Greetings,

Regarding agenda item #21 DHHS, CDC, amendment no.1 & 2 to PimaREACH Coalition. This grant is about racially profiling, which is an unethical and inhumane way to target and track the vulnerable communities in Pima County. You are disclosing their private health data to the CDC under the guise of benevolence towards the people of hispanic and American Indian descent. That is racially profiling and it is RACIST surveillance.

You are violating the civil rights of the affected communities.

All Americans are affected by the poor diet that the food conglomerates are offering. The same health dangers affect all of us, not just a some. We do not trust nor support any disclosures to the CDC. They have failed US and we will never trust them again. They should be disbanded based on the breach of trust during the Coronavirus years. Do check the VAERS database for evidence.

No extension should be granted for PimaReach grant, a RACIST surveillance and profiling.

Have a nice Day.
