#19 The "affordable" rents are higher than many in the private market. Government should not be competing with the private sector and driving prices up.

#26 Why is a 3-fold increase required, and exactly how is this money spent?

#37 I oppose any spending to get more people dependent on the internet. People should retain the option to deal with the government in person, by check, or by mail, owing to security and privacy concerns and increased threats from hackers. In other words, people should have the right to EXCLUDE purveyors of digital services.
