BOS as evidenced by information coming to light you must not be supervising the county supervisor. Who does? I think this incident is only the tip of Pima county iceberg of problems and issues. As a voting resident of Pima Co. since August 1983 I feel that not only is an independent investigation into this matter called for but also I am sure self examination of our county policies, protocol's, and employee performance is long overdue!

From experience I can tell you that the political process is not working because of quality of persons presented for election.

Please set aside the political party nonsense and do what you have been charged with, work in the best interests of our citizens and not yourselves.

Lawrence A. Schultz

Concerned citizen fed up with good old boy politics

Dear Supervisor Adelita Grijalva:

Please read my comments into the official record.

An investigation into Mr. Huckleberry's retirement and the appointment of Jan Leshar needs to be performed immediately.

Sincerely,

Patricia A. Moser

Subject: Items on Tuesday's Agenda

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Greetings BOS (Board of Supervisors) Thank you for your service to our community Please address my concerns regarding some items in your Tuesday agenda.

Please start a transparent investigation regarding Chuck Huckelberry's retirement. I hear he approved his own retirement. Wish I could do that!

Next BOS is in process of approving contract with Federal Government, implementing and enforcing Covid policies. Specifically quarantine and isolation procedures. Our Federal, State and local governments did they do such a great job in regard to Covid? Seems like we had much higher death rate than most other countries. We need to vote no on this. People left to their own devices will do better than government in taking care of themselves!

No computerized e voting, considering it is so easy to manipulate elections in this way. Both parties at different times have stated this. 1 person, 1 vote and 1 paper ballot. Computers can only be used as back up: Oh by the way, vote in 1 day. and only mail in ballots in extreme cases. Even Carter and democrats have said at other times that mail in voting is vulnerable to fraud. Count the votes at the precincts!
