Board of Supervisors;

I am a voter and write to oppose Mr. Moran's appointment to the vacant JP position. I live in South Tucson and we are struggling with the mess he left us when he unfortunately served as our city attorney. He approved an illegal secondary property tax that may bankrupt the city by a lawsuit we are about to face. He approved the Waste Management contract that any competent attorney would have seen was one sided in favor of Waste Management. We are now in debt over \$300,000 on this obligation and they recently picked up our trash cans. Finally he was expected to honestly work for us but figured a way to keep his \$90,000 plus salary we paid him and bring in a criminal prosecutor without city permission that ended up costing us thousands above his salary. This person does not deserve to be rewarded with a government job after what he did to us.

Sincerely

Raul Green
