***Title:**

Memorandum of Understanding with U.S. Fish and Wildlife Service for the Santa Cruz River Wildlife Partnership

***Introduction/Background:**

Pima County has a long history of conservation and restoration along the Santa Cruz River. Recent activities include a development of a management strategy for the river by the Regional Flood Control District, participation in the Living River and Living River of Words projects, conservation activities for sensitive and endangered species, and support for creation of an urban wildlife refuge. Since 2014, Pima County has been discharging highly treated wastewater into the Santa Cruz River, which promoted aquifer recharge and improved water quality. Local leaders, alongside restoration volunteers, have created over 17 miles of vibrant habitat that has been foundational to the recovery of native species and habitat. Collaborations between governments, academics, non-profits and volunteers have helped establish the importance of the river corridor for wildlife and connectivity to the surrounding Sky Island mountain ranges.

***Discussion:**

This MOU is a formal step that will promote a regional partnership developed around the Santa Cruz River and could result in future resources from the Federal government toward river restoration and protection. This MOU is intended to pair with MOUs signed by Santa Cruz County and the City of Tucson.

***Conclusion:**

Participation in the Santa Cruz River Wildlife Partnership supports the continuation and formalization of a partnership to promote conservation of wildlife and cultural resources along to the Santa Cruz River and provide continued and enhanced public participation in educational and stewardship activities along the river.

***Recommendation:**

Board of Supervisors approve entering into the MOU with USFWS.

***Fiscal Impact:**

No financial commitment is associated with this MOU.

MEMORANDUM OF UNDERSTANDING
BETWEEN
U.S. FISH AND WILDLIFE SERVICE, SOUTHWEST REGION,
PIMA COUNTY
AND
PIMA COUNTY REGIONAL FLOOD CONTROL DISTRICT

I. Purpose & Scope

The purpose of this Memorandum of Understanding (MOU) is to the cooperation between the U.S. Fish and Wildlife Service-Southwest Region (Service / FWS), Pima County, and the Pima County Regional Flood Control District (RFCD), hereinafter referred to as "the Parties", to benefit mutual goals of the Santa Cruz River Wildlife Partnership. The Parties agree to work cooperatively to achieve the following objectives: to provide environmental education to foster stewardship of natural, cultural, and wildlife resources; to jointly plan and implement mutually beneficial educational/outreach programs; to design and develop wildlife habitat and conduct activities consistent with each of the Parties missions and goals; and to explore opportunities that enhance the continued operations and maintenance of the Santa Cruz River Wildlife Partnership.

This MOU is entered into in accordance with the following provisions and any incorporated modifications.

The Service recognizes the advantages of cooperating with the Pima County and RFCD in accomplishing community service projects, and at the same time, working with youth, identifying project opportunities, and providing space to inform, and be informed by, the public about the principles and practices of wildlife and resource management and conservation.

The importance of engaging communities in the conservation needs of the nation, to gain an appreciation for natural resources through instilling a land ethic, and to recruit a culturally diverse conservation workforce which reflects the nation's communities, cannot be understated. Working in collaboration with the Pima County, RFCD, and other conservation organizations, this MOU will serve to develop and implement an inclusive and cohesive environmental awareness and education program by bringing our message to where urban youth live.
