Re: Archived Audio and Video of Board of Supervisors Meetings Available Online

Transparency in local government is more important than ever. Citizens want to learn about the decisions and actions the Board of Supervisors take each week that affect their lives and see how their tax dollars are being spent.

In an effort to further increase transparency, accountability, and public trust in Pima County government, I would like to discuss and take action that would give citizens online access to archived audio and video of Board of Supervisors meetings.

Taxpayers deserve it, and people who are unable to attend a weekday meeting, are not Cox Communications or Comcast customers, or prefer to watch online, deserve another choice.

Please place the following item on the Addendum for the Board of Supervisors meeting of October 1, 2013:
