated. All stations are working on their own promotions as value added, including giveaways and other rewards and incentives.

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **COVID-19 Update for the May 4, 2021 Board of Supervisors Meeting**
April 30, 2021
Page 4

Business Community Outreach – Business leaders and organizations (chambers, trade associations, business districts, etc.) are being encouraged to assist the vaccination effort in multiple ways, including encouraging employee vaccinations, incentives for patrons and clients, and mobile vaccination clinics for business organization member employees and their families.

Faith Community Outreach – Numerous members of the faith community are already engaged in the vaccination effort through their hosting of mobile clinics and encouragement messages to their congregations. Health, Community and Workforce Development, and Communications, are soliciting more members to participate in the encouragement effort in a variety of ways. The Catholic Diocese has agreed to numerous clinics and encouragement activities. May 3, Dr. Perez will record a question-and-answer session in Spanish and the video will be shared with congregations across the faith based community to address concerns voiced specifically by the Spanish-speaking faith community.

Schools Outreach/Graduation – Health has been conducting shot clinics at high schools the past few weeks and Health and Communications are working with high schools on a “Vaccinate. Graduate. Celebrate.” encouragement program to aid schools planning graduation celebrations, including Grad Nights.

Youth Sports League Outreach – We are contacting sports leagues and soliciting their assistance in encouraging member families to get vaccinated, including hosting mobile clinics.

Sports and Entertainment Event Outreach – The Health Department is working with sports teams, tournament organizers and other groups seeking to host sporting and entertainment events to encourage vaccination clinics at their events and increased attendance for vaccinated spectators.

Gen Z Social Media Campaign – In addition to the #Vax Truth Challenge, Communications will place engaging vaccination encouragement ads, including possibly the winners of the Challenge, on social media heavily used by people under age 30, including Tik Tok.

Don'tMissYourShot.org – Communications and IT are building a mobile-friendly website that will serve as the home for all of the encouragement messages, incentives and marketing.

Federal Emergency Management Agency (FEMA) Point of Distribution (POD)

As you will recall, there was quite an exchange between the State and FEMA regarding terms agreeable to both parties to establish a Type 1 FEMA POD. Ultimately, this action failed. However, the County pivoted to an alternative federal POD strategy, that bringing in multiple Type 5 mobile vaccination PODs capable of delivering between 250 and 350 vaccines per day.

FEMA has agreed to provide two mobile PODS. These PODs will begin vaccinating individuals in Pima County on May 3, 2021. This mobile PODs will be at a specific location for three days and then move to another location. The first location will be the Pima Community College West Campus and the Desert Vista Campus followed by Desert Diamond Casino and Casino del Sol. Below is a list of tentative locations and dates for the mobile PODs for the duration of their assignment in Pima County.

Site Location	Address	Start Date	End Date
Pima Community College West	2202 W Anklam Rd, Tucson, AZ 85709	5/3/2021	5/5/2021
Pima Community College South	5901 S Calle Santa Cruz, Tucson, AZ 85709	5/3/2021	5/5/2021
Casino Del Sol	5655 W Valencia Rd, Tucson, AZ 85757	5/7/2021	5/9/2021
Desert Diamond Casino	7350 S Nogales Hwy, Tucson, AZ 85756	5/7/2021	5/9/2021
Greyhound Park	2601 S 3rd Ave, Tucson, AZ 85713	5/11/2021	5/13/2021
Wheeler Taft Library	7800 N Schisler Dr, Tucson, AZ 85743	5/11/2021	5/13/2021
Rillito Race Track	4502 N 1st Ave, Tucson, AZ 85718	5/15/2021	5/17/2021
Curtis Park	2110 W Curtis Rd, Tucson, AZ 85705	5/15/2021	5/17/2021
Pima Community College East	8181 E Irvington Rd, Tucson, AZ 85709	5/19/2021	5/21/2021
TBD		5/19/2021	5/21/2021
Pima Community College West	2202 W Anklam Rd, Tucson, AZ 85709	5/31/2021	6/2/2021
Pima Community College South	5901 S Calle Santa Cruz, Tucson, AZ 85709	5/31/2021	6/2/2021

Other locations for these federal PODs will also be scheduled for four weeks in June.

The primary target of these mobile PODs is the same disadvantaged communities that we have identified in our initial request or a Type 1 POD. Attachment 2 is a map showing Pima County’s social vulnerability index by census tract as well as the percent vaccinated by census tract. These two factors are the guiding principles associated with the location of FEMA’s mobile PODs as well as the communication strategy to advise residents within two miles of a POD of its availability and the ease at which they can be vaccinated if so desired.

Additional Complementary Pop-up Vaccination Events

In parallel with the FEMA PODs, the Health Department team will continue to coordinate a variety of community and neighborhood level vaccination opportunities throughout Pima County and in collaboration with a variety of partners and contractors. A summary of the events is detailed in the table below.

Location	Date	Time	Address
Tucson Mall	Monday, May 3	10a - 5p	4500 N. Oracle Rd. Tucson, AZ
Vida Nueva Church	Thursday, May 6	3p - 6p	330 W. Nebraska Street, Tucson, AZ
Antigone’s Book Store	Thursday, May 6	5p - 8p	411 N. 4 th Ave. Tucson, AZ
Southside Presbyterian Church (pending)	Friday, May 7	7a – 10a	317 W. 23 rd Street Tucson, AZ
Fox Theater	Friday, May 7	4p - 8p	17 W. Congress Street Tucson, AZ
Sunnyside High School	Saturday, May 8	8a - 2p	1725 E. Bilby Rd. Tucson, AZ
Chinese Cultural Center	Saturday, May 8	2p -6p	1288 N. River Road, Tucson, AZ
Tanque Verde Swap Meet	Saturday, May 8	5p - 9p	4100 S. Palo Verde Rd., Tucson, AZ
Amphi High School	Sunday, May 9	1p – 5p	127 W. Yavapai Rd., Tucson, AZ

County Public Health Resolutions

As we have advised the Board, the State Legislature passed, and the Governor signed into law, a piece of legislation directed toward mask mandates of public health and local authorities. As I have indicated, this law does not go into effect until 90 days after the end of the Legislative Session. The Session is still active; therefore, it is likely that the effective date of this legislation will extend into late Summer or early Fall. Hopefully, long after the COVID-19 pandemic has subsided to the point where these public health measures are no longer necessary.

I also asked the County Attorney a series of questions regarding the applicability of this law to County public health measures. The Board has been provided a Confidential Attorney/Client communication on this subject. The County Attorney has opined that this law has little effect on the County and is largely symbolic.

The need for continued robust mitigation strategies is highlighted by our most recent analysis of case investigation and contact tracing data. We continue to note a concerning trend among individuals infected with COVID-19 of visiting a bar or restaurant, attending a gathering of 10 or more individuals, and travel. (Attachment 3 –Trend data from case investigation/contact tracing efforts) Especially as our vaccination efforts are making so much progress, it is critical that we not lose ground.

Enforcement the Board's Mask Resolution

On March 25, 2021, the Governor's Executive Order 2021-05 and 2021-06 effectively invalidated the procedures put into effect to enforce the Board of Supervisors proclamation of December 4, "Related to the COVID-19 Outbreak, Continuing Measures for Reopening of Certain Businesses and Activities and Revising Enforcement for Violations of those Measures". However, it is our contention that Resolution 2020-96, as adopted by the Board on that same day, relies on a separate authority and continues to be legal and in effect.

Since March 26, 2021 the Health Department has received 300 actionable complaints for permitted (facilities that have been granted a food or pool permit by the Health Department) and non-permitted facilities. All operators were contacted (by telephone, email and/or registered mail), advised of the reported non-compliance with Resolution 2020-96, and reminded of the provisions of the County's Mask Resolution. Complaints received within 48 hours of each other are treated as a single complaint for the purposes of enforcement action.

Subsequent complaints were received for 22 establishments and these resulted in an onsite visit, education, and inspection. Six were noted to be out of compliance. Health Department inspection reports were generated and provided as feedback to the operator. One of the 6 facilities observed to be out of compliance denied entry to the inspector. In this case, follow-

The Honorable Chair and Members, Pima County Board of Supervisors
Re: **COVID-19 Update for the May 4, 2021 Board of Supervisors Meeting**
April 30, 2021
Page 8

up inspection will occur and if entry is still denied Pima County, we would seek to revoke the operating permit based on “willfully obstructing or failing to cooperate with an inspection” PCC 8.08.060D. (Attachment 4 - Reports for 6 out of compliance facilities.)

Typically, an announced follow-up occurs in a short time frame. If the operator fails again, the results of the inspection are again shared with the operator. The findings and documentation is subsequently reviewed internally with the County Attorney’s office and if appropriate a Notice of Violation is issued to the operator. (Attachment 5 – Sample Notice of Violation and Demand for Compliance.)

Previously the Board has communicated the need to be informed when legal action is being contemplated of the County’s enforcement of the Mask Resolution. This memorandum constitutes our notice that, absent alternative direction from the Board, such action will be considered should the 6 operators continue be in substantial violation of your resolution.

Pima County COVID-19 Vaccination Report

April 28, 2021

Total doses administered to Pima County residents: 789,709

As of April 27, 2021, a total of 483,378 (46.27%) Pima County residents have received their first dose of a COVID-19 vaccine. A total of 450,430 residents were vaccinated by a local provider in Pima County ("inside"), 32,495 residents were vaccinated by a provider outside of the county ("outside"), and for 453 residents, provider location was unknown. Note, dates that don't appear in graphs had zero vaccinations.

Additional Inspection Results
 COVID-19 Pima Resolution 2020-96
 Educational Material Provided

Additional Inspection Results: Photos Taken for File; COVID-19 Pima Resolution 2020-96: Out of compliance - This establishment may be subject to enforcement outlined under Section 5 of Resolution 2020-96; Educational Material Provided: COVID-19 Guidance and Info handouts provided, including information regarding Resolution 2020-96.

Closing Comments:

Educate staff and remind customers that masks are required when not eating or drinking.
 Resolution: The Pima County Health Department has received more than one complaint regarding the requirement of face coverings in all public places at your establishment per Resolution 2020-96. An onsite assessment has validated this complaint. Further noncompliance may result in enforcement action per section 5 of Resolution 2020-96. An unannounced follow up inspection will occur.
 Resolution: During an onsite investigation for a face covering complaint by the public at your facility, it was noted that there is no enforcement of face coverings. Under Section 3 of Resolution 2020-96, "establishments that are open to the public and in which continuous physical distancing of at least six feet between persons cannot be easily maintained must refuse to allow a person who is not exempt under Section 2 and who is not wearing a face covering to enter the establishment and must request that a person inside the establishment leave if the person is not exempt under Section 2 and is not wearing a face covering."
 Resolution assessment with routine/complaint investigation: The Pima County Health Department has a mandatory face mask requirement per Resolution 2020-96. Establishments must provide face coverings to their employees and require them to wear them when they are working with members of the public or cannot maintain 6ft distance from other employees. An onsite visit has been conducted to educate and inform the facility of the County's face mask mandate. If complaints are received, a follow up will occur.

Establishments must provide face coverings to their employees and require them to wear them when they are working with members of the public or cannot maintain 6ft distance from other employees. An onsite visit has been conducted to educate and inform the facility of the County's face mask mandate. If additional complaints are received, a follow up will occur. Further noncompliance may result in enforcement action per section 5 of Resolution 2020-96 including a civil infraction that carries a penalty of \$500 and a Notice of Violation.

Spoke with PIC Greg, I let him know that further onsite inspections may occur if additional complaints are received and that may include a fine. Left paper copy of Resolution 2020-96 with Person in Charge. Will email report to Greg.

Inspection has a rating of "Educational".

Closing Comments:

EHS1: Paul Bristol
 EHS2: Brenda Katterman
 Owner: unknown male

EHS1 and EHS2 arrived at facility around 1220 hours. Before entering the facility, an unknown male wearing an army green t-shirt with the words BELLMAWR FOR EVERYBODY (see photo) greeted us at the door. Unknown (unk) male asked EHS1 and EHS2 if they were with the Pima County Health Department (PCHD), and EHS1 replied "Yes". Unk male then stated that if regulatory authorities were not at facility for a standard routine inspection they needed to leave. EHS1 asked unk male if he was an employee, to which he replied "no", then he stated he was one of the owners. EHS1 informed owner that onsite visit was not for a routine inspection and was, instead, for a mask complaint. Owner then told EHS1 & EHS2 to leave because he was tired of those games, referring to mask complaints. As owner was talking, a woman entered the facility without a mask and another inside could be seen without one. Owner himself was not wearing a mask when he answered the door. Owner went on that he will only allow entry if it was for a routine inspection, nothing else. EHS1 asked for his name, but he declined. Then EHS1 asked if he could provide owner a copy of 2020-96 resolution, and owner claimed he had a copy and was fully aware of what it says. Owner stated people at the facility were not required to wear mask/face covering because they were at least six feet apart, and then owner shut the door. EHS1 and EHS2 promptly left the front of the facility and went by county vehicles to chat, but couple minutes after, the owner confronted EHS 1 & 2. Owner expressed his frustration for about 10-15 minutes at the parking lot, but he made it clear that entry will only be allowed for routine inspection. EHS2 informed owner that PCHD is enforcing masks and that legal topic(s) was not something she could discuss, but owner is more than welcome to contact the County and/or the State. In addition, EHS2 informed owner that if PCHD receives further complaints from the public, a representative of PCHD will do a follow-up. And if facility continuously refuses to adhere to the mask mandate or fails to take corrective action(s), facility's permit may be revoked. Owner said it did not matter because he would still operate without a permit. EHS1 & EHS2 told owner they would end their conversation since the issue at hand was not being addressed, and told owner to have a good day. EHS1 and EHS2 left area around 1240 hours.

Pima County Resolution

1st onsite visit - complaint

As Governed by Pima County Code 8.08 3950 S. Country Club Rd, Ste 2301 Tucson AZ 85714 Phone 520-724-7908, Fax 520-724-9597		Permit Number 3180768	Date 04/23/2021
Establishment VIVA COFFEE HOUSE	Address 9136 E VALENCIA RD TUCSON AZ 85747		

EHS1 and EHS2 were not able to go over the NOIR nor allowed entry. Although owner was confrontational, he maintained at least six feet from EHS1 & 2.

REMINDER: If the Pima County Health Department receives further complaint(s) regarding the requirement of face coverings in all public places at your establishment per Resolution 2020-96, an unannounced follow-up will occur. And if the onsite assessment has validated this complaint. Further noncompliance may result in enforcement action per section 5 of Resolution 2020-96, which may including a civil infraction that carries a penalty of \$500 and a Notice of Violation. An unannounced follow up inspection will occur.

COVID-19 Pima Resolution 2020-96: Out of compliance - This establishment may be subject to enforcement outlined under Section 5 of Resolution 2020-96; Educational Material Provided: COVID-19 Guidance and Info handouts provided, including information regarding Resolution 2020-96.

Closing Comments:

Resolution: During an onsite investigation for a face covering complaint by the public at your facility, it was noted that there is no enforcement of face coverings. Under Section 3 of Resolution 2020-96, "establishments that are open to the public and in which continuous physical distancing of at least six feet between persons cannot be easily maintained must refuse to allow a person who is not exempt under Section 2 and who is not wearing a face covering to enter the establishment and must request that a person inside the establishment leave if the person is not exempt under Section 2 and is not wearing a face covering."

Resolution: The Pima County Health Department has received more than one complaint regarding the requirement of face coverings in all public places at your establishment per Resolution 2020-96. An onsite assessment has validated this complaint. Further noncompliance may result in enforcement action per section 5 of Resolution 2020-96. An unannounced follow up inspection will occur.

NOTICE OF VIOLATION AND DEMAND FOR COMPLIANCE

[DATE: (MM/DD/YYYY)]

To: [NAME OF LEGAL ENTITY (may be different from establishment name)]

The Pima County Health Director has reasonable cause to believe that [ESTABLISHMENT NAME], located at [ESTABLISHMENT ADDRESS], has violated a public health order pursuant to Arizona Revised Statutes (A.R.S.) § 36-183.04, namely:

Noncompliance with face covering requirements of Pima County Board of Supervisors Resolution 2020-96

Upon receipt of this Notice, [ESTABLISHMENT NAME] is required to comply within 3 days (see table of required actions, attached as Exhibit 1).

IF YOU FAIL TO COMPLY, THE DIRECTOR MAY ISSUE A COMPLIANCE ORDER ASSESSING A CIVIL PENALTY OF \$500 PER INFRACTION.

You have the right to request a hearing under A.R.S. §36-183.04. You must request a hearing within 15 days from the date you receive this Notice by contacting the representative named below.

The Pima County Health Department wants you to succeed in addressing the violation and is prepared to place a variety of resources at your disposal including assistance with testing, disinfection processes, coordination of care, case investigation and tracing. Please let us know how to best partner with you as we simultaneously perform our statutorily defined responsibilities to protect the public's health.

[NAME], Pima County Health Department
