Re: Support for Case No. P25SP00002, Southeast Employment & Logistics Center Specific Plan

Dear Supervisors:

On behalf of the Board of Directors and more than 160 members of Southern Arizona Leadership Council, I am writing to express our strong support for the proposed Purchase-Sales Agreement and associated Specific Plan/Comprehensive Plan Amendment under consideration for "Project Blue."

Initiatives like Project Blue are focused on meeting our society's growing demand for digital infrastructure and data delivery. The industry favors long-term, predictable business models with flexible, scalable campuses. Such investments translate to lasting economic returns and steady, quality jobs for our region. With an estimated \$250 Million tax revenue impact and projected 180 new, full-time jobs averaging 20% more than the typical Tucson salary, the fiscal benefits of Project Blue to our region are clear.

Broad-based infrastructure improvements, facilitated by the needs of Project Blue, also make good business sense and extend far beyond just their campus footprint. Modern data centers require creative design, operational innovation and visionary partnership with the communities where they are located. Project Blue has proven to be a collaborative
