NO county dollars should be spent on illegal immigration activities.

Jan Leshar stated "Unsheltered releases are expected April 1. "There is no feasible way the County could afford to maintain sheltering services for an average of 1,000 people a day or more." "At \$1 million or more a week, it would cost County taxpayers between \$50 million and \$60 million a year to maintain current operations."

It looks like the border crisis is about to hit Pima county with all of its financial burden. Federal funding is running out and the border is still open. The US Citizen is expected to just put up with this. You, The Pima County Board, have encouraged and promoted the handling of all of these illegal immigrants into our area for many years. We could have worked to keep US Citizens a priority and not embraced the Sanctuary City status. We would still have a problem but it wouldn't have huge buildings with many employees and a world reputation as the place to go. There will be 1000s of people on our streets and crime will become even worse because you can not police and jail the problem we already have. You have failed the citizens of Pima County with short term planning and allowing basic county duties to be neglected to provide for non citizen services. This week's agenda is full of problems and none of them are easy. You are going to have to say no to many issues to get Pima County back to a budget that works for the citizens you are elected to protect.

The attempt to make Tucson a Sanctuary City failed. We do want immigrants, but only those who come legally. Real need for political asylum must apply in the first country they come to, not being bussed all over to take outrageous money & benefits from US Taxpayers.

Dear Supervisors,

Please support Jan Leshar's recommendation to stop funding immigration activities since immigration is a federal issue. To throw county money on top of the border crisis is to perpetuate it. We're seeing the problem extend to our streets and impact our safety. Also, what will the Supervisors do with the building recently purchased at 1150 W Dixel?

Sincerely,  
Kathy Madsen

Hello Clerk of the Board and Board of Supervisors!

My husband and I live in Vail, Pima County, AZ. We do not support illegal immigration no matter what you call it. These illegals are not welcome here in the USA. First off, they are criminals for breaking our Immigration Laws. The Immigration Law requires that immigrants file for permission to enter the United States before crossing our borders. Further, not only are these illegals entering the US breaking our laws, they are bringing in diseases, poverty, and they are not educated. In addition, The Biden Administration's Open Borders Policy is bringing in hard core dangerous criminals, gangs, mental cases, terrorists, human and drug traffickers. The Biden Administration's Open Borders Policy needs to Stop now.! There is a lot of money issued out there to support the open borders from the Local and Federal Governments and NGOs that are using our hard earned tax dollars. We know that the democrats are pushing to make these illegals immediate citizens for votes, and at the same time take away the US citizen's freedoms. We are sick and tired of the now two tier system forced on the American Citizens by the Far Left. We do not support charities that take our tax dollars to support the lawless illegals in any way. We support Legal Immigration only!

Thank you,

Alex and Filis Cardieri

It is the federal government's decision to allow an average of 1,000 persons per day to enter to await proceedings. Many if not most are not legally eligible for asylum. It is the federal government's responsibility to care for people they invited. They must not be allowed to foist this expense onto County taxpayers.

## BOS MEETING Feb. 20, 2024

**Addendum 2. Agenda Item #1.** Update Discussion - Status of Legal Asylum Seeker Program in Pima County. **SUPPORT JAN LESHER'S RECOMMENDATION.** NO county dollars should be spent on immigration activities, as the county admits this is a federal issue. YOU enabled this crisis for five years and are now also responsible for what is about to happen in Tucson, and elsewhere. What will you do with the 1150 W. Drexel building recently purchased?

**Agenda Item #6:** Why does Pima County need an HPV DAY? Really? Should we also have a Flu Shot Day, a Get Your Family to the Clinic Day, or a National Flu Day? This is another way to push a vaccine on (and into) all of us. To proclaim it an awareness day is absolute silliness. Don't we have better things to spend our time on?

**Agenda Item #21** Get out of the vaccine-promotion business and start working on critical items for our citizens like the border invasion and fentanyl crisis.

**Agenda Item #31:** We are *not* in the business of promoting a vaccine that is killing and injuring thousands of people across the globe, especially children and young adults, this is an infection with a 99% survival rate. There is NO COVID emergency. Return all federal money received that has anything to do with COVID-19 funding. How many people they know that have died suddenly or been injured by the jabs.

**Agenda Item #11:** It is time to get back to basic budget items.

### **Agenda Item #12: Petition for Relief of Taxes**

In Arizona, churches are exempt from property taxes unless they fail to file on time each year. In her Petition to the Pima County BoS, Mrs. Curtis, the pastor's wife, describes the hardship the church endured starting in 2019 and how the church fell into delinquency in filing for yearly exemptions. Since the hardship began, the church has been intentional and on time in filing with the Arizona Corporation Commission, believing this was all that was required in filing for tax exemption. Pima County offers a Valuation Relief Program and the church has filed paperwork to qualify. This church shows no income from property rentals, etc., and as they are a small congregation. EXERCISE compassion and either look further into the circumstances of this petition, or forgive the delinquency today, as you would have done, if you were considering a tax exemption form, after all.

**Agenda Item #15:** Monthly Financial Update: WE EXPECT THAT THE BOS WILL DO DUE DILIGENCE TO GET THE BUDGET UNDER CONTROL. One of the ways we suggest is to

examine all the frivolous spending, such as last meeting's agenda items for Catholic Community Services of Arizona to house "asylum seekers", provide transportation, and continue the cycle of supporting the current border invasion.

**Agenda Item #18:** Living Streets Alliance, Amendment No. 1 This is double-speak for authoritarian state control driven by a false climate change narrative.

**Agenda Item #30:** While end-of-life equipment replacement is understandable, it should not be under the pretense of carbon reduction and "sustainability" – which is increasingly merely a euphemism for state control.

## TO WHOM IT MAY CONCERN:

I am a native Tucson and am appalled to what items are on your agenda! These items are not worth your time or mine. They do not improve the lives of your citizenry. I went through school in the Tucson Unified District when it was a fabulous place and grew up in a city when people were proud to live here. I am a retired elementary school teacher and have been very active in my community. It use to be a source of pride to be a part of the Pima County Board of Supervisors and the City Council. My father served on the City Council and was also a Justice of the Peace. I am hereby coming to you today with a heavy heart and with great disappointment with what has happened to our once great city.

### Agenda Item #1.

NO MORE county dollars should be spent on immigration activities, as the county admits this is a federal issue. YOU HAVE ENABLED THIS CRISIS!! Tucson taxpayers SHOULD NOT HAVE TO PAY THE PRICE FOR ILLEGALS ALIENS THAT HAVE BROKEN THE LAWS TO COME HERE; The MAJORITY ARE NOT ASYLUM SEEKERS!!

### Agenda Item #6

This is another waste of taxpayer dollars....Why does Pima County need an HPV DAY? We might as well have a Cancer Day, a Heart Attack Day, a Flu Shot Day, a Hangover Day...This is ridiculous. We have better things to spend taxpayer dollars on like roads, bridges and safety!

### Agenda Item #21; and Agenda Item #31

Pima County is not in the vaccine promoting business! We need to promote ways to combat the fentanyl crisis and what to do if a loved one is having an episode!

### Agenda Item #30

Unless someone gets after China and India for increasing their carbon footprint, NO American citizen should pay for any of this nonsense! This is just another way to increase government control and serves absolutely no purpose since carbon will not increase the Earth Climate in degrees of warmth any more than less 1/10 of a degree in the next 100 years according the experts!!

The American People and of course PIMA County Taxpayers are done with paying for inefficient government and watching you folks come up with nonsense to increase our taxes

I see homelessness; I see unemployment; I see bad roads, bridges and a downtown where businesses have left. I see addiction; I see plummeting grade scores in schools, yet we are graduating 80% of the senior classes which means that we are graduating students that are not capable and cannot compete in our world. YET YOU WANT TO SPEND MONEY ON FRIVOLOUS MATTERS???

We want an efficient Board of Supervisors that actually cares about our safety and well-being. That is the purpose of government. You all should be ashamed of yourselves and be removed from office since all you do is vote for ways to spend money on things that are trivial and do not improve our lives.

Thank you for your consideration,

Amanda Fischer
