As a member of the local scientific community (Councilor for the Southern Arizona Section of the American Chemical Society, Interim Chair of the Rocky Mountain Region Board of ACS), I believe there are serious environmental concerns regarding the impact of this project as well as questions as to whether this project synchronizes with our need to reduce climate change impacts into the future.

Dear Pima County Board of Supervisors,

I support the resolution that opposes the West Option for I-11 through Avra Valley and encourage you to vote YES on this resolution at your upcoming meeting.

I have spent many hours on Gates Pass watching the sunsets, roaming the more remote stretches of Mile Wide Road, and hiking trails in Saguaro West National Park and the northwest areas beyond Picture Rocks and in the Ironwood Forest National Monument. I treasure the seeming remoteness of these areas, if only by virtue of the raw experience and quietude that they can usually offer while being not too distant from Tucson proper.

I dread the possibility of an Interstate highway being built in and through such an area, bringing along the noise and pollution that are antithetical to the area as it is now.

There are clearly better options if the I-11 project is determined to move forward, especially I think, using the current I-10 corridor.

Thanks for your consideration.
