Supervisors,

We do not want the county peppered with cell phone towers. I see from the agenda documentation that this appears to be all about money. Your constituents want you to be looking out for their safety when it comes to radiofrequency health. You plan on putting many of these towers up in residential areas. Have you considered the real world ramifications of declining health health of your constituents or their privacy and property values?

Vote NO on agenda items 37 and 52!

Thank you, Terra Radliff
