

MEMORANDUM

Date: May 12, 2023

To: The Honorable Chair and Members
Pima County Board of Supervisors

From: Jan Leshner 
County Administrator

Re: Additional Information on April 18, 2023 Addendum 1 Item #5 – Pay-As-You-Go (PAYGO) Road Repair Program

Background

During the Board of Supervisors Meeting on April 18, 2023, concern was expressed about the County's ability to deliver on the promises made to constituents at the beginning of the 10-year Pavement Repair and Preservation Program based on using the recommended guiding principles. As stated at the meeting, the County remains committed to delivering the funding for road repair approved under the 10-year Plan, which includes eleven (11) fiscal years from Fiscal Year 2019/20 through Fiscal Year 2029/30. This memo addresses questions from Board Members discussed at the meeting.

When the Pima County Department of Transportation (PCDOT) embarked on the 10-year Pavement Repair and Preservation Program, the initial scenario projection indicated that at the end of the program the average Pavement Condition Index (PCI) rating for the County roadway network would be 80. Since this was the average rating target, at any given point in the program there will always be roads at various PCI ratings, which is different than all roads being at a PCI of 80 or higher. Several factors have affected the program since inception, such as unprecedented inflation, material availability and cost escalation, and the accelerated speed that repaving has occurred. However, what has not changed is the County's commitment to repairing the roads and prioritizing fixing roads in poor or very poor condition.

Original Pavement Condition Index Ratings

PCDOT published the first set of PCI ratings for all County roads on April 3, 2020, at the end of the first year of the Pavement Repair and Preservation Program. These PCI measurements were taken midway through delivery of the Fiscal Year (FY) 2019/20 program, so some of the very poor roads had already been repaired at the time measurements were taken. Attachment 1 includes all the poor and very poor roads based on the FY 2019/20 PCI measurements and the year when they were repaved, if applicable. The table below shows the number of miles remaining in the very poor (PCI < 25) and poor (PCI 25 to 49) condition at the completion of the Fiscal Year 2022/23 program. Local roads are prioritized by selecting the road with the lowest PCI as the "trigger" road and then packaging the associated local roads in the original subdivision plat into a single, larger repaving project. This results in better construction prices by addressing larger paving packages with less

MAY 12 2023 03:55 PM

mobilization costs. This also resulted in some local roads with higher PCIs being repaved earlier because they are grouped with a lower PCI “trigger” road.

Miles in Poor and Very Poor Condition

	2020 PCI	Repaved	Remaining	% Complete
<u>Very Poor</u>				
Local Roads	10.4	10.4	0	100%
Arterial Collector Roads	7.5	7.5	0	100%
<i>Very Poor Total</i>	<i>17.9</i>	<i>17.9</i>	<i>0</i>	<i>100%</i>
<u>Poor</u>				
Local Roads	467.9	371.9	96	79%
Arterial Collector Roads	249.4	182.8	66.6	73%
<i>Poor Totals</i>	<i>717.3</i>	<i>554.7</i>	<i>162.6</i>	<i>77%</i>

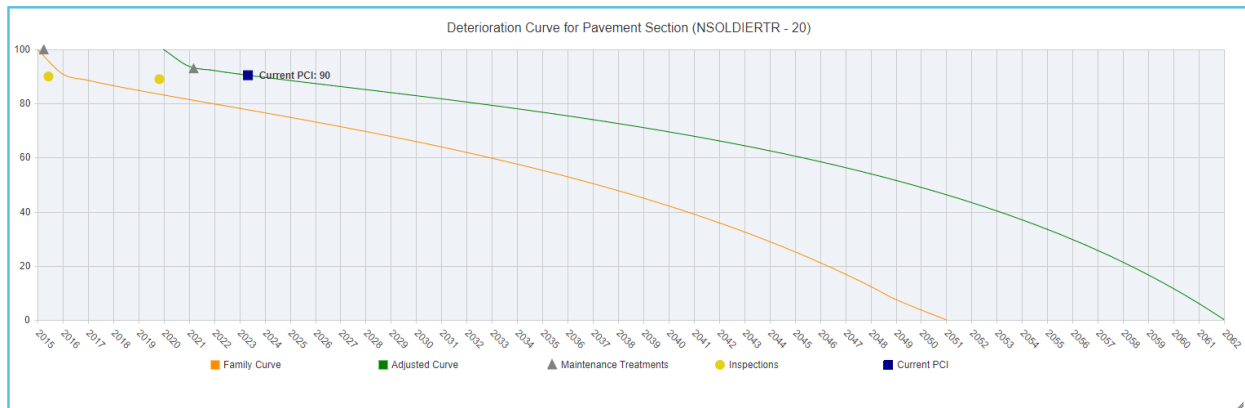

As shown in the summary table, all roads that were in very poor condition in April 2020 have been repaved and 77% of the roads which were in poor condition have been repaved, with a total of 162.6 miles (96 local and 66.6 arterial/collector) remaining at the end of the FY 2022/23 program.

The guiding principles developed by PCDOT with a Pima County Transportation Advisory Committee (PCTAC) Subcommittee and approved by the full PCTAC for the program moving forward considered many different factors that together indicate the overall health of the entire network better than only considering the average network PCI. This bigger picture approach provides a more fiscally sound approach to repairing and preserving repaired roads by increasing the investment in preventative treatments to protect repaired roads, while still focusing on repaving roads in very poor and poor condition. The guiding principles ensure that at least 65 percent of the annual program funding still goes to repaving with a priority on roads in the worst condition as intended with the original 10-Year Plan.

Extending Pavement Condition with Preservation Treatments

As roads age, they continue to deteriorate, and the PCI drops lower. When the right treatments are applied at the right time, which is the underpinning of the adopted guiding principles, pavement preservation treatments can significantly decelerate this deterioration and extend the service life of the pavement. These preventative treatments cost significantly less than the cost to repave, therefore fewer dollars will treat more roads resulting in a better overall road network condition. There is a critical timeframe in which these preventative treatments must be applied to achieve the greatest longevity of the road. Once the roadway is beyond the critical timeframe for preventative maintenance, there is no choice other than to rehabilitate the road through more costly repaving. The below graph is an example of a

deterioration curve in the Street Saver system used by PCDOT. The curve is for a segment of N. Soldier Trail between E. Fort Lowell Road and E. Tanque Verde Road. This roadway was repaved in 2015 and then received a crack seal and fog seal in 2021.

The preventative maintenance treatment in 2021 extended the PCI curve (difference between the orange and green lines) from 2051 to 2062, significantly increasing the life expectancy of the roadway. Over the life of this road, other preventative treatments will need to be applied to continue to decrease deterioration and extend the roadway life. As seen in the curve, the rate of deterioration increases as the roadway nears the end of its service life at which time repaving will become necessary. As such, a successful pavement management system must balance funding between preventative treatments and repaving.

Roads Currently in Very Poor Condition

In establishing a more balanced approach, one of the PCTAC adopted guiding principles is to have no more than 5 percent of network roads in very poor condition. Very poor roads are defined by industry standard as those less than 25 PCI. The guiding principles set "very poor" (PCI <25) as the lowest condition, which aligns with the industry standard, rather than "failed" (previously PCI <40). As stated, roads rated as very poor each year will continue to be prioritized, along with the associated local roads in the subdivision plat, when selecting roads for repaving. Roads categorized as Poor (PCI 25 to 49) will be prioritized next after the selection of very poor roads.

The table below shows roads currently in a very poor condition by Board of Supervisor District. The PCI is based on existing Street Saver data. The current PCI is an estimation calculated by Street Saver based on the original PCI data collected in 2019, which has been degraded based on a deterioration curve like the one shown in the example above. This list will change whenever the new roadway condition data is collected and uploaded into Street Saver.

Roads Currently in Very Poor Condition at end of FY22/23 Program

BOS District	Road Name	Beg Location	End Location	Functional Class	PCI	Miles
1	N CAMINO DE LA TIERRA	W INA RD	N SHANNON RD	Major Collector	16	0.65
1	N PASEO DEL RANCHO ESCONDIDO	W PLACITA PRIETA	W CORTARO FARMS RD	Minor Collector	23	0.16
1	N LASON LN	E BARYTE PL	E SNYDER RD	Local	24	0.43
District 1 Total						1.24
3	W SILVERBELL RD	N TRICO RD	N AGUIRRE RD	Major Collector	21	2.44
3	W AVRA VALLEY RD	N SANDERS RD	2607 FEET FROM N SANDERS RD	Major Collector	22	0.49
3	W SILVERBELL RD	N AGUIRRE RD	N COCIO RD	Major Collector	22	0.67
3	N SAHUARO ST	W OCATILLO AV	E CHOLLA AV	Minor Collector	23	0.13
3	W SILVERBELL RD	N KALAMA CI	N TRICO RD	Major Collector	23	2.44
District 3 Total						6.17
4	S HOUGHTON RD	393 FEET FROM E FALCON POINT DR	46 FEET FROM E ESCALANTE RD	Arterial	18	0.76
4	E WHITEHOUSE CANYON RD	970 FEET FROM E VALLE DE LAS ROSAS	S CAMPBELL RD	Minor Collector	19	0.44
District 4 Total						1.2
Countywide Total						8.61

As shown in the table there are 8.61 miles of roads currently in the very poor condition, which is 0.4 percent of the network. There is only one local roadway in very poor condition and there are no roads in very poor condition in BOS Districts 2 and 5. Attachment 2 is a map of the roads currently in very poor condition.

Roads that reach the poor or very poor condition have followed the deterioration curve that is part of the typical life cycle of a roadway. Surface treatments are the most cost-effective means to extend the life of the pavement, but as the pavement ages preservation treatments become ineffective from a cost and performance standpoint. Similarly, performing a mill and pave repair on pavement before it has reached a poor condition, is not cost effective or financially responsible. As has been stated, it is critical to apply the correct treatment at the right time based upon the life cycle stage of the roadway, which is what has been reflected in the guiding principles.

The April 26, 2023 letter sent to the Board of Supervisors from the PCTAC Chair included a request for \$15 million of additional funding for the upcoming Fiscal Year 2023/24 program. This amount was determined based on a PCTAC request for PCDOT to run an analysis on the additional funding necessary to have no roads in very poor condition at the end of the Fiscal Year 2023/24. The analysis determined that an additional \$15 million would be necessary to repave all roads currently in very poor condition, as well as any roadways that are projected to deteriorate to very poor condition before July 1, 2024. The cost estimate includes the cost of repaving the local “trigger” road in worst condition and the associated subdivision roads, which is the process that has been followed for creating the local roadway repair lists.

Roads Falling into Very Poor Condition in the Next Four Years

A Board Member asked a question about the number of roads that will slip into very poor condition in the next four years. Current PCDOT funding for the pavement program from state shared gasoline and vehicle licensing totals \$98.8 million for the next four years

The Honorable Chair and Members, Pima County Board of Supervisors

Re: **Additional Information on April 18, 2023 Addendum 1 Item #5 – Pay-As-You-Go (PAYGO) Road Repair Program**

May 12, 2023

Page 5

(FY2023/24 through FY2026/27), with a minimum of 65 percent (\$64.2 million) going towards mill and pave repair of the worst roads. This funding level equates to approximately 156 miles of roads being milled and paved, which exceeds the mileage of roads that Street Saver indicates would fall into the very poor category over the next four years. This means, based on the guiding principles, the current PCDOT funding levels will be able to repair all roads that fall into very poor condition, as well some in other conditions, while still applying the needed preservation treatments to other roads, which will slow degradation and extend the life of the paved roadway network.

Additional Cost to Have All Roads in Very Good and Good Condition

A question was also asked about the cost to have all County roadways in good or better condition at the end of the 10-year program. It should be noted that the 10-Year Plan never intend that all roads would be in good or very good condition at the end of the program. Additionally, it is important to recognize that road conditions change over time as shown with the degradation chart, such that the mix of roads in very good, good, poor and very poor condition change from the beginning to the end of the 10-year program.

Notwithstanding, a scenario was run in Street Saver to evaluate the cost to change the original program so all roads would be in good or better condition at the end of the program. The total estimate for this scenario is \$507,272,443. This amount is over the amounts already spent in the first four years of the program. There is currently \$252,700,000 programmed for the remainder of the program, meaning an additional \$254,572,443 would be needed during the remaining seven years of the program.

If the Board of Supervisors wanted to change the original program to now achieve a goal of having all roads in very good and good condition, the required additional funding could not be solely allocated from PAYGO or other General Fund sources given the \$298.3 million tax equity limitation on the use of these funds on roads in the unincorporated area as outlined in the February 14, 2020 [memorandum](#). At this point, no more than \$70.3 million of additional PAYGO or General fund dollars can be spent before triggering the equity limit and potentially requiring proportional dollars to be applied to road repairs in municipalities. This amount combined with the \$225 million already committed as originally intended with the 10-Year Plan would reach the \$298.3 million cap.

Timing of Specific Future Road Repairs

A request was made at the April 18 Board Meeting to identify when roads would receive future repairs. The timing of when specific roads will be repaired is not something that can be determined beyond the one-year projection. Changes in market conditions and bid prices have a significant impact on what can be accomplished with the allocated funding each year, making it impossible to reliably project costs multiple years into the future.

The Honorable Chair and Members, Pima County Board of Supervisors

Re: **Additional Information on April 18, 2023 Addendum 1 Item #5 – Pay-As-You-Go (PAYGO) Road Repair Program**

May 12, 2023

Page 6

Additional Funding Scenarios

PAYGO funding was advanced for the Pavement Repair and Preservation Program from what was originally planned in 2019 providing an additional \$150 million in work in FY2020/21, FY2021/22 and FY2022/23. Advancing funding allowed far more of the worst roads in the County to be repaired over the first four years of the program than originally envisioned; however, it also required additional preservation treatments earlier in the program to ensure that the roads treated remain in good condition, as discussed in the August 20, 2021 [memorandum](#) from Mr. Huckelberry on the subject.

Advancing another \$15 million to address all roads that would slip into very poor condition by the end of FY2023/24 seems like a quick fix, but due to the constant deterioration of pavement it only serves as a fix for that single moment in time. Developing a program that balances the investment in repair with the required preservation treatments allows for a sustainable pavement management system. The guiding principles provide assurances that there will continue to be an investment in mill and pave projects for the worst roads (minimum of 65 percent of funding) and investment to our local road network (minimum of 30 percent of repair funding).

As noted above, there is an equity limitation on using General Fund PAYGO allocations for unincorporated County roadways that imposes a limit of \$298.3 million of General Fund dollars that can be spent on unincorporated Pima County roads before it creates an equity issue with the other municipalities. Based on this limit, only an additional \$70.3 million of General Fund money can be spent on the 10-Year program.

At the April 18 Board Meeting, it was requested that scenarios be created to provide additional \$25 million allocations to the road repair program up to an additional \$125 million without increasing the tax rate. The subsequent letter from PCTAC requested an additional \$15 million for Fiscal Year 2023/24. Based on receipt of this request, along with the equity limitations on allocating additional PAYGO or General Fund dollars, the Finance and Risk Management Department and PCDOT developed several scenarios that could provide another \$15 million of funding to the Pavement Repair and Preservation Program; one of these scenarios does so without increasing the tax rate.

PCDOT has already committed \$20 million to the FY2023/24 program. It is important to realize that pavement repair and preservation is but one part of the overall network that requires resources to operate and maintain. Increasing the amount of PCDOT revenues for road repair would require additional cuts to positions or other programs which were considered but are not recommended due to the decrease in service that would be caused. Likewise, cuts to transportation capital projects were considered and are not recommended due to restrictions on the project funding sources, such as only being able to use impact fees for capacity enhancements. Attachment 3 is the list capital projects from the FY 2023/24 Recommended Budget, including the PCDOT capital projects.

Scenario 1 – Eliminate Specific items in the FY 2023/24 Recommended Budget

A review of all capital spending, PAYGO allocations and other changes to the FY 2023/24 Recommended Budget was undertaken to identify possible funding for an additional \$15 million of General Fund dollars to be allocated to the DOT Pavement Repair and Preservation Program. The below table identifies potential funding changes to the FY2023/24 Recommended Budget to provide an additional \$15 million for road repair. This option provides a one-time allocation of funding. Additional annual allocations would require direction from the Board to dedicate more General Fund dollars to road repair, up to the \$70.3 million of that can be spent before triggering the mentioned equity limit.

Item	Description	Amount
NRPR Fee Schedule Revenue	This is a new changes by the BOS for FY 2024. Move fee dollars back to the General Fund for FY 2023/24 and delay implementation for 1 year.	\$ 1,200,000
Planned 2023/24 PAYGO	Affordable Housing - BOS initiative Department has not spent \$4.5 million of the \$5 million allocation for FY 2022/23. Reducing the FY 2023/24 from \$5 million to \$2.5 will provide the Department with \$7 M to be spent in FY 2023/24	2,500,000
Planned 2023/24 PAYGO	EV Charging Stations - FY2024 These are PAYGO dollars and could be redirected without impacting Departmental budgets	600,000
Planned 2023/24 PAYGO	Solar Projects - FY2024 These are PAYGO dollars and could be redirected without impacting Departmental budgets	434,692
Planned 2023/24 PAYGO	Conservation Land Acquisition These are PAYGO dollars and could be redirected without impacting Departmental budgets. The Department has not spent the entire \$2 M allocated in FY 2022/23.	2,000,000
Planned 2023/24 PAYGO	NRPR Deferred Maintenance is currently \$2 M. Reducing the PAYGO allocation to \$1.5 M.	500,000
Planned 2023/24 PAYGO	Recorder's Office Space Evaluation & Renovation Current Budget is \$2.3 M. This project has not yet been costed. Reducing the project to \$1.3 M	1,000,000
Planned 2023/24 PAYGO	Arthur Pack Park Reclaimed Water Conversion These are PAYGO dollars and could be redirected without impacting Departmental budgets	1,990,000
Reduce the Salary Process Reserve	Additional funds for Salary Process changes - currently \$5 M. Reducing the contingency by \$1 M will leave \$4 M available.	1,000,000
Reduce the Inflation Reserve	Inflation Reserve - currently \$5 M Reducing the contingency by \$1 M will leave \$4 M available.	1,000,000
Stadium District - General Fund Support	Eliminate a portion of the General Fund support given to Stadium District.	1,000,000
Capital Projects	Push the Old Tucson Studio Warehouse project to FY 2024/25	1,970,000
Total of Cuts to Fund \$15 Million		\$ 15,194,692

The Honorable Chair and Members, Pima County Board of Supervisors

Re: **Additional Information on April 18, 2023 Addendum 1 Item #5 – Pay-As-You-Go (PAYGO) Road Repair Program**

May 12, 2023

Page 8

Scenario #2 – Reduce General Fund Expenses and Hold Filling Vacancies

A review of all General Fund and General Fund funded Departments was undertaken to identify a possible additional \$15 million of General Fund dollars for the Pavement Repair and Preservation Program. Potential funding changes to the FY2023/24 Recommended Budget include across the board reductions to all General Funded Departments, including all Elected Officials and the Courts.

The proposed reductions would include reducing the base budgets by 1.5 percent and imposing an additional 4 month hiring freeze. The combination of these reductions would generate \$15 million dollars for road repair. The 1.5 percent reduction could be either a one-time reduction or a permanent decrease. The additional 4 months hiring freeze would be added to the 2 months of vacancy saving already included in the Recommended Budget. If the Board chooses to make this cut permanent, it is recommended that positions be eliminated instead of a hiring freeze.

Scenario #3 – Impose a Road Property Tax

The Board of Supervisors has the authority under Arizona Revised Statutes §28-6712 to institute a Road Property Tax. In FY 2018, the Board initiated a Road Property Tax for \$0.2500 and then eliminated it in the following year. The statute allows for a maximum of \$0.2500. This would generate approximately \$25,000,000 in revenue. Not all of this revenue could be used to fund the PCDOT Pavement Repair and Preservation Program.

Since this is a County-wide tax, the County would be limited to spending approximately 41 percent or \$10,250,000 based on Net Assessed Value (NAV) on roads in unincorporated Pima County. The remaining \$14,750,000 would need to be spent in the various other jurisdictions. While this would not fully fund the PCTAC \$15 million request, it would provide an on-going source of funding if the tax is enacted in subsequent fiscal years. This option would need to be included in the Tentative Adopted Budget being considered on May 16, 2023, and can be imposed by a vote of the majority of the Board of Supervisors.

Scenario #4 – Increase the Primary Property Tax Rate

The Board of Supervisors has the authority to increase the Primary Property Tax rate. At the current NAV, one penny of tax will generate approximately \$1 million of revenue. To raise \$15 million to be spent on unincorporated Pima County roads, the Board would need to increase the primary property tax rate by \$0.3700. This would generate approximately \$37 million in revenue. Not all of this revenue could be used to fund the PCDOT Pavement Repair and Preservation Program.

Since this is a County-wide tax, the County would be limited to spending approximately 41 percent or \$15,000,000 based on Net Assessed Value on roads in unincorporated Pima County. The remaining \$22,000,000 would need to be spent in the various other

The Honorable Chair and Members, Pima County Board of Supervisors

Re: **Additional Information on April 18, 2023 Addendum 1 Item #5 – Pay-As-You-Go (PAYGO) Road Repair Program**

May 12, 2023

Page 9

jurisdictions. This would fully fund the PCTAC \$15 million request and provide an on-going source of funding if the tax is enacted in subsequent fiscal years. This option would need to be included in the Tentative Adopted Budget being considered on May 16, 2023, and can be imposed by a vote of the majority of the Board of Supervisors.

Scenario #5 – Impose a County General Excise Tax

The Board has the authority under Arizona Revised Statutes §42-6103 and §42-5010 to impose up to a 0.50 percent sales tax with the unanimous vote of the Board. This sales tax would generate approximately \$109,000,000 annually, based on the most recent data. The Board would then determine what percentage of this new revenue stream would be earmarked for the PCDOT Pavement Repair and Preservation Program. Like the Road Property Tax, this is a County-wide tax and the County would be limited in the amount that could be spent on unincorporated Pima County roads.

Conclusion

The pavement repair program is in a position to continue to deliver on the promise made to repair roads. The commitment to spend \$225 million in PAYGO funding promised with the 10-Year Plan is being fulfilled. By now increasing the application of surface treatments, the program will slow the deterioration of the roads in good condition, while also continuing to repair the roads in the worst condition.

Using this approach will limit the number of roads deteriorating into poor and very poor condition. Applying the guiding principles will allow the program to make best use of the funding allocated to the program and stay within the General Fund tax equity cap, while maximizing the overall road network condition and extending the service life of the road network.

Nonetheless, options for providing additional funding without exceeding the General Fund tax equity cap are provided in this memorandum for Board of Supervisors consideration and direction.

SUMMARY OF ACTIVE CAPITAL IMPROVEMENT PROJECTS

Fiscal Year 2023/24

For a comprehensive list of the active and future projects comprising the Pima County Capital Improvement Plan refer to the Capital Improvement Program section - Summary of Active Capital Improvement Projects, Fiscal Years 2023/2024 - 2028/2029 and Beyond.

Project	FY 2023/24
<u>Analytics and Data Governance</u>	
ERP Replacement	12,421,500
<u>Analytics and Data Governance Total</u>	12,421,500
<u>Environmental Quality</u>	
Tire Yard Improvements	1,500,000
<u>Environmental Quality Total</u>	1,500,000
<u>Regional Flood Control District</u>	
Arroyo Chico Detention Basin USACOE	50,000
Big Horn Fire Flood Hazard Mitigation	2,114,598
City of Tucson Downtown Links Project	3,000,000
Continental Ranch Regional Force Main Loop Restoration	2,500,000
El Vado Storm Sewer	100,000
Finger Rock Wash Infrastructure Protection	980,000
Floodprone Land Acq Program	3,000,000
Green Stormwater Infrastructure	10,000
Green Stormwater Infrastructure FY 23/24	490,000
Green Valley Drainageway Program	10,000
Green Valley Drainageway Program FY 23/24	490,000
Landscape Enhancement and Restoration	10,000
Landscape Enhancement and Restoration FY 23/24	290,000
Loop Ongoing Improvements and Maintenance	10,000
Loop Ongoing Improvements and Maintenance FY 23/24	290,000
Major Watercourse Infrastructure Management	10,000
Major Watercourse Infrastructure Management FY 23/24	1,990,000
Pantano Grade Control Structures	500,000
Riparian Mitigation Project Acquisition Fund	500,000
Ruthrauff, Gardner lane UPRR Culvert	1,000,000
Santa Cruz Cortaro Narrows Training Structures	500,000
Santa Cruz River Wildlife Ramp	450,000
Urban Drainage	2,700,000
<u>Regional Flood Control District Total</u>	20,994,598
<u>Facilities Management</u>	
130 W Congress Facade Improvements	4,682,534
Adult Detention Security Replacement	5,020,596
Curley Gym Renovation Project	1,600,000
Energy Efficient HVAC Replacements - FY2024	400,000
EV Charging Stations - FY2024	600,000
Himmel Library Expansion and Renovation	810,000
Kino Campus Building Infrastructure	1,711,754
Kino Service Center - Replace 2 Chillers	525,000
Main Jail Facility Assessment and Master Plan Study	490,000
Martha Cooper Library Expansion	6,508,135
Northwest County Service Center - Construction Phase	15,830,000
Northwest County Service Center - Design Phase	200,000
Office of the Medical Examiner - Construction Phase	27,113,000
Old Tucson Warehouse	1,970,000
Recorder's Office Space Evaluation & Renovation	1,400,000
Richard Elias - Mission Library Expansion	4,870,000
Solar Projects - FY2024	434,692
Superior Court Tenant Improvements	1,360,000
Teatro Carmen Restoration	953,000
<u>Facilities Management Total</u>	76,478,711
<u>Fleet Services</u>	
Ajo Arizona Fuel Island	1,074,717
