CONTRACT AMENDMENT BOARD OF SUPERVISORS

The parties agree to amend the above-referenced contract as follows:

1. Section 1. PURPOSE: is struck in its entirety and replaced:

This Agreement establishes the basis for the Pima County to share with the CVPCS data on incidents leading to violent deaths occurring in Arizona. This data will be used for the purpose of contributing to the AZ-VDRS by providing accurate, comprehensive, and objective information regarding violent deaths and drug overdose deaths. The CVPCS will submit AZ-VDRS findings and the underlying data to the CDC that administers the NVDRS, and to ADHS for use in violent death and drug overdose prevention and intervention efforts (Section 1 is collectively the "Purpose").

The sharing of data will be in accordance with the terms and conditions stated in this Agreement and predicated on the mutual assurance that all unique identifiers in these data will be protected and kept strictly confidential.

2. Addition of Section 1.a BACKGROUND:

The Pima County, by collaborating with ASU's Center for Violence Prevention and Community Safety (CVPCS), supports participation in the Centers for Disease Control and Prevention's (CDC) National Violent Death Reporting System (NVDRS) in Arizona (AZ-VDRS). Recently, the NVDRS expanded to its current level of 50 participating states across the country, as well as the District of Columbia and Puerto Rico. The NVDRS compiles statewide, comprehensive data

on violent deaths by collecting information from death certificates, medical examiner reports, police departments, and other appropriate state, county, local, or tribal agencies ("Data"). Objectives of these statewide surveillance systems include providing comprehensive snapshots of violent incidents to further understand such events and informing communities, policy makers, planners, and decision makers on violent deaths so that preventive programs can be enacted. Establishment of the AZ-VDRS enables increased scientific understanding of violent incidents through research, translation of research findings into prevention strategies, and the dissemination of knowledge of violent incidents and prevention to professionals and the public. The Arizona Department of Health Services (ADHS) has worked with ASU's CVPCS to expand their role as a bona-fide reporting agent for the NVDRS in Arizona (AZ-VDRS). Data collection for the project will be sponsored by the CDC and coordinated by the research team at the CVPCS. CVPCS also collects data for CDC's State Unintentional Drug Overdose Reporting System (SUDORS) in the state of Arizona (AZ-SUDORS). The Data will be used for the purpose as outlined in Section 1 ("Purpose").

All other provisions of the Contract not specifically changed by this Amendment remain in effect and are binding upon the parties.
