STChealth, L.L.C., Amendment No. 2, to provide for a data, informatics and analytics consultant, amend contractual language and scope of services, COVID-19 Containment grant from the CDC via ADHS Fund, contract amount \$98,600.00 (CT-HD-22-80)

I have reviewed the web page of this business and the project purpose and goals and feel that this is just another expenditure to increase incremental creep of the government into the public health records. It's another step toward governmental control of the public's activity. Spend the money on improving health services not tracking who is/has done something to their own body.

Covid is real but it was used as a crisis to manipulate the population.... stop this nonsense and use the money to help folks recover and not line the pockets of crisis mongers.
