Subject: Mandating vaccination against COVID-19

[REDACTED]

Instead of mandating that some Pima County residents face an unknown and unpredictable risk even though innocent of any wrong-doing, please consider a more effective mandate to refrain from eating the Standard American diet (SAD).

Each of us faces a myriad of risks daily but it is not your job to put us in a protective bubble, an impossible task, similar to the promise of this "miraculous" injection.

It is not your job to decide who has the most ominous risks. Each of us is unique with different reactions to either Covid or the shots; something no one can predict.

It is your job to treat each of us fairly and equally, without discrimination for whatever circumstances.

The Nuremberg Code requires informed consent for any and all experimental medical treatment for good reason.

The pharmaceutical industry is surprisingly protected from liability – are you?

With grave concerns,

Anne Loftfield
Native Tucsonan
Octogenarian
Mother, Grandmother, Great-Grandmother, and Great Great Grandmother

PO Box 497
Marana, AZ 85653
[REDACTED]

PS I was sorely disappointed to be prevented from delivering the above remarks in person!
