**Subject:** Arizona is watching

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

The state of emergency is over! The mandates have been lifted! There is no need to increase the Health Dept. budget OR turn it into a policing, privacy invading, freedom hindering agency. Do not approve the measures before you based on what? Bill Gates saying there will be another pandemic? The man who has made a fortune on "vaccines" patents? The man with no scientific or medical training? Big Parma's bribes? The totally compromised FDA and CDC? Please think before you act. All of Arizona is watching you to do the right thing for your people.

**Hello, I am writing to address Board Addendum item 4: "Health Department Funding"**

Directing the County Administrator and County staff to allocate an additional \$6 million in General Fund revenues to the FY23 Budget for the Pima County Health Department, with an eye toward additional increases in the Department's base funding in future years.

As you know, **the State's COVID emergency order was lifted on March 30th.** No emergency exists. Why is the Health Department trying to pad its budget when there is no more emergency? Do they think they have the same powers as the state legislature and Governor and can just keep milking the Pima County Board for more and more taxpayer funds? There is no justification for an additional \$6 million at this time.

Please vote NO to any emergency funds at this time!

Sincerely,

--  
*Samantha Paez*

**Subject:** No more emergency Vaccination/booster funding

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

There is no longer a state of emergency in Arizona. Therefore, there is no need to spend the hard earned and especially precious dollars of your taxpayers on vaccines and boosters that have been approved only under emergency use. Continuing to push the use of emergency only approved medicines at this point would seem to open the state to future liabilities.

Please vote no.

Thank you.  
Pam Cook

There is no more emergency in our state and therefore no reason to vote to spend more money under this reasoning.

Please return to line item budgeting so taxpayers can see where their hard earned and especially precious dollars are going.

"Future needs" does not qualify as transparency in my opinion.

Thank you

Pam Cook

**Regarding: BOS meeting 4/5/22 Addendum item 4:  
"Health Department Funding"**

Dear Supervisors Rex Scott, Matt Heinz, Sharon Bronson, Steve Christy, Adelita Grijalva and Clerk  
Of the Board Pima County:

**Pima County BOS addendum 4 Health Department Funding**

**Discussion/Direction/Action:** Directing the County Administrator and County staff to allocate an additional \$6 million in General Fund revenues to the FY23 Budget for the Pima County Health Department, with an eye toward additional increases in the Department's base funding in future years. As the Health Department leads us out of the pandemic and toward greater community health and wellbeing, we must ensure it has the dedicated personnel and other resources needed to accomplish its long-term goals. (District 2)

On March 30 the State's Covid Emergency order was Lifted. No emergency exists. Why is the Health Department trying to pad its budget when there is no more emergency? Do they think they have the same powers as the state legislature and Governor and can just keep milking the Pima County Board for more and more taxpayer funds?

APR 04 22 AM 08:23 PC CLK OF BD  
ef

Simply asked why is the Pima County Board Of Supervisors and the health department requesting in addendum 4 the following: "Directing the County Administrator and County staff to allocate an additional \$6 million in General Fund revenues to the FY23 Budget for the Pima County Health Department, with an eye toward additional increases in the Department's base funding in future years. "

- There is no justification for an *additional* \$6 million at this time.
- The Board majority are being led by unelected bureaucrats who want to pad their budgets for vague "long term goals." Today's Board has NO AUTHORITY to spend money for tomorrow's "long term goals" because it NO LONGER HAS EMERGENCY POWERS. Today--there is no emergency!
- Where are the line item budget justifications for this extravagant request for an additional \$6 million? We urge the Board to demand transparency and vote NO to any new emergency funds now that the emergency order is lifted.

This allocation of these funds needs to be stopped immediately by the board of supervisors.

**CAUTION:** This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Pima County Board Supervisors,

The State COVID Emergency order has been lifted. There is no longer a COVID emergency. Why is the Health Dept attempting to pad its budget for \$6 million when the emergency has ended?

The Board has NO AUTHORITY to spend money for vague, future long term goals because it NO LONGER HAS EMERGENCY POWERS. Where are the line item budget justifications for this extravagant request for an additional \$6 million?

You must vote NO to this outrageous and unjustified request!!

I am Sharon Fickes, resident of Pima County, contact [REDACTED]  
Following are my Agenda Comments on the BOS Meeting of 4-5-22

**Addendum 1 Item 4 Health Department Funding**

An Additional \$6 million in General Fund revenues to the Pima County Health Department should wait for full review during the budget meetings coming soon. Increasing base funding based on the complex and misleading information that came out of the Pima County Health Department with all the mandates for masks and closures should be considered before allocating additional funds. Vote NO
