Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors
130 W Congress, 5th floor
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as a cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for our whole community.

Sincerely,

--

Subject: Protest of Proposed Zoning Change for Bike Ranch

Please forward to the Honorable Board of Supervisors

While I confess ignorance on the rules of engagement for protesting this Bike Ranch proposal, **I am absolutely convinced approval on its current site is totally inappropriate and would be a great disservice to our Tucson neighborhood community to include the bikers, joggers, and hikers currently utilizing Old Spanish Trail, Escalante and especially the Saguaro National Monument.** At your May 21st meeting these facts were highlighted. Even the local director of the Eastside Saguaro National Monument eloquently voiced her non-support of the proposed Bike Ranch with specifics addressing the adverse impact on their operation, people, animals and habitat. Approval would essentially give all the guests and visitors (+100 people) at the 49 room Bike Ranch immediate and concentrated access to the park. Her objections, for unknown reasons, were not specifically addressed in the May 28th Board of Supervisors Memorandum of the public hearing. Regardless of this omission, the question remains—**Are you willing to compromise the character of this wonderful park to the detriment of local bikers, runners, walkers and visitors? In addition virtually every homeowner in this area is appalled with this proposal—Are you to allow a violation of trust and specifications (+3.5 acre single family housing) as well as authorize an infringement on the environment of our neighborhood?**

While the Pima County Department of Transportation in the subsequent report stated Old Spanish Trail and Escalante Road have “adequate capacity to accommodate the proposed project”, there are much bigger questions that do not have satisfactory answers. There is no definitive information provided on the significant costs and true impact of having:

- a. +100 guests arriving, departing, exploring (many renting or arriving with vehicles) from their “casita rooms, luxury suites and Bunk House” across from the park.
- b. ? projected number of visitor and Tucson clientele daily at the “Bike Barn” and customers to be accommodated at the “Chow House”
- c. “135 ranch employees” cited on the Bike Ranch website that will be arriving and departing for work each day
- d. ? projected number of contractors, daily service people, supply deliveries, utility people, waste pickups, etc. that will be supporting the operation.
- e. ? increased road maintenance required—it should be noted that both Old Spanish Trail and Escalante are currently marginal and need work.

There is no question that Tucson residents who currently bicycle and jog on twisting, turning, two-lane Old Spanish Trail & Escalante will be exposed to additional dangers with the projected multitude of commercial and privately owned vehicles using these access roads. How many increased accidents, injuries as well as fatalities are projected?

Isn't there a moral and legal obligation to protect all the current residents who purchased low density homes anticipating normal growth in a protected neighborhood?

If the Bike Ranch investors are successful with this venture on 21 acres, will the precedent allow them to capitalize by expanding on their additional 24 acres of available property?

Bottom line—the Bike Ranch concept is great, but it should be located on true (not “legal loophole”) commercial property. This would allow their guests to join our local bicyclist, joggers, walkers who utilize Old Spanish Trail to/from Saguaro National Park without compromising this wonderful facility. Also, a different location would protect Tucson residents from the additional safety hazards cited. Finally, disapproval of the current proposal would honor both your legal and ethical responsibilities to our residents.

Thank you for “listening”.

Dear Pima County Supervisors,

To: Clerk of the Board of Supervisors
130 W Congress, 5th floor
Tucson AZ 85701

Dear Pima County Supervisors,

I am in favor of the proposed Bike Ranch bicycling and training resort at the corner of Escalante and Old Spanish Trail. This project complements Pima County's large investment in bicycling infrastructure, and its image as a cycling destination.

The fact that the Bike Ranch will use the highest standards of sustainable design, land preservation, and energy and water conservation is a big plus, and will set a high bar for future developments in our fragile desert landscape.

I believe that Saguaro National Park will directly benefit from introducing new riders and hikers to this beautiful desert while insuring a continual revenue stream. The Bike Ranch will have positive benefits for our whole community.

Sincerely,

--
