Ms. Miller,
I was very frustrated by this email as The County ought to be doing everything possible to create a climate for further growth; both residential and commercial, not scare people away. This came from a sophisticated buyer seriously considering the purchase of a \$1,250,000 home by Sabino Creek. He has a ranch in Colorado as well as Patagonia and wanted to also be in Tucson. I wonder how many other people and businesses feel the same way.
Sincerely,
Rick Sack

Rick deciding to hold off for now. Not sure of you heard. Pima county is proposing to raise property taxes 14%! Nothing says lets put the breaks on Tucson real estate like a massive tax increase. Going to focus on my land sale in Denver for now. Would highly recommend getting Tucson association of realtors educated quickly. I think the public hearing is June 17 or June 7.

Steve,
Let me know if I can provide any addt'l information or schedule a showing for the soon to be listed home on Sabino Creek that we have discussed.
Thanks,
Rick
