Rex Scott, Chairman and District 1 Supervisor
Pima County Board of Supervisors
33 North Stone Avenue, 11th Floor
Tucson, AZ 85701-1207

RE: Agenda item no. 13, ORDINANCE NO. 2025 - 32, creating a new Section 10.37
Unpaved County Roads, to regulate certain unpaved county roads to maintain health
standards for Air Quality.

Dear Chair Scott and Members of the Board:

Founded in 1998, the Coalition for Sonoran Desert Protection is an alliance of 28
regional and national organizations that work together for the long-term conservation of
Southern Arizona's Sonoran Desert.

We appreciate the opportunity to comment on Ordinance No. 2025-32 and we support
the intent of this ordinance to address the real environmental and community impacts
associated with intensive industrial use of unpaved county roads.

CSDP stands in solidarity with our coalition member Save the Scenic Santa Ritas and
appreciates their leadership and analysis on this issue. But **while public discourse has
focused on the Santa Rita Mountains area and the potential for impact to any future
and approved Hudbay mining project, we want to be clear that this ordinance has
countywide relevance.**

The issues it seeks to address — air quality degradation and negative impacts to
sensitive landscapes, wildlife, and water sources — are issues we may face across Pima
County if the industrial use (including, but not limited to, that of extractive industries) of
unpaved county roads is not adequately monitored and controlled for.

This ordinance will provide important future protections wherever unpaved county
roads face high-intensity use. From an environmental perspective, we emphasize that:

- Preventative dust control measures, as part of a comprehensive approach to
protecting air quality, vegetation, wildlife, and nearby communities, are
welcome. However, **preventative dust control measures are not a strong
enough substitute for the ordinance itself.** In other words, dust mitigation
measures — such as spraying roadways — cannot be used as a loophole to avoid
limits intended to broadly protect the community and natural resources.

12-16-25
EM

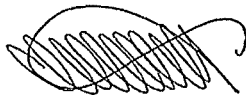

- We do *not* support an ordinance that relies primarily on speed limits as a mitigation strategy. Speed limits are highly unlikely to be enforced, and dust, noise, and other disturbances will not be addressed. **We support speed limit reductions as *part of a proposed ordinance*, but urge Pima County not to overly rely on them.**

We note that similar measures are used elsewhere, including in Arizona. Pinal County's Construction Fugitive Dust Rules, for example, impose limits on truck traffic on unpaved roads to 20 per day where other controls aren't, won't, or can't be met. And the City of Phoenix requires haul permits for specific projects that will result in heavy truck traffic; see City Code Sec. 36-88.07.

CSDP respectfully asks the Board to adopt an ordinance that provides meaningful, countywide protection for Pima County's environment, natural resources, and rural communities.

Thank you for your consideration.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kate Hotten', with a stylized flourish at the end.

Kate Hotten
