Hello-

Regarding Agenda Item #24: Community and Workforce Development - \$500,000 for Affordable Housing Funding Gap

Please vote NO. Take a look at the current financial forecast that is part of Agenda Item #16 to be discussed and see how many departments are over budget with explanations of higher utilities, food costs, gas prices, etc. This will be a recurring theme and the BoS will continue to fund projects to potentially help a few hundred low-income families using taxpayer money coming from property owners who are dealing with the same higher utilities, food costs, gas prices, etc. Please figure out how to start cutting costs and rethinking how and where the budgeted money gets spent because the costs of everything are going to continue to increase substantially.

Sincerely,
Terri Ferrara

10-14-2023 Pima Board of Supervisors and Clerk of the Board Please Vote No! Please do not continue to fund projects that potentially help just a few hundred low-income families using taxpayer money coming from property owners who are dealing with the same higher utilities, food costs, gas prices, etc. Instead start brain storming how to CUT costs and rethink how and where the budgeted money gets spent because the costs of everything are going to continue to increase substantially. Revisit the current financial forecast memo (Agenda Item #16) and see how many county departments are over budget with explanations of higher utilities, food costs, gas prices, etc. Thank you, Julie Harrod Marana, AZ

Good evening Supervisors,

I urge you all to vote NO on agenda item 24. You have already raised our property taxes this year when inflation was out of control.

Please STOP using our funds for items like this!

Thank you, Terra Radliff

Vote No. Unexpected costs are going to become commonplace. Time to anticipate them. According to your own Memorandum, the following Departments are forecast to be over budget: Behavioral Health, Community Workforce & Dev, Facilities Mgt, NRPR, PDS, Sheriff's Dept, County Library, Transportation, Health Benefits Trust. That is a long list of over-budget departments. Let's slow down. My understanding is that the project is already funded. Let's try to work within the budget.
