Following are my comments for the Board of Supervisors Meeting 4-18-23

Agenda Item #16 Expansion of the Behavioral Risk Factor Surveillance System in Pima County. (CT-HD-23-303)

Interesting that the expansion of participants has increased to 1,500 and the additional questions only involve firearm injury prevention. The Pima County Board of Supervisors have been asked by the public about the detriment to Pima County economics and to the public in general based on the Boards poor decisions during the lock downs to the community, school closures, forced vaccination & masks & for some participation in the mandates or risk losing employment. Let's expand this risk factor surveillance and receive some complete data on how YOUR decisions affected our community and continue through 2023. Maybe we can then understand what interventions the Board of Supervisors need to halt the problems you are creating in our community.

VOTE NO on this expansion

God Bless America
Sharon Fickes
