**BOARD OF SUPERVISORS AGENDA ITEM SUMMARY**

Requested Board Meeting Date: 01/20/2015

**ITEM SUMMARY, JUSTIFICATION &/or SPECIAL CONSIDERATIONS:**

The Reconfiguration Planning Phase Agreement between Pima County and Motorola Solutions, Inc. is established to provide professional services required to complete the mandatory, 800 MHz Rebanding Project. This agreement succeeds the Reconfiguration Planning Phase Agreement with Motorola that was executed in January 2014 (#CT-IT-1400000000000000241).

As the deadline approaches to complete the Project, the IT Department finds sufficient need for Motorola Solution's specialized expertise in order to comply with the Federal Communications Commission ("FCC") Report and Order, FCC 04-168, in WT Docket 02-55 as modified in the Supplemental Order, FCC 04-294 (together, "the Report and Order"). As the contractor for the federally mandated Project, Sprint/Nextel has subcontracted with Motorola to provide such services in accordance with the Report and Order, and all costs associated with this project are borne by Sprint/Nextel as stipulated under section 5.1.2. of this Motorola Agreement. Pima County has already negotiated a separate contract with Sprint/Nextel to cover these costs; the Frequency Reconfiguration Agreement with Nextel West Corporation was approved by the Pima County Board of Supervisors on December 9, 2014 (CTN-IT-1500000000000000053).

The Motorola Reconfiguration Implementation Phase Agreement is effective upon endorsement by the Pima County Board of Directors through July 15, 2018, with option to renew upon mutual consent of the parties.

CONTRACT NUMBER (if applicable): CT-IT-15000000000000000006

**STAFF RECOMMENDATION(S):**

The Information Technology Department recommends that the Pima County Board of Supervisors adopt and the Chairman sign the Reconfiguration Planning Phase Agreement between Motorola Solutions, Inc. and Pima County.

IMPACT:

IF APPROVED:

Motorola Solutions, Inc. will provide professional services to complete the mandatory 800 MHz Rebanding Project in order for the County to comply with the Federal Communications Commission ("FCC") Report and Order, FCC 04-168, in WT Docket 02-55 as modified in the Supplemental Order, FCC 04-294 (together, "the Report and Order"). All costs associated with the Project will be covered by Sprint/Nextel, per separate agreement (CTN-IT-15\*0053).

IF DENIED:

Motorola Solutions, Inc. will not be allowed to provide professional services to complete the mandatory 800 MHz Rebanding Project. This will result in the County having difficulty completing the project to comply with the Federal Communications Commission ("FCC") Report and Order, FCC 04-168, in WT Docket 02-55 as modified in the Supplemental Order, FCC 04-294 (together, "the Report and Order"), and the County will be in violation of the FCC order.
