Subject: Please vote NO on agenda item #37, June 6, 203

CAUTION: This message and sender come from outside Pima County. If you did not expect this message, proceed with caution. Verify the sender's identity before performing any action, such as clicking on a link or opening an attachment.

Dear Supervisors,

I urge each one of you to vote NO on agenda item #37.

Please reject any contract with SCI which might entangle Pima County with Smart Growth and 15-minute city plans which run contrary to the interests and well-being of County residents.

As I'm sure you are all aware, the SCI Economic Blueprint (in tandem with the Pima County Economic Development Plan and the Pima Prospers comprehensive plan) focuses on four expected growth sectors — **aerospace and defense; bioscience and health care; alternative energy and natural resources; and transportation and logistics.**

Given that SCI is one of the contributors to the Pima Prospers comprehensive plan, which is disturbingly similar in many respects to the City of Tucson's Tucson Resilient Together climate action plan, and that the ICLEI-subscribing PAG (Pima Association of Governments) is also involved, one would speculate that areas like health care, alternative energy and transportation may be tied in to United Nations- and World Economic Forum-touted urban planning models like SMART cities and 15-minute cities.

If so, many of these new jobs (nearly 40,000 of them) would be directly related to employing the residents of Pima County to build their own prison.

Please do NOT vote on ANY SMART agendas!

Thank you for your time and consideration, Terra Radliff
